## **DIRECTORS' REPORT**

The directors present their Annual Report and the audited Financial Statements for the year ended 31 March 2022.

This directors' report has been prepared in accordance with the provisions applicable to small companies entitled to the small companies' exemption.

### **BUSINESS REVIEW AND PRINCIPAL ACTIVITIES**

The principal activity of the Company was to provide investment support for the creative industries, as part of a Welsh Government strategy. The main purposes of these investments were to:

- stimulate growth in the creative industries in Wales by attracting more productions to Wales;
- help Welsh companies to compete more effectively; and
- improve a producer's ability to create and retain intellectual assets.

Following a review of the activity and subsequent discussions with the Welsh Government, the Company ceased to make new investments with effect from 31 March 2012 but continued to release approved tranches for a number of existing investments. The Company continues to manage the existing portfolio on behalf of the Welsh Government.

The Company made no investments during the year (2021: £nil). £13,354 was recovered during the year (2021: £1,622) including £13,354 from investments that had been impaired in previous years (2021: £1,622). The directors expect the general level of activity to remain consistent with 2021 in the forthcoming year.

### **GOING CONCERN**

The Directors have made an assessment of going concern, taking into account both current performance and the Company's outlook which considered the impact of the Russian Forces entering Ukraine, Covid-19 pandemic and the UK's exit from the European Union. As part of the assessment of going concern the Directors made enquiries and reviewed forecasts for the Company including considering the recoverability of the outstanding loan investments, undrawn funding commitments and investment repayments made, and the Directors believe there are no material uncertainties that lead to significant doubt on the Company's ability to continue in business over the next 12 months at least.

The going concern assessment for the Group covers all its subsidiaries so all inputs and assumptions used to support our conclusion can be found within the publicly available Group financial statements of Development Bank of Wales. The going concern assessment period covers the period to 30 September 2023, 12 months subsequent to signing the Annual report and financial statements for the year ended 31 March 2022.

As a result of this assessment, the Directors consider that it is appropriate to adopt the going concern basis of accounting in preparing the Company and Consolidated Financial Statements.

### **RUSSIAN FORCES ENTERING UKRAINE**

On 24 February 2022 Russian forces entered Ukraine, resulting in Western Nation reactions including announcements of sanctions against Russia and Russian interests worldwide and an economic ripple effect on the global economy. The directors have carried out an assessment of the potential impact of Russian forces entering Ukraine on the business, including the impact of mitigation measures and uncertainties, and have concluded that the greatest impact is expected to be from the economic ripple effect on the global economy, but it is not currently possible to determine the amount of potential impairment to investments.

### **DIRECTORS**

The directors of the Company, who served throughout the financial year and subsequently to the date of this report, unless stated otherwise, are as shown on page 1.

### **DIRECTORS' INDEMNITIES**

The company has made qualifying third-party indemnity provisions for the benefit of all directors. These were in force during the financial year and remained in force at the date of approval of the financial statements.

## **DIRECTORS' REPORT**

### **FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES**

The principal business of the Company is investment and, as such, exposure to and management of portfolio risk is an inherent feature of this activity, particularly given the area of the market in which the Company operates. It is not anticipated that this risk will materially increase during the next 12 months.

The Company's activities expose it to a number of financial risks including credit risk and liquidity risk. The Company's financial risk management objectives and policies are outlined in detail in Note 10.

### **SUBSEQUENT EVENTS**

There were no subsequent events to report.

### **POLITICAL DONATIONS**

The company made no political donations during 2022 (2021: nil).

### **AUDITOR**

In the case of each person who are directors of the Company at the date when this report is approved:

- so far as each of the directors are aware, there is no relevant audit information of which the Company's auditor is unaware; and
- the directors have taken all the steps that they ought to have taken as a director to make themselves aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

This confirmation is given and should be interpreted in accordance with the provisions of section 418 of the Companies Act 2006.

Development Bank of Wales plc (the "Group") of which the Company is a subsidiary, undertook a procurement exercise for external audit services during the 2022 financial year and Mazars LLP were subsequently appointed.

Approved by the Director  
and signed on behalf of the Director

J Oates  
Company Secretary  
21 September 2022

## **DIRECTORS' RESPONSIBILITIES STATEMENT**

The directors are responsible for preparing the Annual Report and the Financial Statements in accordance with applicable law and regulations.

