Other accounting policies

Work in progress are valued at the lower of cost and net realisable value, after due regard for obsolete and slow moving stocks. Net realisable value is based on the selling price less anticipated costs to completion and selling costs. Cost includes all direct costs and an appropriate proportion of fixed and variable overheads.

Deferred tax is recognised in respect of all timing differences that have originated but not yet reversed at the balance sheet date.

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities. Where shares are issued, any component that creates a financial liability of the company is presented as a liability in the balance sheet. The corresponding dividends relating to the liability component are charged as interest expense in the profit and loss account.
