## Notes to the Abbreviated Accounts for the period ended 31 March 2015

## 1 Accounting Policies

**Basis of measurement and preparation of accounts**

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities effective April 2008.

**Turnover policy**

Turnover represents the value of income receivable during the year exclusive of value added tax. A sale is recognised on despatch of the goods to the customer which is the point at which the risks and rewards of ownership of the goods pass to the customer.

**Tangible assets depreciation policy**

Tangible fixed assets are stated at cost less depreciation

Depreciation is provided at rates calculated to write off the cost or valuation of fixed assets, less their estimated residual value, over their expected useful lives on the following bases:

Buildings have not been depreciated contrary to SSAP 12 because they are well maintained.

Plant & equipment - 20% reducing balance basis

Motor vehicles & tractors - 25% reducing balance basis

**Other accounting policies****Deferred taxation**

The charge for taxation takes into account taxation deferred as a result of timing differences between the treatment of certain items for taxation and accounting purposes. In general, deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date. However, deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted. Deferred taxation is measured on a non-discounted basis at the tax rates that are expected to apply in the periods in which the timing differences reverse, based on tax rates and the law enacted or substantively enacted at the balance sheet date.
