NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31ST JANUARY 2010

1 ACCOUNTING POLICIES

The principal accounting policies adopted in arriving at the financial information set out in these Financial Statements are as follows

a **Accounting Convention**

The Financial Statements have been prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for smaller entities (effective April 2008)

b **Turnover**

Turnover represents the invoiced value of goods and services, net of discounts, and excluding Value Added Tax

c **Depreciation**

Depreciation is provided to write off the cost of tangible fixed assets by annual instalments over their estimated useful economic lives. It is calculated at the following annual rates.

Equipment and Furniture	25% on cost
Motor Vehicle	25% on cost

d **Deferred Taxation**

The charge for taxation takes into account taxation deferred as a result of timing differences between the treatment of certain items for taxation and accounting purposes. In general, deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date. However, deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred taxation is measured on a non-discounted basis at the average tax rates that would apply when the timing differences are expected to reverse, based on tax rates and laws that have been enacted by the balance sheet date.

e **Leased Assets**

Where assets are financed on hire purchase agreements, the assets are treated as if they have been purchased. Cost is capitalised as a tangible asset and the corresponding leasing commitment is included as a liability. Repayments payable are apportioned between interest, which is charged to the Profit and Loss account, and capital, which reduces the outstanding commitment.

All other leases are treated as operating leases. Their annual rentals are charged to the Profit and Loss Account on payable basis.

2 **TURNOVER**

The turnover and profit before taxation arise from the principal activity of the company in the United Kingdom.
