Strategic Report

Year Ended 30 June 2015

The Directors present their strategic report for the year ended 30 June 2015

Review of the business

The Group's principal activities during the year is the provision of legal services in both the Personal Injury ('PI') and General Law fields, with the acquisition of the Professional Services Division of Quindell expanding in the Personal Injury area as well as the provision of other ancillary services

The key financial and other performance indicators performance during the year was as follows

	2015	2014	
	£'000	Unaudited £'000	Change %
Fee & service revenue	153,786	101,717	51.2
(Loss)/Profit before tax	(245,820)	20,369	-1,306
Goodwill impairment	269,062	-	
Profit before goodwill impairment and tax	23,242	20,369	14.1
Equity shareholders' funds	219,848	23,054	853.6
	Ratio	Ratio	%
Current assets as % of current liabilities ('quick ratio')	1.34	0.84	59.5

Fee & service revenue for the year increased by 51.2% partially due to the acquisition of the Professional Services Division of Quindell (rebranded Slater & Gordon Solutions), accounting for £19.7m of the growth with a further £15.6m from the increases in WIP. The remaining increase is attributable to the acquisitions of Walker Smith Way and Leo Abse Cohen (£3.3m) and general increases in fees across both PI and General Law.

The improvement in profit before goodwill impairment and tax year-on-year is directly attributed to the additional revenues brought in by Leo Abse Cohen and Walker Smith Way, more than covering the additional spend in various areas of the business. However this was partially offset by the pre-tax losses incurred in the Slater & Gordon Solutions business.

Associated with the finalisation of the Global Group's accounts for the period ending 31 December 2015, the group recently undertook a review of the goodwill held at year end and ascertained that the goodwill arising on acquisition of the SGS businesses required impairment to the value of £269m at year end, attributable to latest forecasts indicating reduced profitability.

During the year, the Group has reassessed its accounting treatment of deferred consideration payable in the context of its acquisition of legal service practices. This reassessment has taken into account an analysis of historical acquisitions in the United Kingdom where cash and share-based consideration payable to the vendor principals of businesses acquired by the Group is deferred. Refer to Business Combinations Note 28.

Historically, all cash payments and share issues to vendors, whether restrained, deferred, contingent or otherwise, have been treated as consideration for the relevant business acquisition.

The Group has now carefully considered the appropriate treatment of these payments by reference to IFRS 3(r) Business Combinations with regard to the treatment of specific components of deferred consideration. IFRS 3(r) requires that transactions remunerating employees or former owners of the acquired business for future services be treated as separate transactions that are not to be included in the acquisition accounting.

An assessment has been made in relation to those arrangements that include contingent consideration to vendors of the business that are subject to so-called "bad leaver" provisions.

Included in the terms of a number of purchase agreements entered into by the Group is an arrangement whereby the payment of cash consideration to, and/or the retention of share-based consideration by, the vendors of acquired entities is contingent upon the relevant vendors remaining with the Group for a defined period. If a vendor ceases to remain with the Group for the prescribed period, the vendor may forfeit its entitlement to payment of the cash consideration and/or its ability to retain its share-based consideration, at the discretion of the Group.

In light of our assessment, we have now corrected and restated the accounting treatment of deferred consideration payable. These arrangements will be deemed to be "separate transactions" for accounting purposes, the effect of which is that they are treated as payments to former owners, to be expensed in accordance with other applicable International Financial Reporting Standards as adopted in the European Union.

Strategic Report

Year Ended 30 June 2015

Review of the business (Continued)

Shareholders' funds increased by 880% due to both increases in retained earnings and £448m of new shares issued during the year that facilitated the acquisition of the Slater & Gordon Solutions business in May 2015, offset by the goodwill impairment

The Group's "quick ratio" (current assets as a percentage of current liabilities) has increased principally due to the acquisition of the Slater & Gordon Solutions business

Principal risks and uncertainties

For the going concern assessment, please refer to Note 1 for further information

Financial Instrument Risks

The Group has established a risk and financial management framework whose primary objectives are to protect the Group from events that hinder the achievement of the Group's performance objectives

The objectives aim to limit undue counterparty exposure, ensure sufficient working capital exists and monitor the management of risk at a business unit level

Use of derivatives

The Group uses interest rate hedges to adjust interest rate exposures in order to guarantee fixed interest payments where payments are variable and hence exposed to interest rate movements

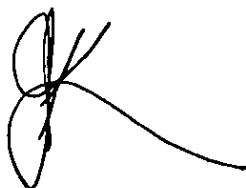

Exposure to credit, liquidity, cash flow risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The main exposure to credit risk in the Group is represented by the receivables (debtors and disbursements) owing to the Group

The maximum exposure to credit risk, excluding the value of any collateral or other security, at the end of the reporting period of recognised financial assets is the carrying amount of those assets, net of any provisions against those assets, as disclosed in the statement of financial position and notes to the financial statements. Refer to Note 29 for full details of the exposure

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. The Group aims to mitigate liquidity risk by managing cash generation by its operations, applying cash collection targets throughout the Group. The Group also manages liquidity risk by ensuring that adequate borrowing facilities are maintained

By order of the board

K Fowlie
Director

31 March 2016

Directors' Report

Year Ended 30 June 2015

The Directors present their report, together with the financial report of the consolidated entity consisting of Slater and Gordon (UK) 1 Limited ("the Company") and its controlled entities (jointly referred to as "the Group"), for the financial year ended 30 June 2015. This financial report has been prepared in accordance with International Financial Reporting Standards (IFRS, adopted by the European Union). Compliance with International Accounting Standards Board (IASB) ensures compliance with International Financial Reporting Standards ("IFRS").

Directors

The directors in office at any time during the financial year and up to the date of this report are

- K J Fowle
- A A Grech
- C D Evans (resigned 27 March 2016)

Principal Activities

Slater & Gordon (UK) 1 Limited is the immediate holding company of Slater & Gordon (UK) LLP whose principal activity is providing legal advice. The Company derives its income from the provision of business services to Slater & Gordon (UK) LLP together with interest on loans and profit distributions from Slater & Gordon (UK) LLP.

In May, the Company acquired the Professional Service Division (rebranded Slater Gordon Solutions) of Quindell Plc. The acquisition of the Professional Service Division supports the strategy to become the leading Personal Injury group in the UK and provides access to a comprehensive platform of businesses, processes and infrastructure.

The Company considers its immediate and ultimate Parent Company to be Slater and Gordon Limited, a company incorporated in Australia.

Business Model and Main Objectives

Through its subsidiaries, the Company aims to deliver high quality legal and ancillary services for individuals, membership organisations, affinity groups and other strategic commercial partners in their personal, employment and business affairs. The Company is committed to becoming one of the largest and most trusted providers of personal legal services in the United Kingdom. This will be achieved through the successful integration of the past year's acquisitions, building awareness of the Slater & Gordon brand and building strategic relationships.

Results

The consolidated results for the year ended 30 June 2015 are set out on page 11. No dividend has been proposed by the Group. The Directors do not feel that there are any relevant key performance indicators that need to be disclosed in addition to the financial information included in the financial statements.

Financial instruments

The Company has entered into an interest rate swap to reduce the impact of any adverse movement in interest rates on the loans borrowed from the Parent Company's banks. The fair value of the swap arrangement at the balance sheet date was £176,382.

Political and charitable donations

During the period the Company made no political or charitable donations.

Employee involvement

The Company's policy is to consult and discuss with employees, through unions, staff councils and at meetings, matters likely to affect employees' interests.

Information about matters of concern to employees is given through information bulletins and reports which seek to achieve a common awareness on the part of all employees of the financial and economic factors affecting the Group's performance.

Disabled persons

The Company's policy is to recruit disabled workers for those vacancies that they are able to fill. All necessary assistance with initial training courses is given. Once employed, a career plan is developed so as to ensure suitable opportunities for each disabled person. Arrangements are made, wherever possible, for retraining employees who become disabled, to enable them to perform work identified as appropriate to their aptitudes and abilities.

Directors' Report

Year Ended 30 June 2015

Auditor

During the year, Ernst & Young LLP, were appointed as auditors, and are deemed to be reappointed under section 487(2) of the Companies Act 2006

Statement of Directors' responsibilities

The Directors are responsible for preparing the Strategic Report, Directors' Report and the financial statements in accordance with applicable law and regulations

Company law requires the Directors to prepare financial statements for each financial year. Under that law, the Directors have elected to prepare the financial statements in accordance with International Financial Reporting Standards ("IFRS") as adopted by the EU and for the Company in accordance with United Kingdom Generally Accepted Accounting Practice ("UK GAAP")

Under company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Group and Parent Company and of the profit or loss for that period

In the case of the UK GAAP parent company financial statements, the Directors are required to prepare financial statements for each financial year that give a true and fair view of the state of the affairs of the Company

In preparing those financial statements, the Directors are required to

- select suitable accounting policies and then apply them consistently,
- make judgements and accounting estimates that are reasonable and prudent,
- state whether applicable UK Accounting Standards have been followed, and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business

In the case of the IFRS financial statements, IAS 1 requires that the Directors prepare Group financial statements for each financial year, which present fairly the financial position of the Group and the financial performance and cash flows of the Group for that year

In preparing the Group financial statements, the Directors are required to

- select suitable accounting policies in accordance with IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors and apply them consistently,
- present information, including accounting policies, in a manner that provides relevant, reliable, comparable and understandable information,
- provide additional disclosures, when compliance with specific requirements in IFRSs is insufficient to enable users to understand the impact of particular transactions, other events and conditions on the Group's financial position and financial performance, and
- state that the Group has complied with IFRSs, subject to any material departures disclosed and explained in the financial statements

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Group and Company's transactions and disclose with reasonable accuracy at any time the financial position of the Group and Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Group and Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities

Directors' Report

Year Ended 30 June 2015

Going Concern

The financial statements have been prepared using the going concern assumption which contemplates the realisation of assets and the settlement of liabilities in the ordinary course of business

The Company and its subsidiaries are members of the Slater & Gordon Consolidated Group (the Global Group) whose ultimate parent entity is Slater and Gordon Limited, a company incorporated in Australia

At 30 June 2015 the Group had net assets of £220.1m and cash of £39.2m. The Company is reliant upon its ultimate parent entity in relation to ongoing financial support. The Company has received confirmation from its parent entity that it will support the Company to meet its liabilities as and when they fall due, but only to the extent that funds are not otherwise available to the Company to meet such liabilities. The parent has also confirmed that it will continue to provide the financial support outlined above for a period of at least 12 months from the date of signing of this financial report.

At 31 December 2015, the consolidated Slater and Gordon Group had net assets of AUD375.0m, which decreased since 30 June 2015 primarily due to a non-cash impairment charge of AUD876.4m and the adoption of AASB 15. The Group had net current assets of AUD509.4m. The Group had drawings of AUD783.0m under its syndicated debt facility, against limits of AUD850.3m at 31 December 2015. The Group had cash on hand of AUD51.9m and other borrowings of AUD10.3m, resulting in net debt (drawn debt facilities less cash and cash equivalents) of AUD741.4m and available liquidity of AUD119.2m. At 31 December 2015, the Group's net debt position had increased since 30 June 2015 by AUD118.0m, reflecting underlying cash requirements in the business. At the date of signing of the financial report the Group has drawn its existing facilities in full.

Since 1 July 2015, the consolidated Slater and Gordon Group has obtained various amendments from its banking syndicate ("lenders") to the Slater and Gordon Syndicated Facility Agreement ("SFA"). As at the date of the Company's financial report, the consolidated Slater and Gordon Group remains in compliance with all its undertakings under the SFA. Under the SFA the consolidated Slater and Gordon Group agreed to present to the lenders and their financial advisers proposals which may include amendments to the current SFA. These proposals have been provided to the lenders in line with the contractual requirements of the SFA. In the event that amendments are required by the lenders and if any such amendments are not implemented by 30 April 2016, repayment dates for the SFA may be brought forward to a date no earlier than 31 March 2017.

Based on discussions to date, the Directors of the consolidated Slater and Gordon Group are of the view that the consolidated Slater and Gordon Group will comply with the above obligations. The consolidated Slater and Gordon Group has further initiated a comprehensive review including an assessment of revised financial forecasts, and the implementation of performance improvement programmes with the aim of improving the profitability of the business and reducing the level of drawn debt.

The Directors, having given consideration to the current financial forecasts for the Group and the Company, the engagement with the banking syndicate and its financial advisers, the comprehensive review, and the performance improvement programmes being implemented by management, consider the going concern basis of preparation is appropriate for a period to 31 March 2017.

Statement of disclosure to the auditor

So far as the Directors are aware, there is no relevant audit information of which the Company's auditor is unaware. Additionally, the Directors have taken all the necessary steps that they ought to have taken as Directors in order to make themselves aware of all relevant audit information and to establish that the Company's auditor is aware of that information.

