## **DELTA PACIFIC MINING PLC**

### **DIRECTORS' REPORT FOR THE YEAR ENDED 31 DECEMBER 2011**

The directors present their report and financial statements for the year ended 31 December 2011

#### **Principal activities and review of the business**

The principal activity of the group is seeking to target the high grade thermal / low grade metallurgical coal, 25km south of the Phulbari deposit in Bangladesh

#### **Overview of 2011**

The company was incorporated on 25 May 2005 with the aim of becoming a player in coal exploration and mining in Bangladesh. In 2005 an application for an exploration licence was submitted in the name of the company and its joint venture partner, North Bengal Mining Co. Ltd ("North Bengal") with the Bureau of Mineral Development for an exploration licence over prospective coal properties in Northern Bangladesh.

In 2008 Bangladesh went through a period of political turmoil. The company's aim during this period was to limit expenditure while keeping its licence applications active during the upheaval. Power was peacefully transferred to a civilian government with a strong parliamentary majority following general elections in December 2008, thereby ending the military-controlled caretaker government which had been in power since January 2007. The Government of the People's Republic of Bangladesh has made the completion of the country's coal policy and the issuing of coal licences a matter of high priority due to the country's urgent need to provide energy and electricity to its developing economy.

The national coal policy is currently pending in a parliamentary committee, though it has been reported that early indications suggest that the practice of open-pit coal mining will be permitted. The national coal policy also favours engaging strategic partners or joint ventures for discovery and development of coalfields. With this in mind, the company has been in contact with an existing coal operating company in Canada.

North Bengal (the company's joint venture partner) has confirmed that the exploration licence applications submitted in the name of the company and North Bengal have not been removed or cancelled, and may be capable of being revived.

The Directors are looking at all possibilities in reviving both the company and the exploration licence applications.

#### **Risks and Uncertainties**

Delta Pacific Mining Plc is a small prospecting group and accordingly, is subject to a number of risks and uncertainties, any of which could have a material effect on its business operations or future performance, including but not limited to: permitting risks, reliance on capital markets in order to meet its funding requirements both to continue as a going concern as well as to raise the significant amounts of capital required to develop the various projects, commodity price and capital market volatility, possible challenges to the title to its properties, exploration and exploitation risks, country risks, uninsurable risks, environmental risks, changes in the legal or political environment in which it operates, currency fluctuations and dilution.

#### **Results and dividends**

The results for the year are set out on page 4.

The directors do not recommend payment of a dividend.

#### **Directors**

The directors who served during the year were as follows:

C. J. Reynolds  
D. L. Thomas  
L. R. Reynolds

## DELTA PACIFIC MINING PLC

### DIRECTORS' REPORT FOR THE YEAR ENDED 31 DECEMBER 2011 (continued)

#### Creditor payment policy

The company's current policy concerning the payment of trade creditors is to

- settle the terms of payment with suppliers when agreeing the terms of each,
- ensure that suppliers are made aware of the terms of payment by inclusion of the relevant terms in contracts,
- pay in accordance with the company's contractual and other legal obligations

On average, most of the trade creditors were outstanding for 90 days

#### Auditors

Critchleys LLP, having expressed their willingness to continue in office, will be deemed reappointed for the next financial year in accordance with section 487(2) of the Companies Act 2006 unless the company receives notice under section 488(1) of the Companies Act 2006

#### Directors' responsibilities

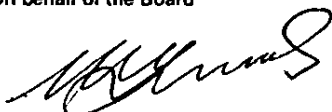

The directors are responsible for preparing the Directors' Report and the financial statements in accordance with applicable law and regulations

Company law requires the directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with International Reporting Standards as adopted for use in the European Union. Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements the directors are required to

- select suitable accounting policies and then apply them consistently,
- make judgments and estimates that are reasonable and prudent,
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the company and to prevent and detect fraud and other irregularities.

