Abbreviated balance sheet (continued)

**Directors' statements required by Sections 475(2) and (3)
for the year ended 31 August 2013**

For the year ended 31 August 2013 the company was entitled to exemption from audit under section 477 of the Companies Act 2006 relating to small companies.

Directors' responsibilities:

- The members have not required the company to obtain an audit of its accounts for the year in question in accordance with section 476; and
- The directors acknowledge their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of accounts.

These abbreviated accounts have been prepared in accordance with the special provisions of Part 15 of the Companies Act 2006 relating to small companies .

These accounts were approved by the directors on 30/5/14 and are signed on their behalf by:

**A Dennis

The notes on pages 3 to 5 form an integral part of these financial statements.

**Notes to the abbreviated financial statements
for the year ended 31 August 2013**

1. Accounting policies

1.1. Accounting convention

The accounts are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

1.2. Turnover

Turnover represents amounts receivable for goods and services net of VAT and trade discounts.

1.3. Tangible fixed assets and depreciation

Depreciation is provided at rates calculated to write off the cost less residual value of each asset over its expected useful life, as follows:

Leasehold properties	-	Straight line over the life of the lease
Plant and machinery	-	15-33% straight line
Fixtures, fittings and equipment	-	15% straight line

1.4. Leasing

Rentals payable under operating leases are charged against income on a straight line basis over the lease term.

1.5. Stock

Stock is valued at the lower of cost and net realisable value.

1.6. Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more, tax, with the following exceptions:

Provision is made for tax on gains arising from the revaluation (and similar fair value adjustments) of fixed assets, and gains on disposal of fixed assets that have been rolled over into replacement assets, only to the extent that, at the balance sheet date, there is a binding agreement to dispose of the assets concerned. However, no provision is made where, on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacement assets are sold;

Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

4. Going concern

The company has net liabilities of £8,325 at the year end. The working capital is provided by trade creditors together with directors loans and bank loans and overdrafts.

The directors have also provided assurances to the company that such additional funding as may be required to meet normal working capital requirements within the 12 months from the date of approval of these financial statements will be made available and that they will not withdraw their loan account balances in such a way as to detract from the company's ability to meet its other creditors and liabilities.

On this basis the directors consider it appropriate to prepare the financial statements on the going concern basis. Should this prove to be inappropriate the accounts would require adjustments to be made to reduce the value of the assets to their recoverable amount, to provide any further liabilities which might arise and to reclassify fixed assets as current assets.
