#### Abbreviated Balance Sheet as at 30 September 2008 (continued)

For the financial year ended 30 September 2008, the company was entitled to exemption from audit under section 249A(1) of the Companies Act 1985; and no notice has been deposited under section 249B(2) requesting an audit. The director acknowledges his responsibilities for ensuring that the company keeps accounting records which comply with section 221 of the Act and preparing accounts which give a true and fair view of the state of affairs of the company as at the end of the year and of its profit or loss for the financial year in accordance with the requirements of section 226 and which otherwise comply with the Companies Act 1985, so far as applicable to the company.

The abbreviated accounts have been prepared in accordance with the special provisions of Part VII of the Companies Act 1985 relating to small companies.

These accounts were approved by the Director on .02°729.55

AG Farmer Director

#### Notes to the abbreviated accounts for the Year Ended 30 September 2008

#### 1 Accounting policies

#### Basis of preparation

The full financial statements, from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2007).

#### Going concern

The company meets its day to day working capital requirements through the continued financial support of its director. The director therefore considers it appropriate to prepare financial statements on a going concern basis. The financial statements do not include any adjustments that would result in the withdrawal of financial support by the company's director.

#### Turnover

Turnover represents amounts chargeable, net of value added tax, in respect of the sale of goods and services to customers.

#### **Amortisation**

Amortisation is provided on intangible fixed assets so as to write off the cost or valuation, less any estimated residual value, over their expected useful economic life as follows:

Equal annual installments over 10

Goodwill

years

#### Depreciation

Depreciation is provided on tangible fixed assets so as to write off the cost or valuation, less any estimated residual value, over their expected useful economic life as follows:

Plant and machinery

15% reducing balance and 25% reducing balance

Fixtures and fittings

25% reducing balance / 3 years straightline

Motor vehicles

25% reducing balance

#### Goodwill

Goodwill is the difference between the fair value of consideration paid for an acquired entity and the aggregate of the fair value of that entity's identifiable assets and liabilities.

Positive goodwill is capitalised, classified as an asset on the balance sheet and amortised on a straight line basis over its useful economic life. It is reviewed for impairment at the end of the first full financial year following the acquisition and in other periods if events or changes in circumstances indicate that the carrying value may not be recoverable.

#### Stock

Stock is valued at the lower of cost and net realisable value, after due regard for obsolete and slow moving stocks. Net realisable value is based on selling price less anticipated costs to completion and selling costs.

#### Notes to the abbreviated accounts for the Year Ended 30 September 2008

#### **Deferred taxation**

Deferred tax is recognised, without discounting, in respect of all timing differences between the treatment of certain items for taxation and accounting purposes, which have arisen but not reversed by the balance sheet date, except as required by FRSSE.

Deferred tax is measured at the rates that are expected to apply in the periods when the timing differences are expected to reverse, based on the tax rates and law enacted at the balance sheet date.

#### Hire purchase and finance lease contracts

Assets held under finance leases, which are leases where substantially all the risks and rewards of ownership of the asset have passed to the company, are capitalised in the balance sheet as tangible fixed assets and are depreciated over their useful lives. The capital elements of future obligations under the leases are included as liabilities in the balance sheet. The interest element of the rental obligation is charged to the profit and loss account over the period of the lease and represents a constant proportion of the balance of capital repayments outstanding.

Assets held under hire purchase agreements are capitalised as tangible fixed assets and are depreciated over their useful lives. The capital element of future finance payments is included within creditors. Finance charges are allocated to accounting periods over the length of the contract.

#### **Financial instruments**

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.