On behalf of the Board

L R Reynolds  
Director

21/6/12

## **Report of the independent auditor to the members of Delta Pacific Mining Plc**

We have audited the financial statements of Delta Pacific Mining Plc for the year ended 31 December 2011 which comprise the Income Statement, the Balance Sheet, the Statement of Changes in Equity, the Cash Flow Statement and the related notes. The financial framework that has been applied in the preparation of the financial statements is applicable law and International Financial Reporting Standards (IFRSs) as adopted by the European Union.

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

### **Respective responsibilities of directors and auditors**

As explained more fully in the Directors' Responsibilities Statement on page 2 the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view.

Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

### **Scope of the audit of the financial statements**

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of whether the accounting policies are appropriate to the company's circumstances and have been consistently applied and adequately disclosed, the reasonableness of significant accounting estimates made by the directors, and the overall presentation of the financial statements.

### **Opinion on financial statements**

In our opinion:

- the financial statements give a true and fair view of the state of the company's affairs as at 31 December 2011 and of its loss for year then ended
- the financial statements have been properly prepared in accordance with IFRSs as adopted by the European Union, and
- the financial statements have been prepared in accordance with the requirements of the Companies Act 2006

### **Opinion on other matter prescribed by the Companies Act 2006**

In our opinion the information given in the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements.

### **Matters on which we are required to report by exception**

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records or returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we required for our audit.

  
Gayome Webster (Senior Statutory Auditor)

**DELTA PACIFIC MINING PLC**  
**NOTES TO THE FINANCIAL STATEMENTS**

**1 Accounting policies**

The Company is a public limited company incorporated and domiciled in England

**a) Statement of compliance**

The financial statements have been prepared in accordance with IFRSs as adopted by the European Union

The accounting policies set out below have been applied consistently to all periods presented in these Group financial statements

**c) Basis of preparation of financial statements**

The financial statements are presented in Sterling and have been prepared on the historical cost basis

In common with many exploration companies, the Company raises finance for its exploration and appraisal activities in discrete tranches. Further funding is raised as and when required. When any of the Company's projects move to the development stage, specific financing will be required. The Directors are of the opinion that the Company has sufficient cash to fund its future activities for at least the next twelve months

The financial statements have been prepared in accordance with International Financial Reporting Standards as adopted for use in the European Union including standards and interpretations issued by the International Accounting Standards Board. They have been prepared using the historical cost convention except that as disclosed in the accounting policies below certain items, including investment properties, derivatives, held for trading investments and available-for-sale investments, are shown at fair value

The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities at the date of the financial statements. If in the future such estimates and assumptions which are based on management's best judgement at the date of the financial statements, deviate from the actual circumstances, the original estimates and assumptions will be modified as appropriate in the year in which the circumstances change. Where necessary, the comparatives have been reclassified or extended from the previously reported results to take into account presentational changes

**d) Property, plant and equipment**

Items of property, plant and equipment are stated at cost less accumulated depreciation. Depreciation is charged to the income statement on a straight-line basis over the estimated useful lives of each item of property, plant and equipment. The estimated useful life of the assets is three years

**e) Deferred exploration costs**

All costs incurred prior to obtaining the legal right to undertake exploration and evaluation activities on a project are written off as incurred. Once such a legal right has been obtained exploration and evaluation costs are capitalised on a project-by-project basis, pending determination of the technical feasibility and commercial viability of the project

Costs incurred include appropriate technical and administrative overheads. Deferred exploration costs are carried at historical cost less any impairment losses recognised

If an exploration project is successful, the related expenditures will be transferred to mining assets and amortised over the estimated life of the ore reserves on a unit of production basis

The recoverability of deferred exploration and evaluation costs is dependent upon the discovery of economically recoverable mineral reserves, the ability of the company to obtain the necessary financing to complete the development of mineral reserves and future profitable production or proceeds from the disposal thereof

**f) Trade and other receivables**

Trade and other receivables are not interest bearing and are recognized at fair value, which is considered to be the lower of original invoice amount and recoverable amount. A provision for impairment of trade receivables is established when there is objective evidence that the Company will not be able to collect all amounts due according to the original terms of the receivable. Balances are written off when the probability of recovery is assessed as being remote