On behalf of the board

K Fowle
Director

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF SLATER & GORDON (UK) 1 LIMITED

We have audited the financial statements of Slater & Gordon UK (1) Ltd for the year ended 30 June 2015 which comprise the Consolidated Statement of Profit and Loss, the Consolidated Statement of Comprehensive Income, the Consolidated Statement of Financial Position, the Consolidated Cash Flow Statement, the Consolidated Statement of Changes in Equity, the related notes 1 to 31 for the Group accounts, and the Company's Balance Sheet and the related notes 1 to 11 for the Company accounts. The financial reporting framework that has been applied in their preparation of the Group financial statements is applicable law and International Financial Reporting Standards (IFRSs) as adopted by the European Union. The financial reporting framework that has been applied in the preparation of the Parent Company financial statements is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of Directors and auditor

As explained more fully in the Directors' Responsibilities Statement set out on pages 7 to 8, the Directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of whether the accounting policies are appropriate to the Group's and the Parent Company's circumstances and have been consistently applied and adequately disclosed, the reasonableness of significant accounting estimates made by the Directors, and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the Strategic and Directors' Report to identify material inconsistencies with the audited financial statements. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

Opinion on financial statements

In our opinion

- ▶ the financial statements give a true and fair view of the state of the Group's and of the Parent Company's affairs as at 30 June 2015 and of the Group's and the Parent Company's loss for the year then ended,
- ▶ the Group financial statements have been properly prepared in accordance with IFRSs as adopted by the European Union, and
- ▶ the Parent Company financial statements have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice, and
- ▶ the financial statements have been prepared in accordance with the requirements of the Companies Act 2006.

Opinion on other matter prescribed by the Companies Act 2006

In our opinion the information given in the Strategic Report and the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF SLATER & GORDON (UK) 1 LIMITED

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion

- ▶ adequate accounting records have not been kept by the Parent Company, or returns adequate for our audit have not been received from branches not visited by us, or
- ▶ the Parent Company financial statements are not in agreement with the accounting records and returns, or
- ▶ certain disclosures of Directors' remuneration specified by law are not made, or
- ▶ we have not received all the information and explanations we require for our audit

Other Matters

The consolidated financial statements for 2014 are unaudited

Ernst & Young LLP

Kevin Harkin (Senior Statutory Auditor)

for and on behalf of Ernst & Young LLP, Statutory Auditor

Cash at beginning of financial year		7,371	1,076
Cash at end of financial year	6	39,159	7,371

The accompanying notes on pages 15 to 64 form an integral part of these financial statements

Notes to the Financial Statements

For the Year Ended 30 June 2015

Note 1: Statement of Significant Accounting Policies

The following is a summary of significant accounting policies adopted by the consolidated entity in the preparation and presentation of the financial report. The accounting policies have been consistently applied, unless otherwise stated.

(a) Basis of preparation of the financial report

Slater and Gordon (UK) 1 Limited is a company limited by shares, incorporated and domiciled in the United Kingdom. The consolidated financial statements comprise the Company and its controlled entities referred to in Note 26, together referred to as the Group and individually as Group Entities.

This financial report is a general purpose financial report that has been prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the European Union, Interpretations and other applicable authoritative pronouncements of the International Accounting Standards Board (IASB) and the Companies Act 2006 in the United Kingdom.

The financial report was authorised for issue by the Directors as at the date of the Directors' Report.

The consolidated financial statements are presented in pounds sterling (GBP) and all values are rounded to the nearest thousand (£'000), except when otherwise indicated.

Compliance with IFRS

The consolidated financial statements of Slater and Gordon (UK) 1 Limited comply with the International Financial Reporting Standards ("IFRS") as adopted by the European Union issued by the International Accounting Standards Board ("IASB").

Historical cost convention

The financial report has been prepared under the historical cost convention, as modified by revaluations to fair value for certain classes of assets as described in the accounting policies. By publishing the Parent Company financial statements here together with the Group financial statements the Company is taking advantage of the exemption in s408 of the Companies Act 2006 not to present its individual income statement and related notes that form part of these approved financial statements.

Significant accounting estimates

The preparation of the financial report requires the use of certain estimates and judgements in applying the entity's accounting policies. Those estimates and judgements that are significant to the financial report are disclosed in Note 2.

Going concern

The financial statements have been prepared using the going concern assumption which contemplates the realisation of assets and the settlement of liabilities in the ordinary course of business.

The Company and its subsidiaries are members of the Slater & Gordon Consolidated Group (the Global Group) whose ultimate parent entity is Slater and Gordon Limited, a company incorporated in Australia.

At 30 June 2015 the Group had net assets of £220.1m and cash of £39.2m. The Company is reliant upon its ultimate parent entity in relation to ongoing financial support. The Company has received confirmation from its parent entity that it will support the Company to meet its liabilities as and when they fall due, but only to the extent that funds are not otherwise available to the Company to meet such liabilities. The parent has also confirmed that it will continue to provide the financial support outlined above for a period of at least 12 months from the date of signing of this financial report.

At 31 December 2015, the consolidated Slater and Gordon Group had net assets of AUD375.0m, which decreased since 30 June 2015 primarily due to a non-cash impairment charge of AUD876.4m and the adoption of AASB 15. The Group had net current assets of AUD509.4m. The Group had drawings of AUD783.0m under its syndicated debt facility, against limits of AUD850.3m at 31 December 2015. The Group had cash on hand of AUD51.9m and other borrowings of AUD10.3m, resulting in net debt (drawn debt facilities less cash and cash equivalents) of AUD741.4m and available liquidity of AUD119.2m. At 31 December 2015, the Group's net debt position had increased since 30 June 2015 by AUD118.0m, reflecting underlying cash requirements in the business. At the date of signing of the financial report the Group has drawn its existing facilities in full.

Since 1 July 2015, the consolidated Slater and Gordon Group has obtained various amendments from its banking syndicate ("lenders") to the Slater and Gordon Syndicated Facility Agreement ("SFA"). As at the date of the Company's financial report, the consolidated Slater and Gordon Group remains in compliance with all its undertakings under the SFA. Under the SFA the consolidated Slater and Gordon Group agreed to present to the lenders and their financial advisers proposals which may include amendments to the current SFA. These proposals have been provided to the lenders in line with the contractual requirements of the SFA. In the event that amendments

Notes to the Financial Statements

For the Year Ended 30 June 2015

Note 1: Statement of Significant Accounting Policies (continued)

(a) Basis of preparation of the financial report (continued)

are required by the lenders and if any such amendments are not implemented by 30 April 2016, repayment dates for the SFA may be brought forward to a date no earlier than 31 March 2017

Based on discussions to date, the Directors of the consolidated Slater and Gordon Group are of the view that the consolidated Slater and Gordon Group will comply with the above obligations. The consolidated Slater and Gordon Group has further initiated a comprehensive review including an assessment of revised financial forecasts, and the implementation of performance improvement programmes with the aim of improving the profitability of the business and reducing the level of drawn debt.

The Directors, having given consideration to the current financial forecasts for the Group and the Company, the engagement with the banking syndicate and its financial advisers, the comprehensive review, and the performance improvement programmes being implemented by management, consider the going concern basis of preparation is appropriate for a period to 31 March 2017.

(b) Principles of consolidation

The consolidated financial statements are those of the consolidated entity, comprising the financial statements of the parent entity and of all entities which the parent entity controls. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

The financial statements of subsidiaries are prepared for the same reporting period as the parent entity, using consistent accounting policies. Adjustments are made to bring into line any dissimilar accounting policies which may exist.

All intercompany balances and transactions, including any unrealised profits or losses, have been eliminated on consolidation. Subsidiaries are consolidated from the date on which control is established and are de-recognised from the date that control ceases.

Non-controlling interests in the results of subsidiaries are shown separately in the consolidated statement of comprehensive income and consolidated statement of financial position.

Any changes in the Group's ownership interests in subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions.

(c) Revenue

Rendering of services

It is the Group's policy to recognise revenue in accordance with the revenue recognition criteria described in IAS 18 Revenue.

Revenue from rendering of services to customers is recognised upon delivery of the service to the customer. The majority of revenue from services is comprised of fees billed, with the remaining amount representing movement in work in progress and services revenue. Revenue is recognised to the extent that it is probable that the economic benefit will flow to the entity and that revenue can be reliably measured. The Group measures revenue at the fair value of the consideration received or receivable.

The Group has implemented practice standards within each region to monitor the progression of individual cases, and thereby to determine the likely outcome of the transaction. The practice standards are based on the Group's significant depth of experience in progressing the various types of legal work undertaken to conclusion.

The Group renders the following key services to customers:

- provision of legal services for personal injury claims,
- provision of services for general law incorporating project litigation, and
- provision of legal and complementary services from SGS, acquired from Quindell Plc on 29 May 2015. Refer to Business Combinations Note 28.

Notes to the Financial Statements

For the Year Ended 30 June 2015

Note 1: Statement of Significant Accounting Policies (continued)

c) Revenue (continued)

Revenue resulting from work in progress movement

Revenue includes the difference in work in progress value between reporting periods. The revenue recognised excludes the net movement in work in progress contributed by the acquisition of client matters arising from a business combination or file specific acquisition.

In relation to Personal Injury legal matters, the Group identifies individual contracts at a similar stage of completion. This means that the rights and obligations contained in each contract do not vary materially from one contract to another in each category of work that the Group typically performs for clients.

The measurement of this component of revenue is based upon:

- the estimate of fees upon completion of the matter,
- the probability of the success of the matter, and
- the percentage of completion of the matter.

On an individual client matter basis this means that as work in progress increases on a client matter, the increase in work in progress is recorded as a revenue item. When a matter is finalised, the full amount of the actual fees for services is invoiced or billed to the client and recorded as revenue. This is then offset by the work in progress matter being written back to nil (recognised as a negative revenue amount) neutralising the previously recorded revenue.

Provision of legal and other services resulting from Slater Gordon Solutions

Legal Services

These services relate to road traffic accident ("RTA"), employee liability/public liability ("ELPL") and noise induced hearing loss ("NIHL") cases. Revenue is recognised by stage of completion, consistent with the treatment outlined above for provision of services from personal injury claims.

Other services include replacement vehicle hire, vehicle repair, provision of medical reports and rehabilitation.

Vehicle hire and repair

Revenue relating to car hire, repair and claims management services is measured at the fair value of the consideration receivable, net of Value Added Tax ("VAT") and other sales taxes. Revenue is recognised when services are provided, including an appropriate proportion of any services that are in progress at the reporting date. It is recognised only when it can be estimated reliably.

Hire revenue is recognised on a stage of completion basis as it is accrued on a daily basis for each day that the vehicle is on the road with the client. Revenue and costs are accrued on each specific vehicle at the GTA (the Association of British Insurers General Terms of Agreement for credit hire arrangements) or contracted rates.

The benefit of the service to the customer is generated over time and the ability to estimate the stage of completion is high given it is based on actual days and known rates.

Vehicle repair revenue is recognised on a 'significant act' basis whereby the significant act is the completion of a repair. At this point the obligation is fulfilled. The corresponding cost of repair is also recognised at this point.

Administration fee revenue on car hire/repair as set under the GTA is recognised at the start of the respective service.

Medical Reports and Services

Revenue is earned from the procurement of medical reports and other services.

The instructing party will request SGS to procure a service. An appointment is arranged with a third party medical practitioner. The significant event for revenue recognition is considered to be the attendance at the appointment of the instructing party's client. At this point there is certainty over the outcome. Therefore, medical reports revenue is recognised once an appointment has been attended as this is considered to be the significant act in accordance with IAS 18.

Rehabilitation Services

Revenue is recognised when the initial assessment appointment has been attended as this is considered to be the 'significant act'. The medical practitioner will confirm the course of treatment required in the initial assessment. For rehabilitation, the instructing party is liable for the costs as they have instructed the services on behalf of an individual.

Notes to the Financial Statements

For the Year Ended 30 June 2015

Note 1: Statement of Significant Accounting Policies (continued)

(c) Revenue (continued)

Interest Revenue

Interest revenue is recognised when it becomes receivable on a proportional basis taking into account the interest rates applicable to the financial assets

Other revenue

Other revenue is recognised when the right to receive the revenue has been established

All revenue is stated net of value added tax ("VAT")

(d) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, deposits held at call with banks and short-term deposits with an original maturity of three months or less. Bank overdrafts are shown within short-term borrowings in current liabilities on the consolidated statement of financial position. For the purposes of the consolidated statement of cash flows, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding banking overdrafts.

Under the SRA Accounts Rules 2011 the Group is required to have a separate bank account to hold and receive client money. This must be under the name of the LLP and the name of the account must also include the word 'client'. All client money must be held in a client account. Client monies do not appear in the financial statements.

(e) Disbursements

Disbursements are only recognised when it is assessed that a reimbursement will be received from the client or on his or her behalf. The disbursements are treated as a separate asset. The amount recognised for the expected reimbursement does not exceed the relevant costs incurred.

The amount of any expected reimbursement is reduced by an allowance for non-recovery based on past experience.

(f) Property, plant and equipment

Property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses.

The carrying amount of property, plant and equipment is reviewed annually by Directors to ensure it is not in excess of the recoverable amount from those assets. Recoverable amount is the higher of fair value less costs of disposal and value in use. Value in use is based on estimated future cash flows, discounted to their present value using a post-tax discount rate that reflects the current market assessments of the time value of money and the risks specific to the asset.

Depreciation

Land is not depreciated.

The depreciable amounts of all other property, plant and equipment are depreciated over their estimated useful lives, commencing from the time the asset is held ready for use. Leased assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Group will obtain ownership by the end of the lease term.

The depreciation rates used for each class of assets are

Class of fixed asset	Depreciation rates	Depreciation method
Fixtures, Fittings and Equipment	5.00 – 66.67%	Straight Line and Diminishing Value
Low value asset pool	18.75 – 37.50%	Diminishing value

An asset's residual value and useful life is reviewed, and adjusted if appropriate, at the end of each reporting period. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Any impairment losses are recognised in the profit or loss.

