### NOTES TO THE ABBREVIATED ACCOUNTS FOR THE YEAR ENDED 31 MARCH 2016

#### 1. ACCOUNTING POLICIES

#### Accounting convention

The financial statements have been prepared under the historical cost convention as modified by the revaluation of certain assets and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015).

#### **Turnover**

Turnover represents net invoiced sales of services, excluding value added tax, and is derived from ordinary activities.

#### Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Freehold property - 2% on cost

Fixtures and fittings - 15% on reducing balance

Computer equipment - 33% on cost

#### **Investment property**

Investment property is accounted for in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015) as follows:

Investment property is revalued annually by the directors. The surplus or deficit on revaluation is transferred to the revaluation reserve unless a deficit below original cost, or its reversal, on the investment property is expected to be permanent, in which case it is recognised in the profit and loss account for the year.

Although the Companies Act would normally require the systematic annual depreciation of fixed assets, the directors believe that the policy of not providing depreciation is necessary in order for the accounts to give a true and fair view, since the current value of investment property, and changes to that current value, are of prime importance rather than a calculation of systematic annual depreciation. Depreciation is only one of many factors reflected in the annual valuation, and the amount which might otherwise have been included cannot be separately identified or qualified.

#### Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date and is calculated on an undiscounted basis.

### Hire purchase and leasing commitments

Rentals paid under operating leases are charged to the profit and loss account on a straight line basis over the period of the lease.