**g) Cash and cash equivalents**

Cash and cash equivalents represent current account balances and deposits held at call with banks

**DELTA PACIFIC MINING PLC**  
**NOTES TO THE FINANCIAL STATEMENTS**

**1 Accounting policies (continued)**

**h) Impairment**

Whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable an asset is reviewed for impairment. An asset's carrying value is written down to its estimated recoverable amount (being the higher of the fair value less costs to sell and value in use) if that is less than the asset's carrying amount. Impairment reviews for deferred exploration and evaluation costs are carried out on a project by project basis with each project representing a potential single cash generating unit. An impairment review is undertaken when indicators of impairment arise, typically when one of the following circumstances applies -

- i) unexpected geological occurrences that render the resource uneconomic
- ii) title to the asset is compromised
- iii) variations in metal prices that render the project uneconomic, and
- iv) variations in the currency of operation

**i) Revenue**

Revenue is measured by reference to the fair value of consideration received or receivable by the company for services provided to related parties excluding VAT and trade discounts. Revenue is recognised upon the performance of services.

**j) Foreign Exchange**

The Company's functional and presentational currency is UK pounds sterling.

Transactions in foreign currencies are translated at the rates of exchange ruling at the balance sheet date, and any differences arising are transferred to the income statement.

**k) Joint Venture**

The Company has entered into a joint venture with a third party. Under the terms of the joint venture, the company bears all the costs until such time as the venture makes profits. Accordingly the company has expensed all costs and accrued all liabilities as if it had incurred the costs itself.

**l) Share capital**

The Company's ordinary shares and amounts received in respect of shares to be issued at a future date are classified as equity.

**m) Trade and other payables**

Trade and other payables are initially measured at fair value, and are subsequently measured at amortised cost using the effective interest rate method.

**n) Operating lease payments**

Payments made under operating leases are recognised on a straight-line basis over the term of the lease.

**o) Judgements and estimates**

Judgements and estimates are regularly evaluated based on historical experience, current circumstances and expectations of future events. The critical judgements and estimates made in the preparation of the financial statements are set out below and were made in accordance with the appropriate IFRS and the Company's accounting policies. The resulting accounting estimate may not equal the actual result.

- a) The determination of the future value of the subsidiary is based on their future earnings potential. The basis of such value cannot be precise and is subject to market variations.

**p) Financial assets**

The Company does not have any assets that are classified as available-for-sale, held-to-maturity or fair value through profit and loss. Financial assets carried on the balance sheet include cash and cash equivalents and other receivables and prepayments and trade and other payables. The particular recognition methods adopted are disclosed in the individual policy statements associated with each item.

**q) Financial liabilities**

Financial liabilities are obligations to pay cash or other financial assets and are recognised when the group becomes a party to the contractual provisions of the instrument. Financial liabilities categorised as at fair value through profit and loss are recorded initially at fair value, and all transaction costs are recognised immediately in the income statement. All other financial liabilities are recorded initially at fair value net of direct issue costs. The Company's financial liabilities include trade and other payables only.

**r) Taxation**

The charge for taxation is based on the profit or loss for the year and takes into account deferred tax. Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit or loss and is accounted for using the balance sheet method. Deferred tax assets are only recognised to the extent that it is probable that future taxable profit will be available in the foreseeable future against which the temporary differences can be utilised.

