**Notes to the Abbreviated Accounts for the period ended 30 September 2015**

**1 Accounting Policies**

**Basis of measurement and preparation of accounts**

The directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the company and to enable them to ensure that the accounts comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

These abbreviated financial statements have been prepared in accordance with the provisions applicable companies subject to the small companies' regime.

**Turnover policy**

Turnover represents net invoiced sales of goods, excluding value added tax

**Tangible assets depreciation policy**

Tangible assets are depreciated by equal annual instalments over their estimated useful lives. The rates used are as follows:

Freehold, Long leasehold land & buildings - 25%

Plant and machinery - 25%

Fixtures, fittings and office equipment - 25%

Motor vehicles - 25%

The carrying values of tangible fixed assets are reviewed for impairment in periods where events or changes in circumstances indicate the carrying values may not be recoverable.

**Other accounting policies**

**Deferred taxation**

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more, tax, with the following exceptions:

- provision is made for tax on gains arising from the revaluation (and similar fair value adjustments) of fixed assets, and gains on disposal of fixed assets that have been rolled over into replacement assets, only to the extent that, at the balance sheet date, there is a binding agreement to dispose of the assets concerned. However, no provision is made where, on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacement assets are sold;
- deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

**ACCOUNTING POLICIES (Continued)**

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.
