Company law requires the directors to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that year. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;

Notes forming part of the financial statements

1. Accounting policies

The following principal accounting policies have been applied in the preparation of these financial statements

a) Accounting convention

These accounts have been prepared under the historical cost convention, as modified by the revaluation of certain assets.

b) Turnover

Turnover is stated net of VAT and comprises rental income and commissions and fees receivable. This is attributable to the company's principal activity wholly undertaken in the United Kingdom.

c) Investment properties

All investment properties are valued each year on an open market value basis and the aggregate surplus or temporary deficit arising from such revaluation is transferred to revaluation reserve. Deficits that are expected to be permanent are taken to profit and loss account. No depreciation is provided. Acquisitions and disposals of properties are recognised where binding contracts have been exchanged during the accounting year, provided completion takes place prior to approval of the accounts.

d) Deferred taxation

Deferred tax balances are recognised in respect of all timing differences that have originated but not reversed by the balance sheet date except that:

- deferred tax is not recognised on timing differences arising on revalued properties unless the company has entered into a binding sale agreement and is not proposing to take advantage of rollover relief; and
- the recognition of deferred tax assets is limited to the extent that the company anticipates to make sufficient taxable profits in the future to absorb the reversal of the underlying timing differences.

Deferred tax balances are not discounted.

2. Operating profit

The company has no employees. The directors received no remuneration in the year. Audit fees are borne by the parent company.