**2 Loss on operations before tax**

Loss on ordinary activities is stated after charging

	Year ended 31 December 2011 £	Year ended 31 December 2010 £
Fees payable to the company's auditor for the audit of the company's accounts	1,750	2,850
Depreciation	-	-

**DELTA PACIFIC MINING PLC**  
**NOTES TO THE FINANCIAL STATEMENTS**

**3 Finance Income**

	Year ended 31 December 2011 £	Year ended 31 December 2010 £
Interest income	-	6

**4 Tax on loss on ordinary activities**

**Factors affecting the tax charge for the current period**

The tax credit for the period is lower than the credit resulting from the loss before tax at the standard rate of corporation tax in the UK - 20% (2010 21%)  
The differences are explained below

	Year ended 31 December 2011 £	Year ended 31 December 2010 £
<b>Tax reconciliation</b>		
Loss on ordinary activities before tax	(1,303)	(2,587)
Tax at 20% (2010 21%)	(261)	(648)
<b>Effects (at 20%) of</b>		
Expenses not deductible for tax purposes	-	-
Depreciation (add back)	-	-
Capital Allowances	-	-
Tax losses carried forward	261	648
	-	-

The company has estimated losses of £770 000 (2010 £770,000) available for carrying forward against future trading profit

A deferred tax asset has not been recognised in respect of these losses as the group does not anticipate taxable profits to arise within the immediate future. In time, it is anticipated that the company will be profitable and that losses will gradually be recovered as the business moves into profit. The estimated value of the deferred tax asset not recognised measured at a rate of 20% (2010 21%) is £ 154,000 (2010 £162 000)

**DELTA PACIFIC MINING PLC**

Accruals and deferred income	1 750	2,850
	<u>46,488</u>	<u>45 408</u>

**9 Financial instruments**

The Board of directors determines as required, the degree to which it is appropriate to use financial instruments to mitigate risks. The main risks for which such instruments may be appropriate are interest rate risk, foreign currency risk, liquidity risk and commodity risk. The Company has no borrowings. The Company's principal financial instruments are cash which is invested with major banks. All of the Company's financial assets and liabilities are classified as loans and receivables and are at fair value.

**Interest rate risk**

Surplus funds are invested at floating rates of interest. The benefit of fixing rates is kept under review having regard to forecast cash requirements and the levels of return available.

**Foreign currency risk**

The Company has potential transactional currency exposure in respect of items denominated in foreign currencies relating to the Company's administration in the UK.

The Company holds its cash balances in British Pounds to the extent considered appropriate to minimise the effect of adverse exchange rate fluctuations.

**Liquidity risk**

The Company raises funds as required on the basis of forecast expenditure and inflows over the next twelve months. When necessary the scope and rate of activity is adjusted to take account of the funds available.

**Commodity risk**

The Company is exposed to movements in the price of metals, which may affect the viability of a project.

**Fair values**

The fair values reflect the carrying amounts shown in the balance sheet.

**11 Share capital management**

The Company relies on raising share capital to fund its operations. It raises share capital for its exploration and appraisal in discrete tranches. Further funding is raised as and when required. When any of the Company's projects move to the development stage, specific financing will be required.

**DELTA PACIFIC MINING PLC**  
**NOTES TO THE FINANCIAL STATEMENTS**

**13 Related party transactions**

The company contracted with Mining House Limited for the provision of office premises and facilities, a company of which C J Reynolds and L R Reynolds were directors during the year. The company was charged a management fee of £nil (2010 - £nil) and was recharged expenses of £ Nil (2010 - £Nil) by Mining House Limited during the year. At 31 December 2011 the company owed £1,860 (2010 - £1,860) to Mining House Limited. An additional £5,117 interest free loan was provided to the company during the year. The balance owing at the year end was £7,817 (2010 - £2,700).

At the year end the following balances were owing to related parties

C J Reynolds	£3,799 (2010 - £3,799)
L R Reynolds	£2,935 (2010 - £2,935)
Thomas Mining Associates	£11,750 (2010 - £11,750)

Thomas Mining Associates is a related party by virtue of a common director (D Thomas)

**14 Joint Venture**

On 27 June 2006 the company entered into a joint venture agreement with a company incorporated in Bangladesh to locate, explore, acquire and develop coal and other mineral rights in an area in Bangladesh. The parties are currently in the licensing phase of operations and has incurred expenses in the current year totalling £nil (2010 - £nil). Delta Pacific Mining plc is responsible for all of the expenses and is entitled to half of the asset relating to the jointly controlled operations.
