NOTES TO THE ABBREVIATED ACCOUNTS FOR THE PERIOD 1 JANUARY 2005 TO 31 OCTOBER 2005

1. ACCOUNTING POLICIES

Basis of preparing the financial statements

During the period to 31 October 2005, the Company incurred a net profit of £54,825 (2004 - loss of £187,057). At 31 October 2005, its net current liabilities amounted to £118,334 (2004 - £125,615) and the equity shareholders' debt was £16,089 (2004 - £70,914). These factors on their own would clearly affect the Company's ability to continue trading. The Company is dependent upon the continued financial support of the Directors and the Bank.

In view of this, the Directors consider it appropriate to prepare the financial statements on the going concern basis.

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2005).

Turnover

Turnover represents net invoiced sales of goods, excluding value added tax.

Goodwill

Goodwill, being the amount paid in connection with the acquisition of a business in 2002, is being amortised evenly over its estimated useful life of twenty years.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life or, if held under a finance lease, over the lease term, whichever is the shorter.

Fixtures and fittings

- 20% on reducing balance

Computer equipment

- 20% on reducing balance

Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Hire purchase and leasing commitments

Assets obtained under hire purchase contracts or finance leases are capitalised in the balance sheet. Those held under hire purchase contracts are depreciated over their estimated useful lives. Those held under finance leases are depreciated over their estimated useful lives or the lease term, whichever is the shorter.

The interest element of these obligations is charged to the profit and loss account over the relevant period. The capital element of the future payments is treated as a liability.

Rentals paid under operating leases are charged to the profit and loss account on a straight line basis over the period of the lease.
