1 Accounting policies

Basis of preparation

The full financial statements, from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (Effective April 2008).

Turnover

Commissions on transactions in life policies and pension contracts are recognised on a receipts basis as amended for commissions due in the year and confirmed as paid after the year end. Commissions on policies written under indemnity terms are reduced by a provision for payment in the event that premiums cease within the indemnity period. At the balance sheet date this provision was not made on a basis of materiality.

Financial instruments

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities. Where shares are issued, any component that creates a financial liability of the company is presented as a liability in the balance sheet. The corresponding dividends relating to the liability component are charged as interest expense in the profit and loss account.
