NOTES TO THE ACCOUNTS FOR THE YEAR ENDED 31 MARCH 2018 (CONTINUED)

1. Principal accounting policies

The financial statements have been prepared in accordance with the Companies Act 2006 and applicable accounting standards in the United Kingdom. A summary of the more important accounting policies, which have been consistently applied, is set out below:

Basis of accounting

The financial statements are prepared in accordance with the historical cost convention and in accordance with the Financial Reporting Standards for Smaller Entities (effective January 2005).

Operating leases

Rentals payable under operating leases are charged to the profit and loss account as incurred.

Turnover

Turnover, which excludes value added tax and trade discounts, represents the invoiced value of goods and services supplied.

Deferred taxation

Deferred tax arises when items are recognised for tax purposes in periods that differ from the periods in which the items are recognised for accounting purposes. An asset is not recognised to the extent that the likelihood of future economic benefits is not reasonably certain. Deferred tax is measured on a non discounted basis at the tax rates that are expected to apply in the period in which timing differences reverse, based on tax rates and laws substantially enacted at the balance sheet date.
