For the year ended 30 June 2017 the company was entitled to exemption from audit under section 477 Companies Act 2006. The members have not requested the company to obtain an audit of its financial statements for the year ended 30 June 2017 in accordance with section 476 Companies Act 2006.

The directors acknowledge their responsibilities for complying with the requirements of the Companies Act 2006 with respect to accounting records and the preparation of financial statements.

These financial statements have been prepared in accordance with the provisions applicable to companies subject to the small companies regime of the Companies Act 2006 and in accordance with FRS 102 Section 1A – Small Entities.

The company's annual accounts and reports have been delivered in accordance with the provisions applicable to companies subject to the small companies regime. Therefore, the directors' report and the profit and loss account have not been delivered to the Registrar.

**Approval**

The financial statements were approved by the board of directors on 28 March 2018 and signed on their behalf.

S H Platz  
Director

The notes on pages 2 to 6 form part of these financial statements.

*Notes forming part of the unaudited financial statements for the year ended 30 June 2017***1 Company information**

David Platz Music Limited is a private company, limited by shares, and registered in England under number 05163313. The registered office is at Roundhouse, 212 Regent's Park Road, London NW1 8AW.

The principal activity of the company continued to be that of music publishers including the provision of management services in connection therewith.

**2 Summary of significant accounting policies***Basis of preparation of financial statements*

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with FRS 102 Section 1A - Small Entities. FRS 102 is the Financial Reporting Standard applicable in the UK and Republic of Ireland. There are no material departures from the standard.

*Transition from previous accounting framework*

The company's accounting policies are not materially different from those applied under the previous accounting framework and the adoption of the new standard has not impacted materially on equity or profit.

*Turnover and other revenue*

Turnover and other revenue is recognised at fair value of the consideration received or receivable. Furthermore, revenue is recognised when it is probable that economic benefits will flow to the company and the amount of the revenue can be reliably measured.

*Royalty income*

Royalty income is recognised on a notified earnings basis.

Other than where amounts are collected by the company's overseas sub-publishers, royalties derived from the inclusion of the company's copyrights on recorded music products or from performance are recognised when they are earned by the company from the relevant collection society or record company. Similarly, except for overseas collected amounts, royalties derived from the synchronisation of the company's copyrights are recognised as earned. Royalty amounts collected overseas are recognised in the period the amounts are reportable to the company by the sub-publisher.

*Fees for provision of management services*

Fees for the provision of management services are recognised on a straight-line basis over the period to which they accrue.

*Interest income*

Interest income is recognised using the effective interest method.

*Dividend income*

Dividend income is recognised when the company's right to receive payment is established.

*Notes forming part of the unaudited financial statements for the year ended 30 June 2017***2 Summary of significant accounting policies (continued)***Royalties payable*

Royalties payable are charged to the profit and loss account to the extent that amounts are contractually paid or are payable in respect of the year under review. If any royalties payable are considered to be recoverable from future income, these are carried forward in debtors.

*Intangible assets – music copyrights*

Music copyrights acquired are measured at costs less amortisation and impairment losses. The cost is amortised over the useful life based on projected income over that period. The useful life is reviewed annually.

*Investments – shares in group undertakings and participating interests*

The company's investments are carried at cost, adjusted for impairment.

At the end of each financial year, the investments are reviewed for any indication of impairment loss. If there is any loss then the carrying amount of the investments is reduced to estimated recoverable amount and the impairment loss is recognised in the profit and loss account. If the impairment losses reverse, the carrying amount is increased and the reversal is recognised in the profit and loss account.

*Financial instruments (excluding investments in group undertakings and participating interests)*

Basic financial instruments, whether financial assets or financial liabilities, are recognised at amortised cost using the effective interest method.

*Debtors and creditors falling due within one year*

Debtors and creditors falling due within one year are recognised at undiscounted transaction price. Debtors are reviewed for impairment at the end of the financial year and any impairments are recognised in the profit and loss account.

*Foreign currencies*

The financial statements are presented in sterling and this is also the functional currency of the company. Transactions in currencies (other than the functional currency) are recorded at the rate of exchange ruling at the date of the transaction. Monetary items denominated in other currencies are translated into sterling at the rates of exchange prevailing at the balance sheet date. All exchange differences arising are dealt with in the profit and loss account.

*Notes forming part of the unaudited financial statements for the year ended 30 June 2017***2 Summary of significant accounting policies (continued)***Taxation*

Taxation comprises current taxation and deferred tax.

Current tax represents the amount of tax payable in respect of taxable profit for the current or past financial years. The company's liability to current tax is measured using tax rates that have been enacted by the balance sheet date.

Deferred tax represents future tax consequences of transactions recognised in the current or past financial years. Deferred tax is recognised in respect of all timing differences except that deferred tax assets are only recognised to the extent that it is probable that they will be recoverable against the reversal of deferred tax liabilities or other future taxable profits. Deferred tax is measured using the tax rates and laws that have been enacted by the balance sheet date that are expected to apply to the reversal of timing differences.

**3 Average number of employees**

The average number of persons, including directors, employed by the company in the financial year was 4 (2016: 4).