Gains and losses on disposal are determined by comparing proceeds with the carrying amount. These gains and losses are included in the profit or loss.

Notes to the Financial Statements

For the Year Ended 30 June 2015

Note 1. Statement of Significant Accounting Policies (continued)

(g) Leases

Leases are classified at their inception as either operating or finance leases based on the economic substance of the agreement so as to reflect the risks and benefits incidental to ownership

Finance leases

Leases of fixed assets, where substantially all of the risks and benefits incidental to ownership of the asset, but not the legal ownership, are transferred to the consolidated entity are classified as finance leases. Finance leases are capitalised, recording an asset and liability equal to the fair value or, if lower, the present value of the minimum lease payments, including any guaranteed residual values. The interest expense is calculated using the interest rate implicit in the lease and is included in finance costs in the statement of comprehensive income. Leased assets are depreciated on a straight line basis over their estimated useful lives where it is likely the consolidated entity will obtain ownership of the asset, or over the term of the lease. Lease payments are allocated between the reduction of the lease liability and the lease interest expense for the period.

Operating leases

Leases where the lessor retains substantially all the risks and benefits of ownership of the asset are classified as operating leases. Operating lease payments are recognised as an expense in the consolidated statement of comprehensive income on a straight-line basis over the lease term. Lease incentives under operating leases are recognised as a liability and amortised on a straight-line basis over the life of the lease.

(h) Work in progress ("WIP")

Work in progress represents client cases which have not yet reached a conclusion and comprises personal injury cases, services performed ancillary to personal injury cases, non-personal injury cases and project litigation cases.

The Group allocates work in progress between current and non-current classifications based on a historical analysis of the Group's work in progress balances and velocity rates to determine expected timing of settlements. Refer Note 1(t) regarding changes to account classification during the financial year ended 30 June 2015.

Work in progress arising from legal services performed by Slater and Gordon Lawyers

Work in progress is either earned at cost or it may include profit recognised to date based on the value of work completed. The following are the methodologies adopted for each division in determining the value of work in progress.

Personal Injury Law work in progress

Personal injury law work in progress is measured using the regional practice standards applicable to each region established by the Group to determine the stage of completion using a methodology:

- a) to examine the nature and extent of work performed for individual cases, and
- b) to identify services performed to date as a percentage of total services to be performed.

The regional practice standards incorporate value pricing and fixed fee valuations, applying a probability of success factor, making allowance for the "No Win No Fee" conditional fee arrangements, under which the Personal Injury practice operates.

The Group conducts a detailed review of the stage of completion calculations for all cases on a half-yearly basis. When necessary, the Group revises the estimates of revenue for the services performed. The need for such revisions does not necessarily indicate that the outcome of the transaction cannot be estimated reliably, rather it implicitly includes some estimation uncertainty. (Refer Note 2(b) Critical Accounting Estimates and Judgments – Work in progress.)

General Law work in progress

For estate, probate, industrial law, commercial law and funded project litigation matters, time records and historical levels of fees billed are used in determining the value of work completed.

Project litigation work in progress

Project litigation matters are defined as any matters where total professional fees and/or disbursements are likely to exceed £1.0 million over the course of the conduct of the matter(s).

Work in progress in project litigation matters is recognised on self-funded project litigation matters for which a favourable outcome is considered probable. For such projects, work in progress is initially valued at costs incurred less a discount for the likely recovery of those costs. Cost includes both variable and fixed costs directly related to cases and those that can be attributed to case activity and that can be allocated to specific projects on a reasonable basis. Where a project litigation matter has reached partial or full settlement and an enforceable agreement to recover the professional fees exists, work in progress is valued at the settled fee amount and discounted for percentage fee completion, and the probability of the full fee being collected. Project litigation matters that are not expected to be realised within twelve months are classified as non-current.

Notes to the Financial Statements

For the Year Ended 30 June 2015

Note 1: Statement of Significant Accounting Policies (continued)

(h) Work in progress ("WIP") (continued)

Work in progress arising from services provided by Slater Gordon Solutions

Legal Services

Revenue from work in progress from non-hearing loss files (RTA, ELPL) is recognised based on the following key milestones on a matter

- i) Validation – this is the initial stage of the case,
- ii) Collation pre-med – matters with claim notification form ("CNF") submitted, but pre-receipt of medical report,
- iii) Collation post-med – medical report received, but prior to submission of settlement pack,
- iv) Valuation – settlement pack submitted, but prior to issue of proceedings, and
- v) Issue – post issue of proceedings

The measurement of this component of revenue is consistent with the Group approach for valuing WIP based on average fees, probability of success and percentage completion

No value of work in progress has been recognised for Noise Induced Hearing Loss ("NIHL") files as the amount of revenue cannot at this stage (30 June 2015) be measured reliably

Vehicle hire and repair

Work in progress is recognised for the following transactions

- i) Incomplete WIP – where a car hire is still in use, and
- ii) Billing not completed – this occurs where the car hire has been returned or repairs completed where the invoice is still outstanding (due to the time period required for all documentation to be in place before it is issued)

Work in progress is recognised based on the probable inflow of economic benefits flowing to the entity which occurs before settlement by the insurer. Settlement could take considerable time to recover. A dilution rate is applied on the invoice to recognise the fact that there may be a settlement adjustment with the insurer if the insurer disputes any costs. This also takes into account the fact that some cases may not be 'no fault'.

Medical reports and rehabilitation services

Work in progress is recognised when an appointment has been attended. The amount will remain in work in progress until the discharge form has been received at which point the rehabilitation service is invoiced. This value remains in work in progress until the number of sessions required is known at which point the invoice is raised.

Work in progress is calculated based on the average amount charged out, based on historic cases less a historic dilution factor applied to reflect the fact that not all amounts will be billed.

For medical reports, the work in progress balance is calculated when the appointment is attended.

(i) Business combinations

A business combination is a transaction or other event in which an acquirer obtains control of one or more businesses and results in the consolidation of the assets and liabilities acquired. Business combinations are accounted for by applying the acquisition method.

The consideration transferred is the sum of the acquisition-date fair values of the assets transferred, equity instruments issued or liabilities incurred by the acquirer to former owners of the acquired. Deferred consideration payable is measured at fair value. Contingent consideration to be transferred by the acquirer is recognised at the acquisition-date fair value.

Goodwill is recognised initially at the excess over the aggregate of the consideration transferred, the fair value of the non-controlling interest, and the acquisition date fair value of the acquirer's previously held equity interest (in case of step acquisition), less the fair value of the identifiable assets acquired and liabilities assumed.

If the fair value of the acquirer's interest is greater than the aggregate of the consideration transferred, the fair value of the non-controlling interest, and the acquisition date fair value of the acquirer's previously held equity interest (in case of step acquisition), the gain is immediately recognised in the profit or loss as gain from bargain purchases.

Notes to the Financial Statements

For the Year Ended 30 June 2015

Note 1: Statement of Significant Accounting Policies (continued)

(i) Business combinations (continued)

In conjunction with the business combination transaction there may be a transfer of assets between controlled entities as part of restructuring the acquired business. The parent accounts for such transfers through reallocation of the cost of the investments in its statement of financial position. Acquisition related costs are expensed as incurred.

(j) Intangibles and goodwill

Software development costs

Expenditure on research activities is recognised as an expense in the period in which it is incurred.

Development costs are capitalised when it is probable that the project will be a success considering its commercial and technical feasibility, the entity is able to use or sell the asset, the entity has sufficient resources and intent to complete the development and its costs can be measured reliably. Capitalised development expenditure is stated at cost less accumulated amortisation. Amortisation is calculated using a straight-line method to allocate the cost of the intangible assets over their estimated useful lives. Amortisation commences when the intangible asset is available for use.

Software development costs are carried at cost less accumulated amortisation and any accumulated impairment losses. These assets have been assessed as having a finite useful life and once operating in the Group are amortised over the useful life of 5-8 years.

Trademarks and Brand names

Trademarks acquired in a business combination and recognised separately from goodwill are initially recognised at their fair value at the acquisition date (which is regarded as their cost). The fair value of trademarks is based on the discounted estimated royalty payments that have been avoided as a result of the trademark being owned.

Trademarks are carried at cost less accumulated amortisation and any accumulated impairment losses. Trademarks that have been assessed as having a finite useful life are amortised over their finite life.

Brand names acquired as part of the acquisition of Slater Gordon Solutions have been carried at cost. These brand names have been assessed as having an indefinite useful life, therefore no amortisation is applicable.

Customer relationships

The fair value of customer relationships acquired in a business combination is determined using the multi-period excess earnings method, whereby the subject asset is valued after deducting a fair return on all other assets that are part of creating the related cash flows. They are assessed as having a finite useful life and are amortised over their useful life.

Goodwill

Goodwill is initially measured as the excess over the aggregate of the consideration transferred, the fair value (or proportionate share of net assets value) of the non-controlling interest, and the acquisition date fair value of the acquirer's previously held equity interest (in case of step acquisition), less the fair value of the identifiable assets acquired and liabilities assumed.

Goodwill is not amortised, but is tested annually for impairment or more frequently if events or changes in circumstances indicate that it might be impaired. Goodwill is carried at cost less any accumulated impairment losses.

(k) Impairment of non-financial assets

Goodwill, intangible assets not yet ready for use and intangible assets that have an indefinite useful life are not subject to amortisation and are therefore tested annually for impairment or more frequently if events or changes in circumstances indicate that they might be impaired. Assets subject to annual depreciation or amortisation are reviewed for impairment whenever events or circumstances arise that indicate that the carrying amount of the asset may be impaired.

An impairment loss is recognised where the carrying amount of the asset exceeds its recoverable amount. The recoverable amount of an asset is defined as the higher of its fair value less costs of disposal and value in use.

For the purposes of impairment testing, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units).

Notes to the Financial Statements

For the Year Ended 30 June 2015

Note 1: Statement of Significant Accounting Policies (continued)

(l) Taxation

Taxation consists of income tax, and Value Added Tax ("VAT")

Income tax

Income tax expense comprises current and deferred tax

Current tax

Current income tax expense or benefit is the tax payable / receivable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and unused tax losses. The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the Group operates and generates taxable income.

Deferred tax

Deferred tax assets and liabilities are recognised for temporary differences at the applicable tax rates when the assets are expected to be recovered or liabilities are settled. Deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction, other than a business combination, and at the time of the transaction affects neither accounting nor taxable profit or loss.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised, such reductions are reversed when the probability of future taxable profits improves. Unrecognised deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Current and deferred tax for the year are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

Value Added Tax ("VAT")

Revenue, expenses and assets are recognised net of the amount of VAT, except where the VAT incurred is not recoverable from the UK Her Majesty's Revenue and Customs ("HMRC") or Malta Inland Revenue ("MIR") and is therefore recognised as part of the asset's cost or as part of the expense item. Receivables and payables are stated inclusive of VAT.

The net amount of VAT recoverable from, or payable to, the HMRC/MIR is included as part of receivables or payables in the consolidated statement of financial position.

Cash flows are presented in the statement of cash flows on a gross basis, except for the VAT component of investing and financing activities, which are disclosed as operating cash flows. Commitments and contingencies are disclosed net of the amount of VAT recoverable from, or payable to, the relevant taxation authority.

(m) Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of past events, for which it is probable that an outflow of economic benefits will result in an amount that can be reliably measured.

A provision for solicitor liability claims is made for the potential future cost of claims brought against the Group by former clients. The provision is determined by including the estimated maximum amount payable by the Group under its Professional Indemnity Insurance Policy on all claims notified to its insurer.

Notes to the Financial Statements

For the Year Ended 30 June 2015

Note 1. Statement of Significant Accounting Policies (continued)

(n) Employee Benefits

Short-term employee benefit obligations

Liabilities arising in respect of wages and salaries, annual leave and any other employee benefits expected to be settled within twelve months of the reporting date are measured at the amounts based on remuneration rates which are expected to be paid when the liability is settled. The expected cost of short-term employee benefits in the form of compensated absences such as annual leave and accumulated sick leave is recognised in the provision for employee benefits. All other short-term employee benefit obligations are presented as payables.

Long-term employee benefit obligations

The provision for employee benefits in respect of long service leave and annual leave payable later than one year have been measured at the present value of the estimated future cash outflows to be made for those benefits. These estimated future cash flows have been discounted using market yields, at the reporting date, on corporate bonds with matching terms to maturity.

Employee benefit obligations are presented as current liabilities in the consolidated statement of financial position if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting date, regardless of when the actual settlement is expected to occur.

Defined contribution pension plan

The Group makes contributions to defined contribution superannuation plans in respect of employee services rendered during the year. These superannuation contributions are recognised as an expense in the same period as the employee services are received.

Bonus plan

The Group recognises a provision when a bonus is payable in accordance with the employee's contract of employment and the amount can be reliably measured.

Termination benefits

Termination benefits are payable when employment of an employee or group of employees is terminated before the normal retirement date, or when the entity provides termination benefits as a result of an offer made and accepted in order to encourage voluntary redundancy.

The Group recognises a provision for termination benefits when the entity can no longer withdraw the offer of those benefits, or if earlier, when the termination benefits are included in a formal restructuring plan that has been announced to those affected by it. If benefits are not expected to be settled wholly within 12 months of the reporting date, then they are discounted and presented as non-current liabilities.

(o) Share-based payment transactions

Equity-settled share-based payments to employees and others providing similar services are measured at the fair value of the equity instruments at the grant date.

