NOTES TO THE FINANCIAL STATEMENTS
for the year ended 31 December 2018

1. STATUTORY INFORMATION

Ziv Holding and Investments Limited is a private company, limited by shares, registered in England and Wales. The company's registered number and registered office address can be found on the Company Information page.

2. ACCOUNTING POLICIES

Basis of preparing the financial statements

These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" including the provisions of Section 1A "Small Entities" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

Turnover

Turnover represents net receivable rental income and is measured as the fair value of the consideration received or receivable, excluding value added tax.

Tangible fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation. Cost includes the original purchase price and costs directly attributable to bringing the asset to its working condition for intended use.

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Freehold property - 2% on cost

Long leasehold - 2% on cost

Depreciation has not been provided for on freehold or leasehold land.

On disposal, the difference between net proceeds and the carrying amount of item sold is recognised in the profit and loss account and is included in administrative expenses.

Taxation

Current tax is the amount of corporation tax payable in respect of taxable profit for the year or prior years. Tax is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the year end.

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. Timing differences are differences between the company's taxable profits and its results as stated in the financial statements.

Deferred tax is measured at the average tax rates that are expected to apply in the periods in which timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantially enacted by the balance sheet date. Deferred tax is measured on a non-discounted basis.

2. ACCOUNTING POLICIES - continued

Foreign currencies

Transactions denominated in foreign currencies are recorded in the local currency at actual exchange rates as at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are reported at the rates of exchange prevailing at that date (or, where appropriate, at the date of exchange in a related forward exchange contract). Any gain or loss arising from a change in exchange rates subsequent to the date of the transaction is included as an exchange gain or loss in the profit and loss account.

Financial instruments

Financial instruments are classified by the directors as basic or non-basic following the conditions in FRS 102 Section 11. Basic financial instruments are initially measured at transaction price and subsequently recognised at amortised cost using the effective interest method. The company does not have an financial non-basic instruments.