Company law requires the director to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law), including FRS 101 "Reduced Disclosure Framework". Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

**INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF  
DBW INVESTMENTS (4) LIMITED**

**Opinion**

We have audited the financial statements of DBW Investments (4) Limited (the 'company') for the year ended 31 March 2022 which comprise the profit and loss account, balance sheet, and notes to the financial statements, including a summary of significant accounting policies.

The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including FRS 101 "Reduced Disclosure Framework."

In our opinion, the financial statements:

- give a true and fair view of the state of the company's affairs as at 31 March 2022 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

**Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the "Auditor's responsibilities for the audit of the financial statements" section of our report. We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

**Conclusions relating to going concern**

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

**INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF  
DBW INVESTMENTS (4) LIMITED**

**Other information**

The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. The directors are responsible for the other information contained within the annual report. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

**Opinions on other matters prescribed by the Companies Act 2006**

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the directors' report have been prepared in accordance with applicable legal requirements.

**Matters on which we are required to report by exception**

In light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified material misstatements in the directors' report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

**INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF  
DBW INVESTMENTS (4) LIMITED**

**Responsibilities of Directors**

As explained more fully in the directors' responsibilities statement set out on page 4 the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

**Auditor's responsibilities for the audit of the financial statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud.

Based on our understanding of the company and its industry, we considered that non-compliance with the following laws and regulations might have a material effect on the financial statements: employment regulation, health and safety regulation and anti-money laundering regulation.

To help us identify instances of non-compliance with these laws and regulations, and in identifying and assessing the risks of material misstatement in respect to non-compliance, our procedures included, but were not limited to:

- Inquiring of management and, where appropriate, those charged with governance, as to whether the company is in compliance with laws and regulations, and discussing their policies and procedures regarding compliance with laws and regulations;
- Inspecting correspondence, if any, with relevant licensing or regulatory authorities;
- Communicating identified laws and regulations to the engagement team and remaining alert to any indications of non-compliance throughout our audit; and
- Considering the risk of acts by the company which were contrary to applicable laws and regulations, including fraud.

**INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF  
DBW INVESTMENTS (4) LIMITED**

We also considered those laws and regulations that have a direct effect on the preparation of the financial statements, such as tax legislation, pension legislation and the Companies Act 2006.

In addition, we evaluated the directors' and management's incentives and opportunities for fraudulent manipulation of the financial statements, including the risk of management override of controls, and determined that the principal risks related to posting manual journal entries to manipulate financial performance, management bias through judgements and assumptions in significant accounting estimates, and significant one-off or unusual transactions.

Our audit procedures in relation to fraud included but were not limited to:

- Making enquiries of the directors and management on whether they had knowledge of any actual, suspected or alleged fraud;
- Gaining an understanding of the internal controls established to mitigate risks related to fraud;
- Discussing amongst the engagement team the risks of fraud; and
- Addressing the risks of fraud through management override of controls by performing journal entry testing.

There are inherent limitations in the audit procedures described above and the primary responsibility for the prevention and detection of irregularities including fraud rests with management. As with any audit, there remained a risk of non-detection of irregularities, as these may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal controls.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at [www.frc.org.uk/auditorsresponsibilities](http://www.frc.org.uk/auditorsresponsibilities). This description forms part of our auditor's report.

**Use of the audit report**

This report is made solely to the company's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body for our audit work, for this report, or for the opinions we have formed.

**NOTES TO THE FINANCIAL STATEMENTS****For the year ended 31 March 2022****1. ACCOUNTING POLICIES**

The principal accounting policies are summarised below. They have been applied consistently throughout the current and prior financial year.

**Basis of accounting**

DBW Investments (4) Limited is a company incorporated in the United Kingdom under the Companies Act 2006. The Company is a private Company limited by shares and is registered in England & Wales. The address of the registered office is given on page 1. The nature of the Company's operations and its principal activities are set out in the Directors' Report on page 2.

The Company meets the definition of a qualifying entity under FRS 100 (Financial Reporting Standard 100) issued by the Financial Reporting Council. These financial statements were prepared in accordance with FRS 101 (Financial Reporting Standard 101) '*Reduced Disclosure Framework*' as issued by the Financial Reporting Council.

