### **Notes to the Abbreviated Accounts for the Year Ended 30 September 2013**

#### **1 Accounting policies**

##### **Basis of preparation**

The full financial statements, from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

##### **Turnover**

Turnover represents amounts chargeable, net of value added tax in respect of the sale of goods and services to customers

##### **Depreciation**

Depreciation is provided on tangible fixed assets so as to write off the cost or valuation, less any estimated residual value, over their expected useful lives

##### **Asset class**

Plant & machinery

Motor vehicles

##### **Depreciation method and rate**

25% reducing balance basis

25% reducing balance basis

##### **Stock**

Stock is valued at the lower of cost and net realisable value, after due regard for obsolete and slow moving stocks. Net realisable value is based on selling price less anticipated costs to completion and selling costs

##### **Financial instruments**

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities. Where shares are issued, any component that creates a financial liability of the company is presented as a liability in the balance sheet. The corresponding dividends relating to the liability component are charged as interest expense in the profit and loss account.
