Notes to the abbreviated financial statements for the year ended 31 August 2010

1. Accounting policies

1.1. Accounting convention

The accounts are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

1.2. Turnover

*

Turnover represents the total invoice value, excluding value added tax, of sales made during the year

1.3. Tangible fixed assets and depreciation

Depreciation is provided at rates calculated to write off the cost less residual value of each asset over its expected useful life, as follows

Fixtures, fittings

and equipment

25% reducing balance basis

Motor vehicles

25% reducing balance basis

1.4. Leasing and hire purchase commitments

Assets obtained under hire purchase contracts and finance leases are capitalised as tangible assets and depreciated over the shorter of the lease term and their useful lives. Obligations under such agreements are included in creditors net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the profit and loss account so as to produce constant periodic rates of charge on the net obligations outstanding in each period.

1.5. Stock

Stock is valued at the lower of cost and net realisable value

1.6. Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more, tax

Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date

1.7. Going concern

The accounts have been prepared on the assumption that the company is able to carry on business as a going concern, which the directors consider appropriate having regard to the circumstances outlined in Note 6 to the accounts

5. Transactions with directors

Included in creditors is the amount of £25,381 owed to the director David Cooper, and £42 owed to the director Lee Rushworth

6. Future trading and the current economic environment

The company has financial resources together with contracts with a number of customers and suppliers As a consequence, the directors believe that the company is well placed to manage its business risks successfully despite the current uncertain economic outlook

The directors have a reasonable expectation that the company has adequate funds to continue in operational existence for a period of twelve months from the date of signing the financial statements. Thus they continue to adopt the going concern basis of accounting in preparing the annual financial statements.
