NOTES TO THE ABBREVIATED ACCOUNTS FOR THE YEAR ENDED 31 DECEMBER 2005

1 Accounting policies

1.1 Basis of preparation

The accounts have been prepared under the historical cost convention.

1.2 Turnover

Turnover represents the invoiced value of goods sold and services provided net of VAT.

1.3 Goodwill

Acquired goodwill is amortised over 5 years as, in the opinion of the directors, this represents the period over which the goodwill is effective.

1.4 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided on all tangible fixed assets—at rates calculated to write off the cost less estimated residual value of each asset over its expected useful life, as follows:

Plant and machinery

3 years straight line

Fixtures, fittings & equipment

4 years straight line

1.5 Deferred taxation

Deferred tax is provided in full on timing differences which result in an obligation at the balance sheet date to pay more tax, or a right to pay less tax, at a future date, at rates expected to apply when they crystallise based on current tax rates and law. Timing differences arise from the inclusion of items of income and expenditure in taxation computations in periods different from those in which they are included in the accounts. Deferred tax is not provided on timing differences arising from the revaluation of fixed assets where there is no commitment to sell the assets. Deferred tax assets are recognised to the extent that it is regarded as more likely than not that they will be recovered. Deferred tax assets and liabilities are not discounted.