The consolidated entity operates share-based payment employee share and option schemes. The fair value of the equity to which employees become entitled is measured at grant date and recognised as an expense over the vesting period, with a corresponding increase to an equity account. Details regarding the determination of the fair value of equity-settled share-based transactions are set out in Note 23. In respect of share-based payments that are dependent on the satisfaction of performance conditions, the number of shares and options expected to vest is reviewed and adjusted at each reporting date. The amount recognised for services received as consideration for these equity instruments granted is adjusted to reflect the best estimate of the number of equity instruments that eventually vest.

Equity-settled share-based payment transactions with parties other than employees are measured at the fair value of the goods or services received, except where that fair value cannot be estimated reliably, in which case they are measured at the fair value of the equity instruments granted, measured at the date the entity obtains the goods or the counterparty renders the service.

The Group operates an Employee Ownership Plan ("EOP"). The EOP allows employees to purchase Vesting Convertible Redeemable ("VCR") shares in the Company by way of an interest-free loan. Per the policy, the loan has been recorded as a financial instrument.

Notes to the Financial Statements

For the Year Ended 30 June 2015

Note 1: Statement of Significant Accounting Policies (continued)

(o) Share-based payment transactions (continued)

- The VCR shares vest over a specified period of time. At the time of vesting, VCR shares convert into ordinary shares with disposal restrictions. The terms and conditions of these shares are further described in Note 23.
- The value of the benefit received by an employee from issue of the VCR shares is assessed as the difference between the value of the VCR shares at the date of issue and the present value of the amount payable by the employee for purchase of the VCR shares. In accordance with IFRS 2 *Share-based Payment*, the benefit is expensed on a proportional basis over the period from issue date to the date on which the employee becomes unconditionally entitled to the full benefit of ownership of the shares.

In 2015 the Equity Incentive Plan ("EIP") has been introduced to replace the EOP without prejudice to the rights of current participants in the EOP. Refer to Note 23 for more details.

(p) Borrowing costs

Borrowing costs can include interest expense, finance charges in respect of finance leases, amortisation of discounts or premiums, ancillary costs relating to borrowings, and exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs.

Borrowing costs are expensed in the period in which they are incurred, except for borrowing costs incurred as part of the cost of the construction of a qualifying asset which are capitalised until the asset is ready for its intended use or sale.

(q) Financial instruments

Classification

The Group has financial instruments in the following category: loans and receivables. The classification depends on the purpose for which the instruments were acquired. Management determines the classification of its financial instruments at initial recognition.

Non-derivative financial instruments

Non-derivative financial instruments consist of investments in equity, trade and other receivables, cash and cash equivalents, loans and borrowings, and trade and other payables.

Non-derivative financial instruments are initially recognised at fair value, plus directly attributable transaction costs (if any), except for instruments recorded at fair value through profit or loss. After initial recognition, non-derivative financial instruments are measured as described below.

Loans and receivables

Loans and receivables are non-interest bearing, non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. The loans are initially recognised based on fair value plus directly attributable transactions costs and are subsequently stated at amortised cost using the effective interest rate method.

Impairment of financial assets

Financial assets are tested for impairment at each financial year end to establish whether there is any objective evidence of impairment.

For loans and receivables or held-to-maturity investments carried at amortised cost, impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The amount of the loss reduces the carrying amount of the asset and is recognised in profit or loss. The impairment loss is reversed through profit or loss if the amount of the impairment loss decreases in a subsequent period and the decrease can be related objectively to an event occurring after the impairment was recognised.

Financial liabilities

Financial liabilities include trade payables, other creditors and loans from third parties including loans from or other amounts due to director-related entities.

Non-derivative financial liabilities are recognised at amortised cost, comprising original debt less principal payments and amortisation.

Non-interest bearing financial liabilities for deferred cash consideration on the acquisition of acquired firms is measured at amortised cost using the effective interest rate method. The implied interest expense is recognised in profit and loss.

Notes to the Financial Statements

For the Year Ended 30 June 2015

Note 1. Statement of Significant Accounting Policies (continued)

(q) Financial instruments (continued)

Derivative financial instruments

The Group designates certain derivatives as either

- hedges of fair value of recognised assets or liabilities or a firm commitment (fair value hedge), or
- hedges of highly probable forecast transactions (cash flow hedges)

The Group currently has cash flow hedges only, relating to interest rate risk management. At the inception of the transaction the relationship between hedging instruments and hedged items, as well as the Group's risk management objective and strategy for undertaking various hedge transactions are documented. It is the Group's policy to hedge a portion of its exposure in order to minimise the impact of an adverse change in interest rates that the Group is subject to.

Assessments, both at hedge inception and on an ongoing basis, of whether the derivatives that are used in hedging transactions have been and will continue to be highly effective in offsetting changes in fair values or cash flow hedged items, are also documented.

Fair value hedge

Changes in the fair value of derivatives that are designated and qualify as fair value hedges are recorded in the consolidated statement of comprehensive income, together with any changes in the fair value of hedged assets or liabilities that are attributable to the hedged risk.

Cash flow hedge

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in a hedge reserve in equity. The gain or loss relating to the ineffective portion is recognised immediately in the consolidated statement of comprehensive income.

Amounts accumulated in the hedge reserve in equity are transferred to the consolidated statement of comprehensive income in the periods when the hedged item will affect profit and loss.

(r) Foreign currency translations and balances

The financial statements are produced using the functional currency. The functional currency is Pounds Sterling (GBP).

Transactions and balances

Transactions in foreign currencies of entities within the consolidated group are translated into functional currency at the rate of exchange ruling at the date of the transaction except for foreign operations.

Foreign currency monetary items that are outstanding at the reporting date (other than monetary items arising under foreign currency contracts where the exchange rate for that monetary item is fixed in the contract) are translated using the spot rate at the end of the financial year.

Except for certain foreign currency hedges, all resulting exchange differences arising on settlement or re-statement are recognised as revenues and expenses for the financial year.

Foreign operations

Entities that have a functional currency different from the presentation currency are translated as follows:

- assets and liabilities are translated at the closing rate on reporting date,
- income and expenses are translated at actual exchange rates or average exchange rates for the period, unless the exchange rate fluctuated significantly during the period, in which case the exchange rates at the dates of the transactions are used, and
- all resulting exchange differences are recognised in other comprehensive income, a separate component of equity.

Goodwill and fair value adjustments arising on the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and translated at the closing rate.

(s) Comparatives

Where necessary, comparative information has been reclassified and repositioned for consistency with current year disclosures.

Comparatives have also been updated for changes in accounting policies as described in Note 1(t) below.

Notes to the Financial Statements

For the Year Ended 30 June 2015

Note 1: Statement of Significant Accounting Policies (continued)

(t) Changes in accounting policies adopted by the Group

Change to accounting for business combinations

The Group has reassessed its accounting treatment of deferred consideration payable in the context of its acquisition of legal service practices. This reassessment has taken into account an analysis of historical acquisitions in Australia and the United Kingdom where cash and share-based consideration payable to the vendor principals of businesses acquired by the Group is deferred.

Historically, all cash payments and share issues to vendors, whether restrained, deferred, contingent or otherwise, have been treated as consideration for the relevant business acquisition.

The Group has now carefully considered the appropriate treatment of these payments in accordance with IFRS 3 *Business Combinations* with regard to the treatment of specific components of deferred consideration. IFRS 3(r) requires that transactions remunerating employees or former owners of the acquired business for future services be treated as separate transactions that are not to be included in the acquisition.

An assessment has been made in relation to those arrangements that include contingent consideration to vendors of the business that are subject to so-called "bad leaver" provisions.

Included in the terms of a number of purchase agreements entered into by the Group is an arrangement whereby the payment of cash consideration to, and/or the retention of share-based consideration by, the vendors of acquired entities is contingent upon the relevant vendors remaining with the Group for a defined period. If a vendor ceases to remain with the Group for the prescribed period, the vendor may forfeit its entitlement to payment of the cash consideration and/or its ability to retain its share-based consideration, at the discretion of the Group.

We now take the view that such arrangements will be deemed to be "separate transactions" for accounting purposes, the effect of which is that they are treated as payments to former owners, to be expensed in accordance with other applicable International Financial Reporting Standards.

Classification of Work In Progress and Disbursements

Historically, all of the Group's work in progress and disbursement balances have been classified as current assets in the consolidated statement of financial position, with the exception of the work in progress of the Group's Project Litigation practice which included a current and non-current component. The work in progress on the Group's Personal Injury Law ("PIL") matters were historically assessed as being capable of being resolved at any stage of the matters process and therefore all work in progress and disbursements on PIL matters were classified as current assets in the consolidated statement of financial position.

The Group has reassessed the classification of its work in progress and disbursement balances in the consolidated statement of financial position as at 30 June 2015. A historical analysis of the Group's work in progress balances and historical file velocity rates were used to form a view on the expected timing of settlements. The Group carefully considered the appropriate accounting as to this analysis and the applicable International Financial Reporting Standards (IFRSs).

As a result of this reassessment, the Group has made adjustments to the presentation of its work in progress and disbursement balances to include a current and non-current classification in the consolidated statement of financial position as at 30 June 2015.

(u) Adoption of new and amended accounting standards

The Group has adopted all the new mandatory standards and interpretations for the current reporting period. The adoption of these standards and interpretations did not result in a material change on the reported results and position of the Group.

(v) Accounting standards issued but not yet effective at 30 June 2015

IFRS 15 Revenue from contracts with customers

IFRS 15 is operative for annual reporting periods beginning on or after 1 January 2018. IFRS 15 specifies the accounting for an individual contract with a customer, also recognising that the requirements of the standard may be applied to a portfolio of contracts for performance obligations with similar characteristics, if the entity reasonably expects that the effects on the financial statements of applying the standard to the portfolio would not differ materially from applying this standard to the individual contracts (or performance obligations) within that portfolio.

Notes to the Financial Statements

For the Year Ended 30 June 2015

Note 1: Statement of Significant Accounting Policies (continued)

(v) Accounting standards issued but not yet effective at 30 June 2015 (continued)

IFRS 15 introduces a five step process for revenue recognition with the core principle being for entities to recognise revenue to depict the transfer of goods or services to customers in amounts that reflect the consideration (that is, payment) to which the entity expects to be entitled in exchange for those goods or services. The five step approach is as follows:

- Step 1 Identify the contracts with the customer,
- Step 2 Identify the separate performance obligations,
- Step 3 Determine the transaction price,
- Step 4 Allocate the transaction price, and
- Step 5 Recognise revenue when a performance obligation is satisfied

IFRS 15 will also result in enhanced disclosures in relation to revenue, provide guidance for transactions that were not previously addressed comprehensively (for example, service revenue and contract modifications) and improve guidance for multiple-element arrangements.

The Group currently determines the stage of completion based on a methodology which identifies services performed to date as a percentage of total services to be performed for an outcome to be rendered in the case.

A thorough reassessment of the valuation methodology within all practice areas in each region is being undertaken to determine the full impact of the standard. The evaluation is in progress at the time of reporting and will be completed to facilitate the Group's intended early adoption of IFRS 15 in the financial year ending 30 June 2016.

IFRS 9 *Financial Instruments*

IFRS 9 introduces significant revisions to the classification and measurement of financial assets, reducing the number of categories and simplifying the measurement choices, including the removal of impairment testing of assets measured at fair value. The amortised cost model is available for debt assets meeting both business model and cash flow characteristics tests. All investments in equity instruments using IFRS 9 are to be measured at fair value.

Chapter 6 Hedge Accounting supersedes the general hedge accounting requirements in IAS 39 *Financial Instruments: Recognition and Measurement*, which many consider to be too rules-based and arbitrary. Chapter 6 requirements include a new approach to hedge accounting that is intended to more closely align hedge accounting with risk management activities undertaken by entities when hedging financial and non-financial risks. Some of the key changes from IAS 39 are as follows:

- to allow hedge accounting of risk components of non-financial items that are identifiable and measurable (many of which were prohibited from being designated as hedged items under IAS 39),
- changes in the accounting for the time value of options, the forward element of a forward contract and foreign-currency basis spreads designated as hedging instruments, and
- modification of the requirements for effectiveness testing (including removal of the 'brightline' effectiveness test that offset for hedging must be in the range 80%-125%)

Revised disclosures about an entity's hedge accounting have also been added to IFRS 7 *Financial Instruments Disclosures*.

Impairment of assets is now based on expected losses in IFRS 9 which requires entities to measure:

- the 12-month expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date), or
- full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument)

The effective date is for annual reporting periods beginning on or after 1 January 2018.

IFRS 9 is expected to be applied when it becomes effective.

Notes to the Financial Statements

For the Year Ended 30 June 2015

Note 2. Critical Accounting Estimates and Judgements

In preparing these consolidated financial statements, management has made judgements, estimates and assumptions that affect the application of the Group's accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively. The areas involving significant estimates or judgements are:

(a) Impairment of goodwill

Goodwill is allocated to cash generating units ("CGUs") according to applicable business operations. CGUs for the purposes of impairment testing are:

- 1 UK – Personal Injury Law ("SGL PI")
- 2 UK - General Law ("SGL GL")
- 3 Slater Gordon Solutions ("SGS")

During the current financial year the Group acquired several new entities within the UK, as a result of the significant geographical expansion of the Group and expansion of business activities, additional CGUs have been identified and the Group now allocates the UK subsidiaries into two CGUs. SGS has been identified as its own CGU due to the different revenue streams and independent cash flows.

