The director acknowledges her responsibilities for:

- (a) ensuring that the company keeps accounting records which comply with Sections 386 and 387 of the Companies Act 2006 and
  - preparing financial statements which give a true and fair view of the state of affairs of the company as at the end of each financial year and of its profit or loss for each financial year in accordance with the requirements of
- Sections 394 and 395 and which otherwise comply with the requirements of the Companies Act 2006 relating to financial statements, so far as applicable to the company.

The financial statements have been prepared and delivered in accordance with the provisions of Part 15 of the Companies Act 2006 relating to small companies.

In accordance with Section 444 of the Companies Act 2006, the Profit and loss account has not been delivered.

The financial statements were approved by the director on 15 August 2019 and were signed by:

S Cook - Director

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 OCTOBER 2018

#### 1. STATUTORY INFORMATION

Allies Design Limited is a private company, limited by shares, registered in England and Wales. The company's registered number and registered office address can be found on the Company Information page.

#### 2. ACCOUNTING POLICIES

#### Basis of preparing the financial statements

These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" including the provisions of Section 1A "Small Entities" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

#### Going concern

The company meets its day-to-day working capital requirements through its bank facility. After making enquiries, the director has a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future; taken to be at least 12 months from the date of approval of the financial statements. The company therefore continues to adopt the going concern basis in preparing its financial statements.

#### Turnover

Turnover comprises the rendering of services in the ordinary course of the company's activity. Turnover is presented net of value-added tax. The company recognises turnover when the amount of revenue and related costs can be reliably measured, it is probable that the collectability of the related receivables is reasonably assured.

#### Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Plant and machinery etc - 25% on reducing balance and 20% on cost

Tangible fixed assets are stated at historical cost less accumulated depreciation and any accumulated impairment losses. Historical cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

#### **Financial instruments**

#### a) Debtors

Basic financial assets, including trade and other debtors, are initially recognised at transaction price, unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest. Such assets are subsequently carried at amortised cost using the effective interest method, less any impairment.

#### b) Creditors

Basic financial liabilities, including trade and other creditors, loans from third parties and loans from related parties, are initially recognised at transaction price, unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future payments discounted at a market rate of interest. Such instruments are subsequently carried at amortised cost using the effective interest method, less any impairment.

#### c) Cash at bank and in hand

Cash and cash equivalents are represented by cash in hand, deposits held at call with financial institutions, and other short-term highly liquid investments that mature in no more than three months from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

#### d) Interest income

Interest income is recognised in profit or loss using the effective interest method.

#### 2. ACCOUNTING POLICIES - continued

#### **Taxation**

The tax expense for the year comprises current and deferred tax.

Tax is recognised in profit or loss except that a change attributable to an item of income and expense recognised as other comprehensive income or to an item recognised directly in equity is also recognised in other comprehensive income or directly in equity respectively.

Deferred tax balances are recognised in respect of all timing differences that have originated but not reversed by the balance sheet date, except that:

- the recognition of deferred tax assets is limited to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits; and
- any deferred tax balances are reversed if and when all conditions for retaining associated tax allowances have been met.

Both current and deferred tax is determined using tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

#### Pension costs

From 1 April 2015, under the Pensions Act 2008, the company must put certain staff into a pension scheme and contribute towards it. This is called automatic enrolment. To comply with automatic enrolment laws, the company signed a participation agreement with a pension provider by which staff become members of an independently administered pension plan. The company and staff make contributions as specified in the plan.

In the aforementioned schemes, staff contract directly with the pension company, and assets of those schemes are held separately from those of the company. The company acts as agent in collecting and paying over staff pension contributions. Once the contributions have been paid, the charity as employer has no further obligations.

The company's contributions are charged to the profit and loss account in the period to which they relate. At the reporting date, outstanding contribution amounted to £nil (2017: £34).
