E.M. Nelson

Director

Approved by the board on 7 August 2017

Tax Justice Network Limited
Notes to the Accounts
for the year ended 31 December 2016

1 Accounting policies

Basis of preparation

The accounts have been prepared under the historical cost convention and in accordance with FRS 102, The Financial Reporting Standard applicable in the UK and Republic of Ireland.

Turnover

Turnover is measured at the fair value of the consideration received or receivable, net of discounts and value added taxes. Turnover represents the value, net of value added tax, of work carried out in respect of services provided to the tax justice movement. Turnover from the rendering of services is recognised by reference to the stage of completion of the contract. The stage of completion of a contract is measured by comparing the costs incurred for work performed to date to the total estimated contract costs.

Tangible fixed assets

Tangible fixed assets are measured at cost less accumulative depreciation and any accumulative impairment losses. Depreciation is provided on all tangible fixed assets, other than freehold land, at rates calculated to write off the cost, less estimated residual value, of each asset evenly over its expected useful life, as follows:

Computer & office equipment	33% straight line
-----------------------------	-------------------

Debtors

Short term debtors are measured at transaction price (which is usually the invoice price), less any impairment losses for bad and doubtful debts. Loans and other financial assets are initially recognised at transaction price including any transaction costs and subsequently measured at amortised cost determined using the effective interest method, less any impairment losses for bad and doubtful debts.

Creditors

Short term creditors are measured at transaction price (which is usually the invoice price). Loans and other financial liabilities are initially recognised at transaction price net of any transaction costs and subsequently measured at amortised cost determined using the effective interest method.

Taxation

A current tax liability is recognised for the tax payable on the taxable profit of the current and past periods. A current tax asset is recognised in respect of a tax loss that can be carried back to recover tax paid in a previous period. Deferred tax is recognised in respect of all timing differences between the recognition of income and expenses in the financial statements and their inclusion in tax assessments. Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the reporting date and that are expected to apply to the reversal of the timing difference, except for revalued land and investment property where the tax rate that applies to the sale of the asset is used. Current and deferred tax assets and liabilities are not discounted.

Tax Justice Network Limited
Notes to the Accounts
for the year ended 31 December 2016

Foreign currency translation

Transactions in foreign currencies are initially recognised at the rate of exchange ruling at the date of the transaction. At the end of each reporting period foreign currency monetary items are translated at the closing rate of exchange. Non-monetary items that are measured at historical cost are translated at the rate ruling at the date of the transaction. All differences are charged to profit or loss.

Pensions

Contributions to defined contribution plans are expensed in the period to which they relate.

2 Audit information

These accounts have been audited by Chapman, Robinson & Moore Limited. Their audit report is unqualified and is signed on their behalf by Tony Hobbs, Senior Statutory Auditor.

11 Contingent assets

The Company has made a claim of £27,660 (€31,472) against their previous payroll service provider for misappropriation of funds resulting in an underpayment of the same amount to employees. Extrajudicial negotiations were not successful, and legal advisers are in the process of preparing a lawsuit to recover these sums. The solicitor engaged is of the opinion that Tax Justice Network Ltd is likely to be awarded the full amount claimed by the German courts. Due to the uncertainty surrounding the recoverability of any amount awarded, the directors have decided not to recognise a debtor in the accounts.

12 Contingent liabilities

The company does not have a share capital and is limited by guarantee. In the event of the Company being wound up the maximum amount each member is liable to contribute is £1. There were 11 guarantor members at the balance sheet date.

13 Other information

Tax Justice Network Limited is a private company limited by shares and incorporated in England. Its registered office is:
38 Stanley Avenue
Chesham
Buckinghamshire
