NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2012

1 Accounting policies

The financial statements have been prepared under the historical cost convention, and are in accordance with applicable accounting standards

The following principal accounting policies have been applied

a) Basis of preparation

The directors have prepared the accounts on the going concern basis. The profit and loss account has been prepared on the basis that all operations were discontinued from 1 June 2011 and that the operations of the company were transferred to Westminster Bridge Hotel Operator Limited as of this date.

b) Turnover

Turnover represents the amounts invoiced, excluding value added tax, in respect of the sale of goods and related services to customers All of the turnover is derived from UK operations

c) Tangible fixed assets

Tangible fixed assets are stated at cost less depreciation

Depreciation is calculated so as to write off the cost of an asset, net of anticipated disposal proceeds, over its useful economic life of that asset, as follows

Fixtures, fittings and equipment 7 years, straight line Plant and machinery 15 years, straight line Electronics 3 years, straight line

d) Deferred taxation

Deferred tax is provided in full on timing differences which result in an obligation at the balance sheet date to pay more tax, or a right to pay less tax, at a future date, at rates expected to apply when they crystallise based on current tax rates and law. Timing differences arise from the inclusion of items of income and expenditure in taxation computations in periods different from those in which they are included in the financial statements. Deferred tax is not provided on the revaluation of fixed assets. Deferred tax assets are recognised to the extent that it is regarded as more likely than not that they will be recovered. Deferred tax assets and liabilities are not discounted.

e) Foreign currencies

Transactions denominated in foreign currencies are recorded in sterling at the exchange rate as at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the year end are reported at the rates of exchange prevailing at the year end. Any gain or loss arising from a change in exchange rates subsequent to the date of the transaction is reported in the profit and loss account.