The financial statements have been prepared on the historical cost basis and on a going concern basis as discussed in the Director's report on page 2. The financial statements have been prepared on the historical cost basis, except for the revaluation of certain financial instruments that are measured at revalued amounts or fair values at the end of each reporting period, as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for the goods and services. The principal accounting policies adopted are set out below.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement purposes in these financial statements is determined on such a basis. In addition, for financial reporting purposes fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability

As permitted by FRS 101, the Company has taken advantage of the disclosure exemptions available under that standard in relation to business combinations, presentation of a statement of cash flows, standards not yet effective and related party transactions. Where required, equivalent disclosures are given in the Group financial statements of Development Bank of Wales plc. The Group financial statements of Development Bank of Wales plc are available to the public and can be obtained as set out in Note 12.

**Taxation****Current tax**

Current tax is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date. The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the profit and loss account because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible.

**Deferred tax**

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amount of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

## NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 March 2022

### 1. ACCOUNTING POLICIES (continued)

#### Taxation (continued)

##### *Deferred tax (continued)*

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled, or the asset is realised based on tax laws and rates that have been enacted or substantively enacted at the balance sheet date.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

##### *Current tax and deferred tax for the year*

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

#### Revenue recognition

Revenue represents interest receivable on loans, application and arrangement fees. All revenue relates to one class of business and arises in the UK on investments made in Welsh businesses.

Interest income is recognised when it is probable that the economic benefits will flow to the Company and the amount of revenue can be measured reliably. Interest income and loan arrangement fees are accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

#### Foreign currency

The financial statements are presented in pounds sterling, which is the currency of the primary economic environment in which the Company operates (its functional currency).

Transactions in currencies other than the functional currency are recorded at the rate of exchange at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are reported at the rates of exchange prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

#### Financial instruments

Financial assets and financial liabilities are recognised in the Company's balance sheet when the Company becomes a party to the contractual provisions of the instrument.

Recognised financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit and loss (FVTPL)) are added or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in profit or loss.

**NOTES TO THE FINANCIAL STATEMENTS**  
**For the year ended 31 March 2022**

**1. ACCOUNTING POLICIES (continued)**

**Financial instruments (continued)**

*Financial assets*

All recognised financial assets that are within the scope of IFRS 9 are required to be subsequently measured at amortised cost or fair value on the basis of the entity's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets.

Specifically:

- debt instruments that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal amount outstanding (SPPI), are subsequently measured at amortised cost;
- all equity investments are subsequently measured at FVTPL.

*Loans and advances to customers*

For the purpose of the SPPI test, principal is the fair value of the financial asset at initial recognition. That principal amount may change over the life of the financial asset (e.g. if there are repayments of principal). Interest consists of consideration for the time value of money, for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs, as well as a profit margin.

A basic lending arrangement results in contractual cash flows that are solely payments of principal and interest on the principal amount outstanding. Where the contractual cash flows introduce exposure to risks or volatility unrelated to a basic lending arrangement such as changes in equity prices or commodity prices, the payments do not comprise solely principal and interest.

An assessment of business models for managing financial assets is fundamental to the classification of a financial asset. The Company assesses its business models at a portfolio level based on its objectives for the relevant portfolio and how the performance of the portfolio is managed and reported.

*Loan commitments*

The Company has no loan commitments as at the balance sheet date. Initial loans and follow-on loans are granted based on conditions at the point of drawdown. The Company will always reserve the right not to invest if agreed conditions are not met.

*Effective interest method*

Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL. The effective interest method is a method of calculating the amortised cost of a financial asset and of allocating interest income over the relevant period. The effective interest rate (EIR) is the rate that exactly discounts estimated future cash receipts (including all fees on points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset, or, where appropriate, a shorter period, to the net carrying amount of the financial asset.

Interest income is calculated by applying the EIR to the gross carrying amount of non-credit impaired financial assets (i.e. at the amortised cost of the financial asset before adjusting for any expected credit loss allowance). For credit-impaired financial assets the interest income is calculated by applying the EIR to the amortised cost of the credit-impaired financial assets (i.e. the gross carrying amount less the allowance for expected credit losses (ECLs)).

For purchased or originated credit impaired assets (POCI), the EIR reflects the ECLs in determining future cash flows expected to be received from the financial asset.

## NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 March 2022

## 1. ACCOUNTING POLICIES (continued)

**Financial instruments (continued)*****Financial assets at FVTPL***

Financial assets at FVTPL are:

- assets with contractual cash flows that are not solely payments of principal and interest;
- assets that are held in a business model other than held to collect contractual cash flows or held to collect and sell; or
- assets designated as FVTPL using the fair value option.

These assets are measured at fair value, with any gains/losses arising on re-measurement recognised in profit or loss. Fair value is determined in the manner described in Note 12.

***Impairment***

The Company assesses on a forward-looking basis, the expected credit losses (ECLs) associated with its debt instrument assets carried at amortised cost.

IFRS 9 outlines a three-stage model for impairment based on changes in credit quality since initial recognition. At initial recognition, financial assets are categorised as Stage 1 and an impairment provision is made for ECLs resulting from default events projected within the next 12 months (12-month ECL). Subsequently, financial assets are considered to be in Stage 2 when their credit risk has increased significantly since initial recognition, at which point it is considered appropriate to recognise lifetime ECL. Financial assets are included in Stage 3 when there is objective evidence that the asset is credit-impaired, with expected credit losses still calculated on a lifetime basis.

ECL's are a probability-weighted estimate of the present value of credit losses. These are measured as the present value of the difference between the cash flows due to the Company under the contract and the cash flows that the Company expects to receive, arising from discounting the cash flows at the asset's EIR.

***Significant increase in credit risk (SICR)***

The Company monitors all financial assets that are subject to impairment requirements to assess whether there has been SICR since initial recognition. If there has been SICR the Company will measure the loss allowance based on lifetime rather than 12-month ECL.

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Company considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort, based on the Company's historical experience and expert credit assessment including forward-looking information, and regional or sectoral information.

***Credit-impaired financial assets***

A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Evidence of credit-impairment includes observable data about the performance of the borrower. The Company uses its portfolio risk grading system (grades A to E) to identify credit-impaired financial assets.

It may not be possible to identify a single discrete event – instead, the combined effect of several events may have caused financial assets to become credit-impaired. The Company assesses whether debt instruments that are financial assets measured at amortised cost are credit-impaired at each reporting date.

A loan is considered credit-impaired when forbearance of more than 30 days is granted to the borrower due to a deterioration in the borrower's financial condition, unless there is evidence that as a result of granting the forbearance the risk of not receiving the contractual cash flows has reduced significantly and there are no other indicators of impairment. For financial assets where forbearance is contemplated but not granted the asset is deemed credit-impaired when there is observable evidence of credit-impairment including meeting the definition of default.

## NOTES TO THE FINANCIAL STATEMENTS

### For the year ended 31 March 2022

#### 1. ACCOUNTING POLICIES (continued)

##### Financial instruments (continued)

##### *Definition of default*

Critical to the determination of ECL is the definition of default. The definition of default is used in measuring the amount of ECL and in the determination of whether the loss allowance is based on 12-month or lifetime ECL, as default is a component of the probability of default (PD) which affects both the measurement of ECLs and the identification of a significant increase in credit risk.

Default is considered to have occurred when there is evidence that a customer is in significant financial difficulty and that the customer meets certain quantitative and qualitative criteria regarding their ability to make contractual payments when due. This includes instances where:

- the customer has incurred significant unauthorised arrears as a result of overdue contractual repayments;
- the customer makes a declaration of significant financial difficulty;
- it appears probable that the customer will enter administration, bankruptcy, or another form of financial restructure;
- the customer is unlikely to pay its credit obligations to the Company in full for any other reason.

##### *Purchased or originated credit-impaired (POCI) financial assets*

POCI financial assets are treated differently because the asset is credit-impaired at initial recognition. For these assets, the Company recognises all changes in lifetime ECL since initial recognition as a loss allowance with any changes recognised in profit or loss. A favourable change for such assets creates an impairment gain.

##### *Modification and de-recognition of a financial asset*

Modification of a financial asset is considered to have occurred under IFRS 9 if the contractual cash flows of a financial asset are renegotiated or otherwise modified between initial recognition and maturity of a financial asset. A modification affects the amount and/or timing of the contractual cash flows either immediately or at a future date. The change to the original contractual terms must be legally binding and enforceable by law.

