### Notes to the abbreviated financial statements for the year ended 30 April 2013

#### ACCOUNTING POLICIES

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's financial statements

##### **Basis of preparation of financial statements**

The financial statements have been prepared in accordance with applicable accounting standards and under the historical cost convention accounting rules

##### **Tangible Fixed Assets and Depreciation**

Tangible fixed assets are stated at cost less depreciation

Depreciation is provided at rates calculated to write off the cost, less estimated residual value, of each asset evenly over its expected useful life, on the following bases -

Plant, Office Equipment & Fittings	20%	Reducing balance
------------------------------------	-----	------------------

##### **Turnover**

Turnover represents the amounts (excluding value added tax) derived from the provision of services to customers during the year

##### **Deferred Taxation**

Provision is made for deferred tax as a result of timing differences between the incidence of income and expenditure for taxation and accounting purposes, using the liability method, only to the extent that, in the opinion of the Directors, there is a reasonable probability that a liability or asset will crystallise in the near future

##### **Leasing and Hire Purchase**

Where the company enters into a lease that entails taking substantially all the risks and rewards of ownership of an asset, the lease is treated as a 'finance lease'. The asset is recorded in the balance sheet as a tangible fixed asset and is depreciated over its estimated useful life or the term of the lease, whichever is the shorter. Future instalments under such leases, net of finance charges, are included with creditors. Rentals payable are apportioned between the finance element, which is charged in the profit and loss account, and the capital element that reduces the outstanding obligation for future instalments.

All other leases are accounted for as 'operating leases' and the rental charges are charged to the profit and loss account on a straight-line basis over the life of the lease.
