ACCOUNTING POLICIES

3

Accounting convention

The financial statements have been prepared under the historical cost convention as modified by the revaluation of certain assets and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life

Leasehold properties - see below

Properties in the course of construction are independently valued on an open market basis. Where independent valuation is not available, it is the policy of the company to use director's estimation of open market value. Any surplus or deficit arising is transferred to the revaluation reserve. The directors consider that this accounting policy will provide a true and fair view. Depreciation will be charged upon the commencement of the properties' economic useful lives.

Hire purchase and leasing commitments

Rentals paid under operating leases are charged to the profit and loss account on a straight line basis over the period of the lease