The Company renegotiates and reschedules loans to customers for a number of reasons. The most common reason is to assist customers in financial difficulty in order to maximise our collections and minimise the risk of default. The revised terms in most cases include an extension of the maturity of the loan or changes to the timing of the cash flows of the loan (principal and interest repayment). On modification the gross carrying amount of the loan is recalculated as the present value of the renegotiated or modified contractual cash flows, which are discounted at the original effective interest rate.

An assessment needs to be made at the time of modification as to whether the modification warrants the financial asset being de-recognised and a new financial asset originated. A change is deemed to be substantial if the movement in NPV due to modification is >10%. In these cases, the original financial asset will be de-recognised and, where appropriate, a new financial asset originated at the date of modification. Where a loan is de-recognised and a new loan originated, a gain or loss being the difference between the fair value of the new loan recognised and the carrying amount of the original loan de-recognised (including the cumulative loss allowance) will be recognised in the profit and loss account. The assessment of the credit risk of the new financial asset will start again and the ECL will initially be calculated on a 12-month basis.

The Company would also de-recognise a financial asset where the modification of that financial asset would lead to any of the following scenarios:

- the extinguishing of the contractual rights to the cash flows from the assets, or
- the transfer of the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

##### *Write-off*

Loans and equity investments are written off when the Company has no reasonable expectations of recovering the financial asset (either in its entirety or a portion of it). This is the case when the Company determines that the borrower does not have assets or sources of payment that could generate sufficient cash flows to repay the amounts subject to the write-off. A write-off constitutes a derecognition event. The Company may apply enforcement activities to financial assets written off. Recoveries resulting from the Company's enforcement activities will result in impairment gains being recognised in profit or loss.

**NOTES TO THE FINANCIAL STATEMENTS**  
**For the year ended 31 March 2022**

**1. ACCOUNTING POLICIES (continued)**

**Financial instruments (continued)**

***Financial liabilities and equity***

Debt and equity instruments are classified as either financial liabilities or equity instruments according to the substance of the contractual arrangements.

***Financial liabilities***

Financial liabilities are recognised as either financial liabilities at FVTPL or other financial liabilities. Other financial liabilities, including borrowings, are initially measured at fair value, net of transaction costs. Other financial liabilities are subsequently measured at amortised cost using the effective interest method.

***Equity instruments***

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

***Cash and cash equivalents***

Cash and cash equivalents comprise cash on hand and demand deposits and are subject to an insignificant risk of changes in value.

***Embedded derivatives***

Embedded derivatives that are not closely related will be separated from host contracts in accordance with IFRS 9, where a separate derivative is recorded it will be held at FVTPL.

**Public equity**

The Welsh Ministers, acting through the Welsh Government, have from time to time provided funds for investment purposes. Some of this Welsh Government funding was originally made as Public Dividend Capital (PDC) whilst the remainder is classified as Grant in Aid or Core Funding for Investment purposes. The funding is to invest in the long-term sustainability of Development Bank of Wales, and within the Welsh Government's own accounting arrangements, the funds are regarded as being an investment.

During the year it was agreed that £nil (2020 - nil) of Public Equity would be repaid to the Welsh Government.

**Grant income**

A portion of grant income received each year to fund operational and administrative costs is treated as other income and recognised in the profit and loss account in the period in which the expenditure was incurred. Grant income received in excess of operational and administrative costs is treated as public equity as described within the "public equity" accounting policy noted above.

**2. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY**

In the application of the Company's accounting policies, which are described in Note 1, the directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

## NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 March 2022

2. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION  
UNCERTAINTY (continued)**Critical judgements in applying the Company's accounting policies**

The following is the critical judgement, that the directors have made in the process of applying the Company's accounting policies and that has the most significant effect on the amounts recognised in the financial statements.

**Deferred tax**

A deferred tax asset has not been recognised on the basis that there is insufficient certainty over the evidence of the recovery of these tax losses in future.

If deferred tax assets were recognised in full this would amount to an asset of £1,459,412 (2021: £1,111,690) being recognised before any potential liabilities are taken into account.

**Key sources of estimation uncertainty**

The key assumptions concerning the future, and other key sources of estimation uncertainty at the balance sheet date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

**Fair value measurement and valuation process**

In estimating the fair value of a financial asset or liability, the Company uses market-observable data to the extent that it is available. Where such level 1 inputs are not available the Company uses valuation models including discounted cash flow analysis and valuation models to determine the fair value of its financial instruments. The valuation techniques for level 3 financial instruments involve management assessment and estimates, the extent of which depends on the complexity of the instrument.

