Notes to the Abbreviated Accounts for the period ended 30 April 2015**1 Accounting Policies****Basis of measurement and preparation of accounts****Basis of preparing the financial statements**

The company meets its day to day funding requirements through directors loan and current accounts. The directors have given an undertaking not to demand repayment of the loan account in the next twelve months. Therefore, the directors consider it appropriate to prepare the financial statements on a going concern basis on the grounds that the company will be able to meet its debts as they fall due for the foreseeable future and for at least the next twelve months.

Accounting convention

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities effective April 2008.

Turnover policy

Turnover represents net invoiced sales of goods and work done during the year, excluding value added tax.

Tangible assets depreciation policy

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Plant and machinery etc. – 25% on reducing balance and 3 - 4 years straight line

Other accounting policies**Stocks**

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Training and marketing costs

Training and marketing costs incurred have an ongoing benefit to the business in subsequent years. In the opinion of the directors the benefit endures for a period of five years and accordingly a proportion of all relevant costs incurred in any year plus overheads as appropriate are deferred and charged to profit and loss account over a five year period.