Determining whether goodwill is impaired requires an estimation of the value in use of the cash generating units to which goodwill has been allocated. The value in use calculation requires management to estimate the future cash flows expected to arise from the cash-generating unit and a suitable discount rate in order to calculate present value. Where the actual future cash flows are less than expected, a material impairment loss may arise. Refer to Note 11.

(b) Work in progress ("WIP")

WIP is the balance of cases not yet billed at the end of the reporting period. The Group measures WIP based on the estimated fees likely to be rendered to the client multiplied by the percentage stage of completion at the reporting date, adjusted for the probability of success. To determine the probability of success of a case the Group takes into account past history of similar cases and a level of judgement is required based on experience and historical performance of similar matters. Refer to Note 8.

The stage of completion valuation methodology incorporates best estimates of expected revenue and the percentage of total services completed to date. The expected revenue is based on the expected fee for the nature of the legal service provided with reference to internal and external (where available) historical and forecast fee levels. The percentage of completion and probability of success is made with reference to internal and external (where available) information and experience, and having regard to where a file is in its life cycle.

The Group conducts detailed reviews of all case files on a half-yearly basis and revises calculations based on estimates of revenue and stage of completion as necessary. While the Group remains satisfied that the valuation methodology applied to work in progress is robust and supported by historical trends, it acknowledges that the actual amount billed may vary from the estimated amounts previously recognised. However, the Group does not anticipate any material variation in the amounts recognised.

In addition, when new businesses are acquired, there is a transition period during which time the Group's practices and procedures are embedded into the operations of the new business. Therefore the valuation of work in progress acquired in a business combination may be adjusted during the period of provisional accounting for the acquisition.

(c) Provisional accounting

Provisional accounting is applied by the Group to account for business combinations when the initial accounting is incomplete at the end of the reporting period. By its nature provisional accounting involves estimates and judgements based on the information available to the Group at the end of the reporting period, while it continues to seek information about facts and circumstances that existed as of the acquisition date.

(d) Income tax

Deferred tax assets and liabilities are based on the assumption that no adverse change will occur in the income tax legislation in the UK and the anticipation that the Group will derive sufficient future assessable income to enable the benefit to be realised and comply with the conditions of deductibility imposed by the law.

Deferred tax assets are recognised for deductible temporary differences to the extent that management considers that it is probable that future taxable profits will be available to utilise those temporary differences. Refer to Note 5.

Notes to the Financial Statements

For the Year Ended 30 June 2015

Note 2: Critical Accounting Estimates and Judgements (continued)

(e) Fair value measurements

A number of the Group's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities

When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date,
- Level 2: inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly, and
- Level 3: inputs for the asset or liability that are not based on observable market data

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement

For assets and liabilities that are recognised in the financial statements at fair value on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period

Further information about the assumptions made in measuring fair values is included in the following Notes

- Note 23 – Share-based payment arrangements
- Note 28 – Business combinations
- Note 29 – Financial risk management
- Note 30 – Fair value measurements

(f) Determination and fair value of intangibles in a business combination

The fair value of customer relationships acquired in a business combination is determined using the multi-period excess earnings method ("MEEM") whilst the fair value of trademarks acquired in a business combination is based on a relief from royalties approach. These methods require estimates by management of future income streams, applicable royalty rates and discount rates. Refer to Note 28

(g) Principal versus agent

SGS Motor Services provides car hire and repair services for not at fault clients, and the Group acts as a principal

- Although the services are provided by third party suppliers, the Group has the primary responsibility to ensure that the services have been delivered to the clients
- The Group cannot vary the prices set by the supplier, as it is governed by an industry framework
- The Group collects the revenue from the customer and bears all credit risk

Revenue resulting from car hire and repair services within SGS Motor Services are recognised on a gross basis

(h) Provision for solicitor liability

Provision for solicitor liability claims relates to open claims and potential future claims as identified at the end of the reporting period. Estimates of the provision are determined based on historical data, taking into account the nature of the existing claim and expected reimbursed expense will be included. The provision determined includes the estimated maximum amount payable by the Group. Refer to Note 15

Notes to the Financial Statements

For the Year Ended 30 June 2015

Non-assessable items	-	(290)
	5,753	3,815
Adjustments in respect of prior periods	(373)	54
Difference in overseas tax rate	(113)	-
Deferred tax assets not recognised	546	-
Other	(423)	(13)
Income tax expense	5,390	3,856

In the Budget on 8 July 2015, the Chancellor announced reductions in the corporation tax rate from 20% to 19% from 1 April 2017 and to 18% from 1 April 2020. These rates were substantively enacted on 26 October 2015. This will reduce the company's future current tax charge accordingly.

In addition, the Government in the Budget of 16 March 2016 announced its intention to further reduce the UK corporation tax rate to 17% from 1 April 2020. The legislation dealing with the reduction in rates will be included in future Finance Acts.

Notes to the Financial Statements

For the Year Ended 30 June 2015

Note 5: Income Tax (continued)

Unrecognised deferred tax assets

Deferred tax assets have not been recognised in respect of the following items, because it is not probable that future taxable profit will be available against which the Group can use the benefits therefrom

	2015 £'000	2014 £'000 Unaudited
Deductible temporary differences	-	-
Tax losses	76,000	-
	76,000	-

Deferred tax relates to the following

	2015 £'000	2014 £'000 Unaudited
Provision for impairment	-	74
Property, plant and equipment	123	95
Maltese refundable tax credit	6,347	
Other	90	57
Revenue losses carried forward	16,380	-
Deductible goodwill	4,020	4,318
Work in progress	(17,437)	(10,811)
Intangibles	(4,956)	(506)
Net deferred tax assets/(liabilities)	4,567	(6,773)

Reflected in the statement of financial position as follows

Deferred tax assets	18,190	-
Deferred tax liabilities	(13,623)	(6,773)
Net deferred tax assets/(liabilities)	4,567	(6,773)

Note 6 Cash

	Note	2015 £'000	2014 £'000 Unaudited
Cash at bank	20(a)	39,159	7,371

As at 30 June 2015 cash includes an amount of £1,612,093 held in escrow on behalf of the Company by solicitors in respect of an acquisition

The unutilised bank facilities at 30 June 2015 were £73,955,000

Notes to the Financial Statements

For the Year Ended 30 June 2015

Note 11: Intangible Assets (Continued)

Goodwill and indefinite life intangibles acquired through business combinations have been allocated to individual cash generating units ("CGUs") in the UK business for the purposes of impairment testing being the Personal Injury Law and General Law division ("SGL") and SGS

The recoverable amount of goodwill and indefinite life intangibles allocated to each of the CGUs has been determined based on a value in use calculation as required by IAS 36 *Impairment of Assets*. This uses financial budgets and cash flow projections approved by senior management covering a five year period.

The value in use is compared to the net carrying amount of the CGU. If the calculated value in use exceeds the net carrying amount, no impairment loss is recorded.

Key assumptions used in value in use calculations and sensitivity to changes in assumptions

The Group performed its annual impairment test as at 30 June 2015 and a reassessment at 31 December 2015. The Group is sensitive to the recovery of fees in its legal business, and the velocity of the resolution of those files. In performing the value-in-use calculations for each CGU, the Group has applied post-tax discount rates to discount the forecast future post-tax cash flows.

The key assumptions used in the estimation of the recoverable amount are set out below:

- Average fees recoverable for legal matters,
- Average file velocity for legal matters, and
- Cost of capital and discount rate used

Average fees recoverable for legal matters

Average fees recoverable have been based upon an analysis of historical fee events in each of those practice areas, in conjunction with estimated fees of existing matters.

Individually each of the practice group's average fee levels is immaterial to the Group result, however should there be a material negative impact upon the average fee recoverable of matters across a number of practice groups in each jurisdiction this could have a material impact upon the impairment analysis.

Sensitivity analysis has been conducted on the average fees recoverable for each of the CGUs, a reasonable level of negative movement in the average fees recoverable is unlikely to give rise to additional impairment to any of the CGUs.

Average file velocity for legal matters

The settlement profile of legal matters has been based upon the average settlement period for matters for each jurisdiction and practice area.

The velocity of settlement of legal matters has an impact upon the sensitivity analysis. Individually a slowing of file velocity in a practice area is immaterial, however should there be a material negative impact on the settlement period of matters across a number of practice groups and jurisdictions this could have a negative impact upon the estimated future value of the CGU on a net present value basis due to the negative impact upon cash flows.

Sensitivity analysis has been conducted on the average velocity of matters in each of the CGUs and a reasonable level of negative movement in the settlement period for matters is unlikely to give rise to additional impairment to any of the CGUs.

Cost of capital and discount rate used

Cost of capital has been assessed per CGU. Discount rates represent the current market assessment of the risks specific to each CGU, taking into consideration the time value of money and individual risks of the underlying assets that have been incorporated in the cash flow estimates.

The discount rate has been adjusted to be a post-tax rate because in performing the value in use calculations for each CGU the Group has used forecast future attributable post-tax cash flows.

The discount rate calculation is based on the specific circumstances of the Group and its operating segments and is derived from its weighted average cost of capital ("WACC"). The WACC takes into account both debt and equity. The cost of equity is derived from the expected return on investment to the Group's investors. The cost of debt is based on the interest-bearing borrowings the Group is obliged to service. CGU specific risk is incorporated by applying individual beta factors and additional asset specific risk premium where appropriate. The factors that comprise the WACC are evaluated annually based on publicly available market data. Adjustments to the discount rate are made having regard to the specific amount and timing of the future tax flows in order to reflect an appropriate post-tax discount rate.

For the UK PIL, UK GL and SGS CGUs a post-tax cost of capital of 9.25% has been applied. This cost of capital has been assessed with reference to the Company's weighted average cost of capital and independent third party analysis of its cost of capital. This cost of capital was utilised as the Company's parent has observable market data to allow an appropriate assessment of its cost of capital as a listed company on the Australian Stock Exchange.

Notes to the Financial Statements

For the Year Ended 30 June 2015

Note 11: Intangible Assets (Continued)

United Kingdom- Personal Injury Law

The recoverable amount of the UK – PIL CGU has been determined based on a value in use calculation using cash flow projections from the financial forecasts approved by senior management covering a five year period

A 5.00% (2014 unaudited 6.80%) nominal growth rate has been applied to the FY16 forecast for the periods FY17 to FY20 with a long term nominal growth rate adopted of 2.50%

The growth rates beyond the 5 year period have been determined with reference to forecast inflation rates, population and industry growth rates

The projected cash flows have been updated to reflect the acquisitions of Walker Smith Way, Leo Abse & Cohen and the personal injuries practice of Flint Bishop in FY15, increased marketing in the United Kingdom for the Slater and Gordon brand which has led to increased brand recognition and growth achieved in the Personal Injuries practice groups since acquisition

The post-tax discount rate applied to cash flow projections is 9.25% (2014 unaudited 9.10%)

Sensitivity analysis has been conducted on the key assumptions and a reasonable level of negative movement in each assumption does not cause impairment to the CGU

United Kingdom – General Law

The recoverable amount of the United Kingdom – GL CGU has been determined based on a value in use calculation using cash flow projections from the financial forecasts approved by senior management covering a five year period

An 8.00% (2014 unaudited 6.80%) nominal growth rate has been applied to the FY16 forecast for the periods FY17 to FY20 with a long term nominal growth rate adopted of 2.50%

The growth rates beyond the 5 year period have been determined with reference to forecast inflation rates, population and industry growth rates

The projected cash flows have been updated to reflect the acquisition of Walker Smith Way, increased marketing in the United Kingdom for the Slater and Gordon brand which has led to increased brand recognition, in addition to growth achieved in the General Law practice groups since acquisition

The post-tax discount rate applied to cash flow projections is 9.25% (2014 unaudited 9.10%)

Sensitivity analysis has been conducted on the key assumptions and a reasonable level of negative movement in each assumption does not cause impairment to the CGU

Slater Gordon Solutions

The recoverable amount of Slater and Gordon Solutions ("SGS") CGU as at 30 June 2015 has been determined based on a value in use calculation using approved forecasts covering a period of 5 years. Cash flows beyond 5 years were subject to a long term nominal growth rate of 2.5% with reference to forecast inflation rates, population and industry growth rates

The post-tax discount rate applied to cash flow projections is 9.25%

This impairment calculation, applied as at 31 December 2015 in connection with the Group's half year reporting, indicates total impairment of £401.6m. However, the forecasts that were used in the value in use calculation took account of proposed changes to UK law in relation to personal injury claims below £5,000 which were announced by the Chancellor of the Exchequer in November 2015. The impairment relating to these proposed changes to UK law, and other changes arising since 30 June 2015, has been assessed as comprising £132.5m of the total impairment of £401.6m, with the balance of £269.1m being recorded as at 30 June 2015

The Group leases certain of its fixed assets under finance leases. The lease terms range from 3 to 10 years (2014 unaudited 3 to 10 years). The Group has options to purchase the equipment for a nominal amount at the end of the lease terms. The Group's obligations under finance leases are secured by the lessors' title to the leased assets.

Interest rates underlying all obligations under finance leases are fixed at respective contract rates ranging from 3.20% to 7.43% (2014 unaudited 3.96% to 9.25%) per annum.