Where relevant, multiple valuation approaches may be used in arriving at an estimate of fair value for an individual asset. Such inputs are typically portfolio-company specific and therefore cannot be aggregated for the purposes of portfolio-level sensitivity analysis.

Further details of the Company's level 3 financial instruments and the valuation techniques used are set out in Note 10.

## 3. OPERATING PROFIT

	2022	2021
	£	£
Operating profit has been arrived at after crediting:		
Impairment of loans	13,354	1,622

**Auditor's remuneration**

	2022	2021
	£	£
Fees payable to the Company's auditor for the audit of the Company's financial statements	6,547	6,547
Tax compliance	-	2,841

## 4. INFORMATION REGARDING DIRECTORS AND EMPLOYEES

None of the directors received any emoluments from the Company in the current or prior financial year. It is not practicable to allocate their remuneration between their services as directors of this Company and other Group companies. Further details of directors' remuneration are presented in the financial statements of Development Bank of Wales plc and DBW FM Limited.

The directors were the only employees of the Company during the current and prior financial year.

# DBW INVESTMENTS (4) LIMITED

## NOTES TO THE FINANCIAL STATEMENTS For the year ended 31 March 2022

### 5. OTHER OPERATING INCOME

	2022 £	2021 £
Other operating income:		
- Grant income	9,389	3,486

### 6. INTEREST RECEIVABLE AND SIMILAR INCOME

	2022 £	2021 £
Interest receivable:		
- Bank deposits	24	24

### 7. TAX

	2022 £	2021 £
<b>Current taxation</b>		
UK corporation tax charge for the year	-	-

The charge for the year can be reconciled to the (loss) in the profit and loss account as follows:

	£	£
Profit/(Loss) before tax	13,354	(4,286)
Tax on profit/(loss) at standard UK corporation tax rate of 19% (2021: 19%)	2,537	(814)
<b>Effects of:</b>		
Effects of Group relief/other reliefs	-	814
Amounts not recognised	(2,537)	-
<b>Total taxation charge</b>	-	-

A net deferred tax asset of £1,459,412 (2021: £1,111,690) has not been recognised in respect of loan relationships and unused tax losses.

The main rate of corporation tax is 19%. From 1 April 2023 the main rate of corporation tax will be 25% and this rate has been used to calculate deferred tax in these financial statements.

### 8. TRADE AND OTHER RECEIVABLES

	2022 £	2021 £
<b>Trade and other receivables</b>		
<b>Current assets</b>		
Other debtors	5	-
Amounts owed by parent company	12,875	3,486
	12,880	3,486

The directors consider that the carrying amount of trade and other receivables approximates their fair value. Amounts owed by parent company are at nil interest and repayable within one year.

**NOTES TO THE FINANCIAL STATEMENTS****For the year ended 31 March 2022****9. FINANCIAL LIABILITIES**

	2022 £	2021 £
<b>Trade and other payables</b>		
<b>Current liabilities</b>		
Accruals	9,388	9,305
	<u>9,388</u>	<u>9,305</u>

The Company's financial liabilities are carried at amortised cost. The directors consider that the carrying amount of trade creditors approximates their fair value.

**10. FINANCIAL INSTRUMENTS****Significant accounting policies**

Details of the significant accounting policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised, in respect of each class of financial asset, financial liability and equity instrument are disclosed in Note 1 to the financial statements.

**Capital risk management**

The capital structure of the Company consists of cash and cash equivalents and equity, comprising issued capital, public equity, reserves and retained earnings as disclosed in the statement of changes in equity.

**Categories of financial instruments**

The Company's financial instruments comprise investments in SMEs in the form of either loans or equity and trade receivables and payables arising from its operations.

The accounting policy note describes how the classes of financial instrument are measured, and how income and expenses, including fair value gains and losses, are recognised. The following table analyses the financial assets and liabilities in the balance sheet by class of financial instrument to which they are assigned and by the measurement basis.

