NOTES TO THE ABBREVIATED ACCOUNTS

FOR THE YEAR ENDED 30 JUNE 2013

1 Accounting policies

1.1 Accounting convention

The financial statements are prepared under the historical cost convention modified to include the revaluation of freehold land and buildings and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

1.2 Going concern

The financial statements have been prepared on a going concern basis even though at the Balance Sheet date the Company's current liabilities exceeded its current assets by £240,692 and it made a loss for the year of £6,588

The Directors consider the going concern basis to be appropriate because, in their opinion, the Company will continue to obtain sufficient funding to enable it to pay its debts as they fall due. If the Company were unable to obtain this funding, it would be unable to continue trading and adjustments would have to be made to reduce the value of assets to their realisable amount and to provide for any further liabilities which might arise

1.3 Tangible fixed assets and depreciation

Tangible fixed assets include investment property valued by the directors on an existing use open market value basis. Other tangible fixed assets are stated at cost or valuation less depreciation. Depreciation is provided at rates calculated to write off the cost or valuation less estimated residual value of each asset over its expected useful life, as follows

Fixtures, fittings & equipment	20% (on a reducing balance)
--------------------------------	-----------------------------

Investment properties are included in the balance sheet at their open market value. Depreciation is provided only on those investment properties which are leasehold and where the unexpired lease term is less than 20 years

Although this accounting policy is in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008), it is a departure from the general requirement of the Companies Act 2006 for all tangible assets to be depreciated. In the opinion of the directors compliance with the standard is necessary for the financial statements to give a true and fair view. Depreciation or amortisation is only one of many factors reflected in the annual valuation and the amount of this which might otherwise have been charged cannot be separately identified or quantified

1.4 Deferred taxation

Deferred taxation is provided in full in respect of taxation deferred by timing differences between the treatment of certain items for taxation and accounting purposes. The deferred tax balance has not been discounted

No provision has been made for deferred tax on gains recognised on revaluing property to its market value as the company does not intend to sell the revalued assets