Notes to the Financial Statements

For the Year Ended 30 June 2015

Note 21: Commitments and Contingencies (continued)

The Group is party to a £420,000,000 syndicated facility agreement dated 29 May 2015 pursuant to which its ultimate parent company, Slater and Gordon Limited, is a borrower (the "Facility Agreement"). Pursuant to the terms of the Facility Agreement, the Company has given a cross-guarantee (along with other Group Companies) in relation to all liabilities outstanding under the Facility Agreement in favour of the Finance Parties (as defined under the Facility Agreement). The Company is also party to a debenture dated 29 May 2015 (the "Debenture") pursuant to which the Company (together with other Group Companies) covenants with Westpac Banking Association (acting as Security Trustee for itself and the Secured Parties (as defined in the Debenture)) that it will on demand pay all liabilities outstanding under the Facility Agreement (and associated finance documents) when they are due and payable and grants security over all of its assets in favour of Westpac Banking Association (acting as Security Trustee for itself and the Secured Parties).

Note 22: Key Management Personnel Compensations

	2015 £'000	2014 £'000 Unaudited
Compensation by Category		
Short-term employment benefits	1,577	1,307
Post-employment benefits	26	49
Other benefits	39	14
	1,642	1,370

Note 23. Share-Based Payment Arrangements

Slater & Gordon Limited introduced a broad based 'share save' offer to all employees and a new Employee Equity Incentive Plan ("EIP") which was approved by the shareholders of Slater & Gordon Limited at the 2014 Annual General Meeting ("AGM")

Employee equity incentive plan ("EIP")

The plan incorporates a tax-approved scheme to employees in the UK. The Plan gives the Group's employees the opportunity to acquire shares in Slater & Gordon Limited. Employees can make contributions from their pre-tax salary to acquire £375 (max) worth of shares. Such employee contributions are matched by the Group with a free share for every share purchased by the employee. All employees of the Group in the UK with at least 6 months service as at 14 November 2014 are entitled to participate in this Plan. Shares acquired under this plan will be held in trust by MM&K Share Plan Trustee Ltd for a period of 5 years from the date of acquisition.

Executive equity incentive plan

The plan introduces an ownership-based compensation scheme for executives and senior employees. In October 2014, Slater & Gordon Limited's shareholders approved the S+G Executive Equity Incentive Scheme under which grants of performance rights have been made. The EIP replaces the existing Employee Ownership Plan ("EOP"), without prejudice to the rights of current participants in the EOP.

Performance rights are granted for no consideration. Under the scheme each performance right carries an entitlement to one fully paid ordinary share in Slater & Gordon Limited subject to satisfaction of performance hurdles and/or continued employment at an exercise price of nil. These executives and senior employees are not entitled to vote or receive any dividends or attend the meeting of the shareholders during the vesting period. Performance rights may not be transferred, disposed or pledged as security. If the executive ceases to be employed by the Group within the vesting period, the rights will be forfeited, except in limited circumstances that are approved by the Board.

The performance hurdles are based on the following

- **Total Shareholder Return (TSR) Outperformance Hurdle** – This performance hurdle is based on Slater & Gordon Limited's total shareholder return (TSR) against the TSR of the constituent companies within the S&P/ASX 300 index (excluding resources) over the Measurement Period. The performance period shall be the period from 1 September 2014 to 31 August 2017.
- **Compound Annual Growth Rate in Earnings per Share (CAGR EPS) Hurdle** – This performance hurdle is based on the Slater & Gordon Limited's Compound Annual Growth Rate in Earnings per Share over the Measurement Period.
- **Compound Annual Growth Rate in Regional EBITDA (CAGR EBITDA) Hurdle** – This performance hurdle is based on the designated Region's Compound Annual Growth Rate in EBITDA over the Measurement Period.

Notes to the Financial Statements

For the Year Ended 30 June 2015

Note 23: Share-Based Payment Arrangements (continued)

The performance conditions applying to the latest grant (FY15) were as follows

CAGR EPS Hurdle (Group Directors only)		CAGR EPS Hurdle		TSR Outperformance Hurdle		CAGR EBITDA	
Performance	% of equity to vest	Performance	% of equity to vest	Performance	% of equity to vest	Performance	% of equity to vest
< 10%	0%	< 7%	0%	< 50th percentile	0%	< 15%	0%
10% to 15%	50% to 100% pro-rata	7% to 10%	50% to 100% pro- rata	50th to 75th percentile	50% to 100% pro-rata	15% to 20%	50% to 100% pro- rata
> 15%	100%	> 10%	100%	> 75th percentile	100%	> 20%	100%

Any performance rights not vested at the end of the performance period are forfeited

The fair value of services received in return for the performance rights granted is measured by reference to the average of volume weighted average price of ordinary shares on each of 5, 10, 15 and 20 days immediately preceding the grant date. The weighted average fair values at grant date are determined using a fair valuation model which reflects the fact that vesting of the shares is dependent on meeting performance criteria based on TSR. The vesting of the shares is also subject to non-market conditions but these are not taken into account in the grant date fair value measurement of the services received. The assessed fair value of performance rights granted under this scheme as remuneration is allocated equally over the period from grant date to vesting date.

The key terms and conditions related to the performance rights granted under this plan are as follows

Grant date/employee entitled	Performance rights granted	Fair value of rights at Grant date	Vesting conditions*	Contractual life of performance rights
Group Executives in the UK (12 December 2014)	44,000	2 4799	50% subject to TSR Outperformance hurdle and 50% subject to CAGR EPS hurdle	3 years
Regional Executives in the UK (12 December 2014)	152,000	6 1997	50% subject to TSR Outperformance hurdle and 50% subject to CAGR EPS hurdle	3 years

*All performance rights include 3 years' service condition from grant date

Number of rights granted

Grant date	Balance at beginning of the year	Granted during the year	Vested during the year	Forfeited during the year	Balance at end of the year	Exercisable at end of the year
31 October 2014	-	44,000	-	-	44,000	-
12 December 2014	-	152,000	-	-	152,000	-

Share-based payment expenses recognised in profit or loss are disclosed in Note 4

Share based payment arrangements to former owners

The Group has changed its accounting treatment of deferred consideration payable for the acquisition of legal service practices. Arrangements that include contingent consideration to vendors of the business that are subject to so-called "bad leaver" provisions were previously considered as part of the consideration paid or payable for the business combination.

Included in the terms of a number of purchase agreements entered into by the Group is an arrangement whereby the payment of cash consideration to and/or the retention of share-based consideration by the vendors of acquired entities is contingent upon the relevant vendors remaining with the Group for a defined period. If a vendor ceases to remain with the Group for the prescribed period, the vendor may forfeit its entitlement to payment of the cash consideration and/or its ability to retain its share-based consideration, at the discretion of the Group.

These arrangements are now treated as a share-based payment transaction with the former owners. The transaction is measured at the fair value of the equity instruments granted and then recognised as an expense over the vesting period as agreed per each contract. The relevant expense is disclosed in the statement of comprehensive income.

Notes to the Financial Statements

For the Year Ended 30 June 2015

Note 24: Auditor's Remuneration

	2015 £'000	2014 £'000 Unaudited

Notes to the Financial Statements

For the Year Ended 30 June 2015

Note 27: Capital Management

For the purpose of the Group's capital management, capital includes issued capital, and all other equity reserves attributable to the equity holders of the parent. The primary objective of the Group's capital management is to maximise the shareholder value.

The Group manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Group monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Group's aim is to keep the gearing ratio between 30% and 40% in future periods. The Group includes within net debt, interest bearing loans and borrowings, trade and other payables, less cash and short-term deposits.

	2015 £	2014 £
		Unaudited
Interest bearing loans	307,908	44,674
Trade and other payables	176,017	109,993
Less cash and short-term deposits	(39,159)	(7,371)
Net Debt	444,765	147,296
Equity	219,848	23,054
Capital and net debt	664,613	170,350
Gearing Ratio	33.1%	13.5%

Note 28: Business Combinations

The Group has reassessed its accounting treatment of deferred consideration payable in the context of its acquisition of legal service practices. This reassessment has taken into account an analysis of historical acquisitions in Australia and the United Kingdom where cash and share-based consideration payable to the vendor principals of businesses acquired by the Group is deferred.

Historically, all cash payments and share issues to vendors, whether restrained, deferred, contingent or otherwise, have been treated as consideration for the relevant business acquisition.

The Group has now carefully considered the appropriate treatment of these payments in accordance with IFRS 3(r) *Business Combinations* with regard to the treatment of specific components of deferred consideration.

An assessment has been made in relation to those arrangements that include contingent consideration to vendors of the business that are subject to so-called "bad leaver" provisions.

Included in the terms of a number of purchase agreements entered into by the Group is an arrangement whereby the payment of cash consideration to and/or the retention of share-based consideration by the vendors of acquired entities is contingent upon the relevant vendors remaining with the Group for a defined period. If a vendor ceases to remain with the Group for the prescribed period, the vendor may forfeit its entitlement to payment of the cash consideration and/or its ability to retain its share-based consideration, at the discretion of the Group.

We now take the view that such arrangements will be deemed to be "separate transactions" for accounting purposes, the effect of which is that they are treated as payments to former owners, to be expensed in accordance with other applicable International Financial Accounting Standards.

Acquisition of business – Slater Gordon Solutions (SGS) (provisionally accounted)

On 29 May 2015 the Group acquired SGS from Quindell Plc. SGS is comprised of 52 legal entities incorporated in the UK and Malta as outlined in Note 26.

The principal activities of SGS are:

- I First notification of loss ("FNOL") services for various partner organisations, including insurance brokers, insurers, motoring organisations and vehicle manufacturers. These services include the facilitation of vehicle retrieval, repair and replacement vehicle hire for not at fault drivers,
- II Conducting claims on behalf of not at fault parties to road traffic accidents ("RTA"), including credit hire, repair and personal injury claims.

Notes to the Financial Statements

For the Year Ended 30 June 2015

Note 28. Business Combinations (Continued)

Acquisition of business – Slater Gordon Solutions (SGS) (provisionally accounted) (continued)

- III Conducting claims on behalf of individuals injured in the course of employment or in a public place ("EL/PL")
One species of employers' liability claim that SGS is currently conducting are personal injury claims for a large group of people who allege noise induced hearing loss ("NIHL") as a consequence of employment and who may be entitled to compensation as a result. It is expected that these NIHL claims will be concluded in the next 1 to 3 years, and
- IV Services complementary to these claims processes, including
- a A medical reporting service for claimant lawyers,
 - b The assessment, triage and facilitation of rehabilitation services for not at fault parties injured in accidents, and
 - c A costing service for lawyers and law firms

The strategic rationale for this business acquisition is

- to become the leading personal injury group in the UK, and
- access to a comprehensive platform of businesses, processes and infrastructure that augments the Group's existing UK operation

The provisional consideration transferred and the value of the consolidated assets and liabilities assumed at the dates of acquisition is as follows

Consideration	2015
	£'000
Cash Investment	469,194
Liabilities acquired from previous owner	179,256
Net present value of total consideration	648,450

Net assets acquired	Fair Value
	£'000
Assets	
- Cash and cash equivalents	2,569
- Trade and other receivables	157,132
- Work in progress	75,856
- Plant and equipment	2,449
- Intangible assets	25,225
- Current tax assets	12,153
- Deferred tax assets	18,190
- Other assets	3,893
Total assets acquired	297,467
Liabilities	
- Short-term borrowings	(5)
- Payables	(159,158)
- Provisions	(2,401)
Total liabilities acquired	(161,564)
Net assets acquired	135,903
Goodwill on acquisition	512,547

Notes to the Financial Statements

For the Year Ended 30 June 2015

Note 28: Business Combinations (Continued)

Acquisition of business – Slater Gordon Solutions (SGS) (provisionally accounted) (continued)

The initial accounting for the acquisition of SGS has only been provisionally determined at the end of the reporting period

The key item that gave rise to the goodwill above is the capacity of SGS to underpin strategic growth of the personal injuries practice within the UK market

Since the acquisition date, SGS has contributed total revenue of £19,709,000 and loss after tax of £2,452,000 in the year ended 30 June 2015, which is included within the consolidated profit. As at the date of reporting, it is not practical to disclose the revenue and profit after tax of the combined entities as if the acquisition took place on 1 July 2014 as the Group does not have access to audited financial information for the period prior to the date of acquisition prepared on the same Group accounting policies

Acquisition-related costs for this acquisition amounting to £4,350,000 have been recognised as an expense in the year ended 30 June 2015, within the 'costs associated with acquisitions' line item in the statement of profit or loss

The acquisition of SGS has been provisionally accounted for at year end. Given the proximity of the acquisition date to the reporting date, the values of the acquired assets and liabilities of SGS are considered provisional. It is also not practical for the Group to determine an estimate of the noise-induced hearing loss ("NIHL") claims asset and associated deferred consideration. These will be updated within 12 months post-acquisition in accordance with IFRS 3 *Business Combinations*.

On 5 August 2015, Quindell Plc, the vendor of SGS, published qualified financial statements in which the current directors and auditors of Quindell Plc explained, inter alia, that relevant information relating to transactions entered into by the former directors that could impact on the accounting, intention, commercial purpose or value of certain transactions was not available to them.

On 5 August 2015 the Serious Fraud Office in the United Kingdom advised that it has opened a criminal investigation into the business and accounting practices of Quindell Plc.

The acquisition of SGS was structured as an acquisition of the various entities rather than an acquisition of the common stock of Quindell Plc. Moreover, Quindell Plc provided detailed warranties to the Company in relation to the operations of the assets comprising SGS. Those warranties are secured by a Warranty Escrow account holding £50m.

The Company is confident that it has no liability as a result of the matters described above.