Carrying value as at 31 March 2022 £	Note	Financial assets and liabilities at amortised cost	Financial assets and liabilities at FVTPL	Total
<b>Assets</b>				
Cash and cash equivalents		141,847	-	141,847
Other receivables	i	12,880	-	12,880
<b>Total financial assets</b>		<u>154,727</u>	-	154,727
Non-financial assets				-
<b>Total assets</b>				<u>154,727</u>
<b>Liabilities</b>				
Trade and other payables	ii	9,388	-	9,388
<b>Total financial liabilities</b>		<u>9,388</u>	-	9,388
Reserves				145,339
<b>Total reserves and liabilities</b>				<u>154,727</u>

**NOTES TO THE FINANCIAL STATEMENTS**  
**For the year ended 31 March 2022**

**10. FINANCIAL INSTRUMENTS (continued)**

Carrying value as at 31 March 2021 £	Note	Financial assets and liabilities at amortised cost	Financial assets and liabilities at FVTPL	Total
<b>Assets</b>				
Cash and cash equivalents		137,887	-	137,887
Other receivables	i	3,486	-	3,486
<b>Total financial assets</b>		<u>141,373</u>	<u>-</u>	<u>141,373</u>
Non-financial assets				-
<b>Total assets</b>				<u>141,373</u>
<b>Liabilities</b>				
Trade and other payables	ii	9,388	-	9,388
<b>Total financial liabilities</b>		<u>9,388</u>	<u>-</u>	<u>9,388</u>
Reserves				131,985
<b>Total reserves and liabilities</b>				<u>141,373</u>

The carrying value of the Company's financial instruments is considered to approximate fair value and hence a separate disclosure of carrying value versus fair value is not presented.

The following methods and assumptions have been applied in determining fair values.

- i) Other receivables are measured using an amortised cost basis and calculated using the effective interest rate method in accordance with IFRS 9.
- ii) The fair value of amounts owed to our parent, other third parties, share capital and public equity are assumed to approximate to their carrying amount at the balance sheet date.

The Company hierarchy for measuring at fair value disclosures is as follows:

Level	Hierarchy for fair value disclosures
1.	Quoted prices (unadjusted) in active markets for identical assets or liabilities.
2.	Inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly or indirectly.
3.	Inputs for the asset or liability that are not based on observable market data. For investments in non-quoted securities, the observable inputs are derived from recent transactional events, where these are considered reliable. These methods include using a recent valuation of the business for a funding round or using a recent offer from a prospective purchaser.

**Reconciliation of level 3 measurements of financial assets**

	2022 £	2021 £
Balance 1 April	-	-
Revaluations	-	1,622
Receipts	-	(1,622)
	<u>-</u>	<u>-</u>
Balance 31 March	<u>-</u>	<u>-</u>

**Market risk**

The Company's activities expose it primarily to the financial risks of changes in credit risks.

**NOTES TO THE FINANCIAL STATEMENTS**  
**For the year ended 31 March 2022**

**10. FINANCIAL INSTRUMENTS (continued)**

**Liquidity risk management**

Ultimate responsibility for liquidity risk management rests with the Board of Directors, which has built an appropriate liquidity risk management framework for the management of the Company's short, medium and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves and banking facilities by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

**11. CALLED UP SHARE CAPITAL**

	2022 £	2021 £
<b>Authorised and allotted</b>		
1,000 ordinary shares of £1 each	1,000	1,000
	<hr/>	<hr/>
<b>Allotted, called up and fully paid</b>		
1 ordinary share of £1	1	1
	<hr/>	<hr/>

The Company has one class of ordinary shares which carry no rights to fixed income.

**12. ULTIMATE PARENT COMPANY AND CONTROLLING PARTY**

The Company's immediate parent undertaking is DBW Holdings Limited, a company incorporated in the United Kingdom. Development Bank of Wales plc is the smallest group within which the Company is a member, and for which consolidated financial statements are prepared. Welsh Ministers is the largest group within which the Group results are consolidated. The registered office address of Development Bank of Wales plc is Unit J, Yale Business Village, Ellice Way, Wrexham, LL13 7YL. Copies of the Group financial statements of Development Bank of Wales plc are available from Companies House, Crown Way, Maindy, Cardiff CF14 3UZ. The consolidated financial statements of Welsh Ministers may be obtained from its registered address, Cathays Park, Cardiff, CF10 3NQ.

Development Bank of Wales plc regards the Welsh Ministers, acting through the Welsh Government, as the ultimate parent company and ultimate controlling party.
