Hastings and Bexhill Renaissance Limited

(A company limited by guarantee)

Notes to the financial statements

For the Year Ended 31 March 2023

1. General information

Hastings and Bexhill Renaissance Limited is a company limited by guarantee incorporated in England. The address of the registered office is Innovation Centre, Highfield Drive, St Leonards-On-Sea, East Sussex, TN38 9UH.

2. Accounting policies

2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Section 1A of Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland and the Companies Act 2006.

The preparation of financial statements in compliance with FRS 102 requires the use of certain critical accounting estimates. It also requires management to exercise judgement in applying the Company's accounting policies (see note 3).

As explained in Note 2.2, the intention of the company is to not continue to trade. The financial statements have been prepared on a basis other than that of a going concern which includes where appropriate, writing down the company's assets to net realisable value. Provision has also been made for any contractual commitments that have become onerous at the balance sheet date. The financial statements do not include any provision for future costs of terminating the activities of the company except to the extent that such costs were committed at the balance sheet date.

The company's functional and presentational currency is Pounds Sterling.

The company's financial statements are presented in round thousands.

The following principal accounting policies have been applied:

2.2 Basis other than going concern

The intention of the company is to not continue to trade. The financial statements have been prepared on a basis other than that of a going concern which includes, where appropriate, writing down the company's assets to net realisable value. Provision has also been made for any contractual commitments that have become onerous at the balance sheet date. The financial statements do not include any provision for the future costs of terminating the business of the company except to the extent that such costs were committed at the balance sheet date.

2.3 Impairment of fixed assets

Assets that are subject to depreciation or amortisation are assessed at each balance sheet date to determine whether there is any indication that the assets are impaired. Where there is any indication that an asset may be impaired, the carrying value of the asset (or cash-generating unit to which the asset has been allocated) is tested for impairment. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's (or CGU's) fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (CGUs). Non-financial assets that have been previously impaired are reviewed at each balance sheet date to assess whether there is any indication that the impairment losses recognised in prior periods may no longer exist or may have decreased.

Notes to the financial statements
For the Year Ended 31 March 2023

2. Accounting policies (continued)

2.4 Development property

Investment property is carried at fair value determined by external valuers and then considered annually by the directors. This is based on comparable real estate, adjusted if necessary for any difference in the nature, location or condition of the specific asset. No depreciation is provided. Changes in fair value are recognised in profit or loss.

2.5 Debtors

Short-term debtors are measured at transaction price, less any impairment. Loans receivable are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method, less any impairment.

2.6 Cash and cash equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid investments that mature in no more than three months from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

2.7 Financial instruments

The Company only enters into basic financial instrument transactions that result in the recognition of financial assets and liabilities like trade and other debtors and creditors, loans from banks and other third parties, loans to related parties and investments in ordinary shares.

Debt instruments (other than those wholly repayable or receivable within one year), including loans and other accounts receivable and payable, are initially measured at present value of the future cash flows and subsequently at amortised cost using the effective interest method. Debt instruments that are payable or receivable within one year, typically trade debtors and creditors, are measured, initially and subsequently, at the undiscounted amount of the cash or other consideration expected to be paid or received. However, if the arrangements of a short-term instrument constitute a financing transaction, like the payment of a trade debt deferred beyond normal business terms or in case of an out-right short-term loan that is not at market rate, the financial asset or liability is measured, initially at the present value of future cash flows discounted at a market rate of interest for a similar debt instrument and subsequently at amortised cost, unless it qualifies as a loan from a director in the case of a small company, or a public benefit entity concessionary loan.

Financial assets that are measured at cost and amortised cost are assessed at the end of each reporting period for objective evidence of impairment. If objective evidence of impairment is found, an impairment loss is recognised in the Statement of comprehensive income.

For financial assets measured at amortised cost, the impairment loss is measured as the difference between an asset's carrying amount and the present value of estimated cash flows discounted at the asset's original effective interest rate. If a financial asset has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate determined under the contract.

For financial assets measured at cost less impairment, the impairment loss is measured as the difference between an asset's carrying amount and best estimate of the recoverable amount, which is an approximation of the amount that the Company would receive for the asset if it were to be sold at the balance sheet date.

Notes to the financial statements
For the Year Ended 31 March 2023

2. Accounting policies (continued)

2.7 Financial instruments (continued)

Financial assets and liabilities are offset and the net amount reported in the Balance sheet when there is an enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

2.8 Creditors

Short-term creditors are measured at the transaction price. Other financial liabilities, including bank loans, are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method.

2.9 Grants

Grants received in respect of development properties

Development property related grants are accounted for in accordance with the performance model. Under the performance model:

- A grant that specifies performance conditions is recognised in income when the performance criteria are met;
- A grant that does not specify performance conditions is recognised in income when the proceeds are received or receivable;
- A grant received before the recognition criteria are satisfied is recognised as a liability

Grants received in respect of revenue expenditure

Grants relating to revenue are accounted for in accordance with the accrual model. Under the accrual model grants relating to revenue shall be recognised in income on a systematic basis over the periods in which the entity recognises the related costs for which the grant is intended to compensate.

2.10 Interest income

Interest income is recognised in profit or loss using the effective interest method.

Notes to the financial statements
For the Year Ended 31 March 2023

3. Judgements in applying accounting policies and key sources of estimation uncertainty

The preparation of the financial statements requires the directors to make judgements, estimates and assumptions that can affect the amounts reported for assets and liabilities, and the results for the year. The nature of estimation is such though that actual outcomes could differ significantly from those estimates.

The following judgements have had the most significant impact on amounts recognised in the financial statements:

Going concern

In the judgement of the directors it is not appropriate to prepare the financial statements in accordance with the going concern basis of accounting. See note 2.2 for further details.

Development properties

The company holds development property with fair value of £2 at the year end (see note 5). In order to determine the fair value of development properties the directors have used a valuation technique based on comparable market data. The determined fair value of the development property is most sensitive to fluctuations in the property market.

Grants

Grants relating to development properties are accounted for under the performance model. In the opinion of the Directors' all performance criteria have been met and thus all appropriate grant income has been released.

4. Audit report

The auditors' report on the financial statements for the year ended 31 March 2023 was unqualified.

In their report, the auditors emphasised the following matter without qualifying their report:

In forming our opinion on the financial statements, which is not modified, we have considered the adequacy of the disclosures in note 2.2 to the financial statements concerning the company's ability to continue as a going concern. The intention of the company is to not continue to trade. For these reasons the financial statements have been prepared on a basis other than that of a going concern. The financial statements include adjustments where appropriate in accordance with note 2.1.

The audit report was signed on 18 December 2023 by Peter Manser FCA DChA (Senior statutory auditor) on behalf of Kreston Reeves LLP.

5. Employees

The average monthly number of employees, including directors, during the year was 7 (2022 - 7).