In the course of preparing these financial statements, the Directors have sought to identify, understand and properly account for all relevant prior transactions undertaken by entities within SGS. Despite reasonable inquiries, including of current directors of Quindell Plc, the Directors are unable to identify or rationalise every historic transaction undertaken by the former directors of the various entities and have made fair value adjustments as appropriate. The Directors believe that none of the known transactions relate to the fundamental business activities or economics of SGS and none of the known transactions are material in value or effect to the Company.

Notes to the Financial Statements

For the Year Ended 30 June 2015

Note 28: Business Combinations (Continued)

Acquisition of Flint Bishop (provisionally accounted)

Acquisition Date	Business	Location	Business Type
5 September 2014	Flint Bishop LLP	Derby, UK	Personal Injury Law

The strategic rationale for these business acquisitions is

- diversification of earnings through expansion of geographic coverage, and
- to become a dominant law firm brand in the consumer legal services market in the UK

The provisional consideration transferred and the value of the consolidated assets and liabilities assumed at the dates of acquisition are as follows

	2015
Consideration	£'000
Cash	1,110
Deferred cash consideration	813
Net present value of total consideration	1,923
Net assets acquired	Fair Value
	£'000
Assets	
- Trade and other receivables	110
- Work in progress	1,795
Total assets acquired	1,905
Liabilities	
- Payables	-
- Provisions	-
Total liabilities acquired	-
Net assets acquired	1,905
Goodwill on acquisition	18

The initial accounting for the acquisitions has only been provisionally determined at the end of the reporting period

The profit and loss results of the acquired businesses are not set out. It is not practicable to disclose the profit and loss results of the acquired businesses as they have been integrated into the existing operations and reporting structure of the Group.

It is also not practical to disclose the revenue and profit after tax of the combined entities as if these acquisitions took place on 1 July 2014 as the Group does not have access to audited financial information for the period prior to the dates of acquisition prepared on the same Group accounting policies.

Acquisition-related costs for these acquisitions amounting to £229,000 have been recognised as an expense in the year ended 30 June 2015, within the 'costs associated with acquisitions' line item in the statement of profit or loss.

Acquisition of business – Leo Abse Cohen (provisionally accounted)

Acquisition Date	Business	Location	Business Type
8 May 2015	Leo Abse Cohen	Wales, UK	Personal Injury Law and Consumer Legal Services

The strategic rationale for these business acquisitions is

- diversification of earnings through expansion of geographic coverage, and
- to become a dominant law firm brand in the consumer legal services market in the UK

The provisional consideration transferred and the value of the consolidated assets and liabilities assumed at the dates of acquisition are as follows

- Provisions	(595)
- Accrual	(211)
- Deferred tax liabilities	(1,858)
Total liabilities acquired	(4,802)
Net assets acquired	13,271
Gain from bargain purchase	(7,432)

The initial accounting for the acquisitions has only been provisionally determined at the end of the reporting period

The profit and loss results of the acquired businesses are not set out. It is not practicable to disclose the profit and loss results of the acquired businesses as they have been integrated into the existing operations and reporting structure of the Group.

It is also not practical to disclose the revenue and profit after tax of the combined entities as if these acquisitions took place on 1 July 2014 as the Group does not have access to audited financial information for the period prior to the dates of acquisition prepared on the same Group accounting policies.

Notes to the Financial Statements

For the Year Ended 30 June 2015

Note 28: Business Combinations (Continued)

Acquisition of business – Walker Smith Way Limited (provisionally accounted)

On 30 April 2015, Slater and Gordon Limited acquired the business of Walker Smith Way Limited, a personal injury and consumer law practice operating throughout Northern England and Wales. The business and assets of Walker Smith Way Limited (WSW) were transferred to Slater & Gordon (UK) LLP.

The strategic rationale for this business acquisition is

- diversification of earnings through expansion of geographic coverage, and
- to become a dominant law firm brand in the consumer legal services market in the UK

The provisional consideration transferred and the value of the consolidated assets and liabilities assumed at the dates of acquisition are as follows

Consideration	2015 £'000
Cash	303
Equity issued (665,006 shares at £3.76 per share)	2,500
Net present value of total consideration	2,803
Net assets acquired	Fair Value £'000
Assets	
- Cash and cash equivalents	1,133
- Trade and other receivables	3,881
- Work in progress	8,308
- Plant and equipment	35
Total assets acquired	13,357
Liabilities	
- Creditors	(5,253)
- Provisions	(151)
- Deferred tax liabilities	(1,030)
Total liabilities acquired	(6,434)
Net assets acquired	6,923
Gain on Bargain Purchase	(4,120)

The initial accounting for the acquisition of WSW has only been provisionally determined at the end of the reporting period.

The profit and loss result of the acquired business is not set out. It is not practicable to disclose the profit and loss results of the acquired businesses as it has been integrated into the existing operations and reporting structure of the Group.

It is also not practical to disclose the revenue and profit after tax of the combined entities as if these acquisitions took place on 1 July 2014 as the Group does not have access to audited financial information for the period prior to the date of acquisition prepared on the same Group accounting policies.

Acquisition-related costs for this acquisition amounting to £115,000 have been recognised as an expense in the year ended 30 June 2015 within the costs associated with acquisitions' line item in the statement of profit or loss.

Notes to the Financial Statements

For the Year Ended 30 June 2015

Note 28. Business Combinations (Continued) 2014 (Unaudited)

Acquisition of business – Pannone Solicitors LLP (“Pannone”) and related entities

On 14 February 2014, the Group acquired the business of Pannone, a law firm based in Manchester, UK. On the same day the Group also acquired two related entities, Adroit Financial Planning Limited (“Adroit”) and Pannone Trust Corporation Limited (“Pannone Trust”), now known as Slater Gordon Trust Corporation Limited. Adroit Financial Planning Limited is a financial planning business. Pannone Trust Corporation Limited is a dormant company, initially incorporated to act as the administrator of estates and other appointments having fiduciary responsibility associated with Adroit.

The strategic rationale for these business acquisitions is

- diversification of earnings through expansion of geographic coverage, and
- to become a dominant law firm brand in the consumer legal services market in the UK

The initial accounting for the acquisition had previously been provisionally determined. The necessary fair valuation of consideration and net assets acquired have now been finalised and are reflected in the amounts detailed below.

The value of the assets and liabilities at the date of acquisition are as follows

	2015	2014
Consideration		£'000
		Unaudited
Cash		23,575
Share consideration		90
Net present value of total consideration		23,665
Net assets acquired		Fair Value
		£'000
Assets		
- Cash and cash equivalents		279
- Trade and other receivables		17,152
- Work in progress	(156)	22,536
- Plant and equipment		45
- Intangible assets		599
- Other assets		1,075
Total assets acquired	(156)	41,686
Liabilities		
- Payables		(12,776)
- Provisions		(2,427)
- Deferred tax liabilities		(687)
Total liabilities acquired		(15,890)
Net assets acquired		25,796
Gain from bargain purchase	(156)	(2,131)

There were 37,718 shares issued as part of the consideration. The issue price of AUD4.42 is based on the average of the volume weighted average price of ordinary shares on each of the 20 business days immediately preceding the completion date.

In FY15 the Group entered into a variation deed with Pannone which reduces the deferred consideration payable for the acquisition. As a result the Group recognised a gain of £156,000 in the statement of profit or loss.

Notes to the Financial Statements

For the Year Ended 30 June 2015

Note 28: Business Combinations (continued)

Acquisition of business – Fentons Solicitors LLP (“Fentons”)

On 27 September 2013, the Group acquired the business of Fentons Solicitors LLP. The value of assets and liabilities at the date of acquisition and converted using the acquisition date rate of exchange are as follows

The strategic rationale for these business acquisitions is

- diversification of earnings through expansion of geographic coverage, and
- to become a dominant law firm brand in the consumer legal services market in the UK

The initial accounting for the acquisition had previously been provisionally determined. The necessary fair valuation of consideration and net assets acquired have now been finalised and are reflected in the amounts detailed below

The value of the assets and liabilities at the date of acquisition are as follows

	2014 £'000 Unaudited
Consideration	
Cash	25,250
Net present value of total consideration	25,250
Net assets acquired	Fair Value £'000

Note 29: Financial Risk Management

The Group is exposed to a variety of financial risks comprising

- i) Credit risk
- ii) Liquidity risk
- iii) Fair values
- iv) Interest rate risk
- v) Foreign exchange risk

The board of directors has overall responsibility for identifying and managing operational and financial risks

The categories of financial instruments are as follows

	Note	2015 £'000	2014 £'000
			Unaudited
Financial assets			
Cash and cash equivalents	6	39,159	7,371
Loans and receivables	7	110,460	30,122
Disbursements	7	155,216	43,653

Borrowings	13	307,908	44,674
		483,923	154,667

i) Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The main exposure to credit risk in the Group is represented by the receivables (debtors and disbursements) owing to the Group.

The maximum exposure to credit risk, excluding the value of any collateral or other security, at the end of the reporting period of recognised financial assets is the carrying amount of those assets, net of any provisions against those assets, as disclosed in the statement of financial position and notes to the financial statements.

Notes to the Financial Statements

For the Year Ended 30 June 2015

Note 29. Financial Risk Management (continued)

i) Credit risk (continued)

Credit risk – Slater Gordon Solutions

Debts are almost exclusively due from insurance companies. The capitalisation of insurers is regulated by the Financial Conduct Authority in the UK. The insurance industry operates a policy holders' protection scheme to alleviate the impact of the failure of an insurance company.

Credit risk is therefore spread across major UK based motor insurers in proportion to their respective share of the market. No credit insurance is taken out given the regulated nature of these entities.

No interest is charged on the receivables balances, however late penalty payments become payable at certain dates under the Association of British Insurers' General Terms of Agreement. SGS does not hold any collateral over these balances nor has the legal right of offset with any amounts owed by SGS to the receivables counterparty.

There is also credit risk associated with unrendered disbursements and trade receivables. Once client matters are billed, a significant portion of receivables related to the personal injuries business are considered low risk. This is because these receivables are collected directly from settlements paid by insurers into trust funds held on behalf of the Group's clients. As at 30 June 2015, approximately 38% of trade receivables relate to the personal injury law business.

For the non-personal injury law business, the Group is exposed to the credit risk associated with the client's ability to meet their obligations under the fee and retainer agreement. The Group minimises the concentration of this credit risk by undertaking transactions with a large number of clients.

Management of credit risk

The Group actively manages its credit risk by

- assessing the capability of a client to meet its obligations under the fee and retainer agreement,
- periodically reviewing the reasons for bad debt write-offs in order to improve the future decision making process,
- maintaining an adequate provision against the future recovery of debtors and disbursements,
- including in practitioner's Key Performance Indicators ("KPI's") measurements in respect of debtor levels, recovery and investment in disbursements,
- providing ongoing training to staff in the management of their personal and practice group debtor portfolios, and
- where necessary, pursuing the recovery of debts owed to the Group through external mercantile agents and the courts.

Notes to the Financial Statements

For the Year Ended 30 June 2015

Note 29· Financial Risk Management (continued)

i) Credit risk (continued)

At 30 June 2015, the maximum exposure to credit risk for trade receivables by segment was as follows

	2015 £'000	2014 £'000 Unaudited
UK	51,657	32,446
SGS	94,791	-
	<u>146,448</u>	<u>32,446</u>

Trade Receivables	2015 £'000	2014 £'000 Unaudited
Not past due	59,687	-
Past due 0-30 days	29,759	16,794
Past due 31 -120 days	20,414	8,353
Past due more than-120 days	36,588	7,299
Total	<u>146,448</u>	<u>32,446</u>

	2015 £'000	2014 £'000 Unaudited
Bad debt provision reconciliation		
Opening balance	2,460	954
Additions due to acquisitions	35,011	1,632
Annual increase and utilisation	116	(126)
Closing balance	<u>37,587</u>	<u>2,460</u>

Due to the nature of the "No Win No Fee" arrangements applicable to the majority of the legal matters managed by the Group an increase in the required processing time between initiation and settlement and an increase in the ageing of receivables, particularly disbursements, does not always increase the associated credit risk

Management performs periodic assessment of the recoverability of receivables, and provisions are calculated based on historical write-offs of the receivables as well as any known circumstances relating to the matters in progress

Cash and cash equivalents

The Group held cash and cash equivalents of £39,159,000 at 30 June 2015 (30 June 2014 (unaudited) £7,371,000) The credit risk associated with cash and cash equivalents are considered as minimal as the cash and cash equivalents are held with reputable financial institutions in Australia and UK

Notes to the Financial Statements

For the Year Ended 30 June 2015

Note 29: Financial Risk Management (continued)

ii) Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities

Management of liquidity risk

The Group manages liquidity risk by monitoring forecast cash flows and ensuring that adequate borrowing facilities are maintained. Refer to the statement of cash flows and Note 20 Cash Flow Information, for further information on the historical cash flows and the current borrowing facilities below

KPIs are set for practitioners relating to budgeted fee events, which are closely monitored by senior management

The Group actively reviews its funding position to ensure the available facilities are adequate to meet its current and anticipated needs

	2015 £'000	2014 £'000 Unaudited
Total banking facilities		
Bank overdrafts	3,436	-
Cash advance facility	418,849	110,871
Other sundry facilities	13,513	-

Notes to the Financial Statements

For the Year Ended 30 June 2015

Note 29· Financial Risk Management (continued)

iii) Fair values

The fair value of financial assets and financial liabilities not measured at fair value approximates their carrying amounts as disclosed in the statement of financial position and notes to the financial statements

Management of fair value risk in interest rate swaps

The Group measures its interest rate swaps at fair value. These fair values are based on level 2 fair value measurements, as defined in the fair value hierarchy in IFRS 13 *Fair Value Measurement* with reference to market data which can be used to estimate future cash flows and discount them to present value. Management's aim is to use and source this data consistently from period to period.

iv) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in market interest rates.

