NOTES TO THE FINANCIAL STATEMENTS

28 FEBRUARY 2014

1. ACCOUNTING POLICIES

Basis of accounting

The financial statements have been prepared under the historical cost convention.

Cash flow statement

The directors have taken advantage of the exemption in Financial Reporting Standard No 1 from including a cash flow statement in the financial statements on the grounds that the company is small.

Taxation

Current tax, including UK corporation tax and foreign tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantially enacted by the balance sheet date. Deferred taxation is provided in full on timing differences that result in an obligation at the balance sheet date to pay more tax, or a right to pay less tax, at a future date, at rates expected to apply when they crystallise based on current tax rates and law. Timing differences arise from the inclusion of items of income and expenditure in taxation computations in periods different from those in which they are included in financial statements. Deferred tax assets are recognised to the extent that it is regarded as more likely than not that they will be recovered. Deferred tax assets and liabilities are not discounted.

2. PROFIT AND LOSS ACCOUNT

The company has not traded in either financial period and as a result a profit and loss account has not been presented.

The directors received remuneration paid by Care Management Group Limited in respect of their services to group companies. The portion of this that relates to the company is £nil (2013: £nil).
