**1) Accounting Policies**

**Basis of Accounting**

The financial statements have been prepared under the historical cost convention

**Turnover**

Turnover is the total amount receivable by the company for services provided, excluding VAT

**Tangible Fixed Assets and Depreciation**

Depreciation is calculated to write down the cost or valuation less estimated residual value of all tangible fixed assets other than freehold land. The rates and/or periods generally applicable are:

Motor Vehicle	15% per annum
Equipment	15% per annum

**Stocks**

Stocks are stated at the lower of cost and net realisable value.

**Deferred Taxation**

Deferred tax is provided for under the liability method using the tax rates estimated to arise when the timing differences reverse and is accounted for to the extent that it is probable that a liability or asset will crystallise. Unprovided deferred tax is disclosed as a contingent liability if material.

**Hire Purchase and Leased Assets**

Assets held under finance leases and hire purchase agreements are capitalised in the balance sheet at their fair value and depreciated over their expected useful lives as per company accounting policy. The interest element of leasing payments represents a constant proportion of the capital balance outstanding and is charged to the profit and loss account over the period of the lease.

All other leases are regarded as operating lease and the payments made under them are charged to the profit and loss account on a straight line basis over the lease term.
