For the year ending 31 August 2013 the company was entitled to exemption under section 477 of the Companies Act 2006 relating to small companies

The members have not required the company to obtain an audit in accordance with section 476 of the Companies Act 2006

The directors acknowledge their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of accounts

These accounts have been prepared in accordance with the provisions applicable to companies subject to the small companies regime

Approved by the Board on 22 January 2014 and signed on its behalf by

Mr C Willis

The notes on pages 3 to 5 form an integral part of these financial statements Page 2

Notes to the Abbreviated Accounts for the Year Ended 31 August 2013

1 Accounting policies

Basis of preparation

The full financial statements, from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

Going concern

The company provides funding for its wholly owned subsidiary Medalytix Ltd (together referred to as the Group) For the purposes of assessing the basis of preparation of these financial statements the directors have considered the group as a whole as this better reflects this overall position. The company has committed to provide financial support to Medalytix Ltd as required.

The Group reached an advanced phase of product commercialisation and sub licenced its lead product during the year in advance of generating significant revenues. Accordingly, during the year ended 31st August 2013, the Group generated profit (with no tax liability) of £67,442 resulting in a final cash balance of £182,282. During the year ended 31st August 2012 the company incurred after tax losses of £133,458 and had a final cash balance of £46,053.

The directors have prepared detailed cash flow forecasts for the next 12 months which show that the Group will have adequate cash to meet its requirements during the forecast period. These forecasts reflect the significant reductions in costs that the directors have delivered and do not assume cash receipts from royalty income on third party sales that have not yet been secured as the directors recognise that there is a risk that the forecast sales may be delayed or not take place

Turnover

Turnover represents amounts chargeable, net of value added tax, in respect of the sale of goods and services to customers

Government grants

Grants are credited to the profit and loss account so as to match them with the expenditure to which they relate and only when the conditions of receipt have been complied with and there is reasonable assurance the grant will be received

Amortisation

Amortisation is provided on intangible fixed assets so as to write off the cost, less any estimated residual value, over their expected useful economic life as follows

Asset class

Amortisation method and rate

Intangible Assets

10% straight line

Depreciation

Depreciation is provided on tangible fixed assets so as to write off the cost or valuation, less any estimated residual value, over their expected useful economic life as follows

Asset class

Depreciation method and rate now fully depreciated

Computer equipment Software Development

33 3% reducing balance

Notes to the Abbreviated Accounts for the Year Ended 31 August 2013

..... continued

Research and development

Development expenditure incurred on an individual project is carried forward when its future recoverability can reasonably be regarded as assured. Any expenditure carried forward is amortised in line with the expected future sales from the related project.

Fixed asset investments

Fixed asset investments are stated at historical cost less provision for any diminution in value

Financial instruments

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities. Where shares are issued, any component that creates a financial liability of the company is presented as a liability in the balance sheet. The corresponding dividends relating to the liability component are charged as interest expense in the profit and loss account.