The Group's exposure to interest rate risks and the effective interest rates of non-derivative financial assets and financial liabilities both recognised and unrecognised at the end of the reporting period are as follows:

Financial Instruments	Weighted average interest rate		Non-interest bearing		Variable interest rate		Fixed interest rate		Total	
	2015	2014	2015 £'000	2014 £'000	2015 £'000	2014 £'000	2015 £'000	2014 £'000	2015 £'000	2014 £'000

* = unaudited

Notes to the Financial Statements

For the Year Ended 30 June 2015

Note 29: Financial Risk Management (continued)

iv) Interest rate risk (continued)

Maturity of notional amounts	Effective average fixed interest rate payable		Notional principal value	
	2015	2014	2015	2014
	Unaudited		£'000	£'000
0 to 2 years	1.18%	4.18%	10,000	-
2 to 5 years	1.50%	2.02%	15,000	25,000
			25,000	25,000

The net effective variable interest rate borrowings (i.e. unhedged debt) expose the Group to interest rate risk which will impact future cash flows and interest charges and are indicated by the following interest rate financial liabilities

	2015	2014
	£'000	£'000
Floating rate instruments		
Unhedged cash advances/bills of exchanges	282,760	19,300
	282,760	19,300

Interest rate swaps are measured at fair value with gains and losses taken to the cash flow hedge reserve until such time as the profit or loss associated with the hedged risk is recognised in the consolidated statement of comprehensive income. Given the matching of the hedge settlements with the payment of interest expense on the hedged borrowings, the balance in the reserve attributable to interest rate swaps is generally minimal.

Interest rate sensitivity

If interest rates were to increase/decrease by 100 basis points from rates used to determine fair values as at the end of the reporting period, assuming all other variables that might impact on fair value remain constant, then the impact on profit for the year and equity is as follows

	2015	2014
	£'000	£'000
	Unaudited	
+/- 100 basis points		
Impact on profit after tax	-	-
Impact on equity	750	788

v) Foreign exchange risk

The Group is exposed to currency risk on services income, expenses, receivables and borrowings that are denominated in a currency other than respective functional currencies of the Group entities. The major functional currency is Sterling (GBP).

In relation to recognised assets and liabilities denominated in a currency other than the entity's functional currency, the Group hedges all foreign currency exposures via a natural hedge.

Foreign currency net investment translation risk relating to the acquisition of Slater Gordon Solutions is partially hedged through borrowings denominated in GBP, resulting in an overall reduction in the net assets that are translated. The remaining translation exposure is not hedged.

Notes to the Financial Statements

For the Year Ended 30 June 2015

Note 30: Fair Value Measurements

i) Fair value hierarchy

Refer to Note 2 (d) for discussion on the fair value hierarchy

Notes to the Financial Statements

For the Year Ended 30 June 2015

Note 30: Fair Value Measurements (continued)

ii) Valuation techniques and inputs used in Level 2 and 3 fair value measurements

The fair value of the interest rate swaps is measured with reference to market data which can be used to estimate future cash flows. The key input into this valuation is the interest rate swap revaluation statement as provided by Westpac Banking Corporation and National Australia Bank.

The fair value of contingent consideration payable in a business combination is measured with reference to current fee and performance forecasts which can be used to estimate future cash flows. The key inputs into this valuation are the estimated future cash flows and the average discount rate of 9.2% used to determine the present value of the future cash flows.

iii) Reconciliation of recurring Level 3 fair value movements

	2015 £'000	2014 £'000
		Unaudited
Contingent Consideration		
Opening balance	-	2,612
Acquisitions	-	-
Payments	-	-
Adjustment to contingent consideration	-	(2,612)
Interest	-	-
Exchange differences	-	-
Closing balance	-	-

There has been no change in the range of undiscounted contingent consideration outcomes during the year.

iv) Sensitivity analysis for recurring Level 3 fair value measurements

A reasonable movement in the unobservable inputs would not significantly impact the fair value of contingent consideration as at the end of the reporting period and therefore not impact profit after tax and equity.

Note 31: Subsequent Events

An impairment review has been performed at 31 December 2015 by Slater & Gordon Limited, and additional impairment has been recorded on the SGS acquisition of £132.5m (refer to note 11) and an impairment of £4.6m has been recorded on the goodwill associated with the Russell Jones and Walker acquisition. These are considered to be non-adjusting post balance sheet events.

 Director
 Company number 07895497

31 March 2016

Parent Company's Financial Statements

For the Year Ended 30 June 2015

Note 1: Accounting Policies

Accounting policies

(a) Basis of accounting

The financial statements are prepared under the historical cost convention

(b) Compliance with accounting standards

The financial statements are prepared in accordance with applicable United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), which have been applied consistently (except as otherwise stated)

The company has taken advantage of the exemption in FRS1 (Revised 1996) from the requirement to produce a cash flow statement on the grounds that it is a subsidiary undertaking where 90 per cent or more of the voting rights are controlled within the group

(c) Going concern

The cash flow forecast has been reviewed for the period of 12 months following the signing of the financial statements. Based on this review and the net current and total assets at the period end, it is appropriate to adopt the going concern assumption in preparing these accounts

(d) Turnover

Management fees are recognised on a receivable basis net of VAT. The total turnover of the company for the period has been derived from its principal activity wholly undertaken in the United Kingdom

(e) Goodwill

Goodwill representing the excess of the consideration for an acquired undertaking, or acquired trade and assets, compared with the fair value of net assets acquired is capitalised and written off evenly over the estimated useful life of 15 years

In the opinion of the directors this represents the periods over which the goodwill is expected to give rise to economic benefits. Goodwill is reviewed for impairment at the end of the first full financial year following the acquisition and in other periods if events or changes in circumstances indicate that the carrying value may not be recoverable

(f) Investments

Fixed asset investments are stated at cost less provision for diminution in value

(g) Pensions

The company operates a defined contribution scheme for the benefit of its employees. Contributions payable are charged to the profit and loss account in the period they are payable

(h) Deferred taxation

Deferred taxation is provided at appropriate rates on all timing differences using the liability method. Deferred tax assets are only recognised where the likelihood of recovery is certain

(i) Foreign currency translation

Monetary assets and liabilities denominated in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are recorded at the rate ruling at the date of the transactions. All differences are taken to the profit and loss account

(j) Operating loss

No auditors' remuneration has been charged to the company, the full group audit cost has been borne by Slater & Gordon (UK) LLP

Parent Company's Financial Statements

For the Year Ended 30 June 2015

Note 1: Accounting Policies (continued)

(k) Restatement

During the year, the company reassessed its accounting treatment of deferred consideration payable in the context of its acquisition of legal service practices. This reassessment has taken into account an analysis of historical acquisitions where cash and share-based consideration payable to the vendor principals of businesses acquired is deferred.

Historically, all cash payments and share issues to vendors, whether restrained, deferred, contingent or otherwise, have been treated as consideration for the relevant business acquisition.

The company has now carefully considered the appropriate treatment of these payments by reference to the Group policy on Business Combinations with regard to the treatment of specific components of deferred consideration. Group policy requires that transactions remunerating employees or former owners of the acquired business for future services be treated as separate transactions that are not to be included in the acquisition.

An assessment has been made in relation to those arrangements that include contingent consideration to vendors of the business that are subject to so-called "bad leaver" provisions.

Included in the terms of a number of purchase agreements entered into by the LLP is an arrangement whereby the payment of cash consideration to and/or the retention of share-based consideration by the vendors of acquired entities is contingent upon the relevant vendors remaining with the LLP for a defined period. If a vendor ceases to remain with the LLP for the prescribed period, the vendor may forfeit its entitlement to payment of the cash consideration and/or its ability to retain its share-based consideration, at the discretion of the LLP.

In light of our assessment, we have now corrected and restated the accounting treatment of deferred consideration payable. These arrangements will be deemed to be "separate transactions" for accounting purposes, the effect of which is that they are treated as payments to former owners, to be expensed.

<u>Impact on Profit & Loss account</u>	30 June 2014 Reported £000	Restatements £000	30 June 2014 Restated £000
Tax on profit on ordinary activities	(782)	(313)	(1,096)
Profit/(Loss) for the financial period	(972)	(313)	(1,286)
<u>Impact on the Balance Sheet</u>			
Creditors: amounts falling due within one year	(6,784)	(313)	(7,098)
NET CURRENT ASSETS	106,642	(313)	106,329

Shareholders' funds	216	(313)	(97)

Note 2. Parent Entity Results

As permitted by the exemption in Section 408(2) of the Companies Act 2006, the Company has not presented its own profit and loss account. The loss for the year was £204.6million (restated 2014 £1.28million). There were no recognised gains and losses other than those recognised in the profit and loss account.

The auditor's remuneration for audit services to the Company is borne by the Group.

Parent Company's Financial Statements

For the Year Ended 30 June 2015

Note 3: Intangible Fixed Assets

	2015 £'000	2014 £'000
Cost

Note 4: Investments

	Unlisted Investment 2015 £'000	Unlisted Investment 2014 £'000
Cost		
At 1 July	3,587	3,587
Acquisition during the period	468,141	-
Impairment	(204,451)	-
Cost at 30 June	267,277	3,587

The above acquisition relates to the Slater Gordon Solutions group of companies that were acquired from Quindell plc

Holdings of more than 20%

The company holds more than 20% of the capital of the following businesses

Business name	Country of incorporation	Class	Shares held %
New Claims Direct Limited	England and Wales	Ordinary	100.0
4 Legal Solutions Limited	England and Wales	Ordinary	100.0

The company has a beneficial interest in the profits of Slater & Gordon (UK) LLP. The profit share is recognised when the Company has an unconditional right to payment.

The principal activity of these undertakings for the last financial year was as follows

Business name	Principal activity
Slater & Gordon (UK) LLP	Provision of consumer and business legal advice
New Claims Direct Limited	Holding company for rights and trademarks to the name 'Claims Direct'
4 Legal Solutions Limited	The provision of medico-legal reports

Parent Company's Financial Statements

	3,540	7,097

Note 7: Creditors: amounts falling due after more than one year

	2015 £'000	2014 Restated £'000
Bank loans at average rate of 2.27% (2014: 1.7% above the LIBOR interest rate)	307,760	40,300
Loan from Parent Company (in AUD and GBP) (2014: 2.15% above Australian Bank Base) repayable by April 2022	-	65,702
Amounts due to companies	67,835	4,154
	375,595	110,156

The bank loan of £307,760,305 is part of the Slater & Gordon Group loan facility

	2015 £'000	2014 £'000
The company's borrowings are repayable as follows		
On demand or within one year	-	4,000
Between one and two years	-	24,000
Between two and five years	307,760	16,300
After five years	-	65,702

The bank loans are also part of a syndicated facility provided to Slater & Gordon Limited by Westpac Banking Corporation and National Australia Bank. The facility is secured by a fixed and floating charge over the assets and uncalled capital of Slater & Gordon Limited, Slater & Gordon (UK) LLP and Slater & Gordon (UK) 1 Limited.

The company has entered into an interest rate swap to reduce the impact of any adverse movement in interest rates on the loans borrowed from the parent company's banks. The fair value of the swap arrangement at the balance sheet date was £176,382 (2014 - £144,699).

Parent Company's Financial Statements

For the Year Ended 30 June 2015

Note 7: Creditors' amounts falling due after more than one year (continued)

The amounts due from Slater & Gordon (UK) LLP are repayable under terms which match the bank loans and Parent Company loan. This means that the total loan is repayable after more than five years. All interest charged on these loans are recharged to Slater & Gordon (UK) LLP. During the year £4,919,995 (2014 - £4,137,244) of interest was recharged to Slater & Gordon (UK) LLP.

Balance at 30 June 2015	243,445	(97)

Note 10: Contingent Liabilities

The Company is a part of a group VAT election and is therefore jointly and severally liable for the VAT liability of other group entities. The group liability at 30 June 2015 was £5,965,602 (30 June 2014 - £4,467,766).

The Company is party to a £420,000,000 syndicated facility agreement dated 29 May 2015 pursuant to which its ultimate parent company, Slater and Gordon Limited, is a borrower (the "Facility Agreement"). Pursuant to the terms of the Facility Agreement, the Company has given a cross-guarantee (along with other Group Companies) in relation to all liabilities outstanding under the Facility Agreement in favour of the Finance Parties (as defined under the Facility Agreement). The Company is also party to a debenture dated 29 May 2015 (the "Debenture") pursuant to which the Company (together with other Group Companies) covenants with Westpac Banking Association (acting as Security Trustee for itself and the Secured Parties (as defined in the Debenture)) that it will on demand pay all liabilities outstanding under the Facility Agreement (and associated finance documents) when they are due and payable and grants security over all of its assets in favour of Westpac Banking Association (acting as Security Trustee for itself and the Secured Parties).

Note 11: Related party transactions

The company is taking advantage of the exemption granted under Financial Reporting Standard No. 8, "Related Party Transactions", not to disclose transactions with wholly owned group companies, which are related parties.
