Notes to the Abbreviated Accounts for the period ended 30 September 2013**1 Accounting Policies****Tangible assets depreciation policy**

Freehold land is stated at historical cost and is not depreciated. This treatment is a departure from the requirements of the Companies Act 2006 concerning depreciation of fixed assets. However, this property is not held for consumption but as an investment. In such a case it is the current value of the investment, and changes in its current value, which are of prime importance. Consequently, for the proper appreciation of the financial position, the accounting treatment required by FRSSE 2008 is considered appropriate for investment properties. Depreciation or amortisation is only one of the many factors reflected in the annual valuation, and the amount which might otherwise have been shown cannot be separately identified or quantified.
