#### TRUSTEES' ANNUAL REPORT (continued)

#### **Grant-making Policies**

The Trustees allocate the grants to the supported projects in line with the objects of the Charity and the effectiveness of the projects in delivering these objects

#### Achievements and Performance for the public benefit

The Trustees are satisfied that good progress has been made in researching the best way to take the Charity forward

The Trustees have raised funds in support of a project for young people in Central Asia who live on the streets. Many of them will have lived in orphanages, where they will have received minimal education and learned few social skills. If they have not run away when somewhat younger, they will have often been forced to leave their orphanages at age eighteen. They then find themselves completely unprepared for life outside the orphanage, most often living on the streets and turning to crime and prostitution in a desperate attempt at survival. They are highly vulnerable to abuse of all kinds and most often become dependent on illegal substances. Shockingly, they have a life expectancy of around 25 years.

For this project, the Charity is working with a partner which is an international organisation with a proven history in rehabilitation work for a number of decades. They work with drug addicted males, taking them through a 12-step program to remove their addiction and then through to more responsible work on their farm located on the outskirts of the city. The children and young people the Charity will work with, will undergo a comprehensive programme of detoxification and training in life and potential employment skills, in an environment of committed care

The Charity provided in 2007 funds for the purchase of a tractor, which is now being used for farming rehabilitation training and rented to local farmers, generating income for the project and benefiting and helping the economy of the entire community

#### Financial Review

#### **Income Generation**

The Charity's income for the period was £372 (2009 - £240)

#### Reserves

The Charity is in the early stages of its development and the aim is to maintain two months' funds. It is considered that the fund reserves at the year-end were adequate but not excessive.

#### Risk Assessment

The major risks to which the Charity has been exposed, as identified by the Trustees, have been reviewed and systems have been established to mitigate those risks

## TRUSTEES' ANNUAL REPORT (continued)

#### Plans for the Future

The Charity's aim is to provide Transition Homes in countries in the developing world. These will serve as a refuge where the orphans and street children can live, work and learn the skills needed to move onto an independent and fulfilling life. It will receive children and young adults aged 16 to 22 years, where there is no provision for such young people. The first Transition Home is being developed in a Central Asian country.

The Charity aims to promote its work by making and strengthening links with Colleges and Churches

The Report was approved by the Trustees on 28 September, 2011
