Strategic report for the year ended 31 March 2022

The directors present their strategic report on the group for the year ended 31 March 2022.

Principal activities, review of business and future developments

The principal activity of the group is the designing, building, financing and operation, including the provision of wastewater treatment and sludge disposal services, of a series of waste water treatment plants and sludge incinerators in Northern Ireland.

The group has recorded a loss before taxation in the year of £1,721,000 (2021: profit of £1,240,000) on turnover of £26,963,000 (2021: £29,183,000). Net liabilities of the group are £23,126,000 (2021: £28,521,000). Turnover is lower than prior year due to actual flows, partly offset by income indexation. Costs of sales have increased compared to prior year due to depreciation increase of £254,000 and one-off facilitation cost of £684,000. The overall effect is a loss before tax compared to the prior year.

The group's results for the year and its financial position at the end of the year were considered to be satisfactory by the directors who expect the group to maintain its present level of activity in future years. Management have acted to mitigate the impact that Coronavirus (Covid-19) has on the business and have worked closely with NI Water and the key sub-contractor to maintain onsite operations and the business has operated at full capacity throughout the pandemic.

Principal risks and uncertainties

As the group's services are provided to its customer under a Private Finance Initiative contract, the group's risks are limited to those arising from service performance. The risk of failing to meet the required service performance levels is mitigated through the group subcontracting the operation of the water treatment facilities to a group that specialises in managing and operating the water treatment facilities. The board closely monitors the service performance level of its facilities to ensure that the required service performance levels are met.

Key performance indicators

The group's operations are managed under the supervision of its shareholders and funders and are largely determined by the detailed terms of the PFI contract which stipulates key performance criteria on operational activities as managed by the sub-contractor. For this reason, the group's directors believe that further operational key performance indicators for the group are not necessary or appropriate for an understanding of the performance or position of the business. In addition, the directors monitor compliance with debt covenant ratios as specified in the senior loan agreement, in particular the Debt Service Cover Ratio, and no non-compliance has been noted.

Environment

The group recognises its corporate responsibility to carry out its operations whilst minimising environmental impacts. The directors' continued aim is to comply with all applicable environmental legislation, prevent pollution and reduce waste wherever possible.

Health and safety

The group is committed to achieving the highest practicable standards in health and safety management and strives to make all sites and offices safe environments. The board of directors receives regular reports on compliance with the policies and procedures established by the shareholders and in respect of the group's performance against the standards set out in those policies.

This report was approved by the board on 14 October 2022.....and signed on its behalf.

Sinead Patton

.....
S Patton
Director

Directors' report for the year ended 31 March 2022

The directors present their report and the audited consolidated financial statements of the group for the year ended 31 March 2022.

Future developments

The section on future developments which is detailed in the Strategic report, is included in this report by cross reference.

Results

The group made net loss for the financial year of £2,190,000 during the year (2021: profit of £731,000). The directors do not recommend the payment of a final dividend (2021: £nil).

Historically the group had received a number of claims from its operating and construction contractors in respect of the operation and construction of the group's water treatment and sludge facilities. The parties entered a facilitation process to resolve the disputes and Settlement Agreements were signed on 17 August 2021 between Northern Ireland Water Ltd (Client), Glen Water Ltd and Veolia Water Outsourcing Ltd (O&M provider). The Client provided £12,090,000 to Glen Water Limited which was subsequently passed down to the O&M provider. The O&M provider will use these funds for a programme of capital works which will improve the facilities, see notes 13,14 and 15 for details.

Going concern

Although the group's balance sheet reflects net liabilities, this is primarily caused by the recognition of derivative financial instruments at their fair values. These derivative financial instrument liabilities are unrealised and are part of hedging arrangements that help to reduce volatility in the group's cash flows over the duration of the PFI project. However, the group is cash generative and is forecast to remain cash positive over that period. The directors are satisfied that the group's cash flows are sufficient to enable the group to continue as a going concern and settle all liabilities as they fall due for at least the next 12 months from signing these financial statements. Accordingly, the financial statements have been prepared on a going concern basis.

Directors' indemnity

The group has made a qualifying third party indemnity provision for the benefit of its directors during the year and it remained in force at the date of this report.

Financial risk management

The group's operations expose it to a variety of financial risks that include credit risk, liquidity risk and interest rate risk. The group has in place a risk management programme that seeks to limit the adverse effects on the financial performance of the group by monitoring these risks.

Given the size of the group, the directors have retained the responsibility of monitoring financial risk management and have not delegated this responsibility to a sub-committee of the board. The policies set by the board of directors are implemented by the group's finance department.

Credit risk

As the group's customer is a government owned company, exposure to credit risk is limited.

Liquidity risk

The group's exposure to liquidity risk is limited as it has sufficient cash reserves to fund short term working capital requirements, whilst its contract with its customer generates sufficient monies to meet the group's obligations under its bank loan and loans from related parties.

Interest rate risk

The group has both interest-bearing assets and interest-bearing liabilities. Interest bearing assets consist of cash balances which earn interest at variable rates. Interest bearing liabilities consist of bank loans on which the group pays variable rates of interest and loans from related parties which the group pays fixed rates of interest. The group has entered into interest rate swaps in order to hedge the interest rate cash flow risk arising from its variable rate bank debt.

As described in note 3, the group is managing the risks arising from the interest rate benchmark reform by seeking to negotiate consistent terms, rates and transition dates, with the respective counterparties, to maintain hedge effectiveness, although formal transition has not yet completed.

Directors' report for the year ended 31 March 2022 (continued)

Directors

The directors of the group who were in office during the year, and up to the date of signing the financial statements, were:

S Patton
C Anderson
D Hardingham
A McKenna
H Pownall (appointed 1 February 2022)

Political contributions

The group made no political contributions during the year (2021: £nil).

Statement of directors' responsibilities in respect of the financial statements

The directors are responsible for preparing the Annual report and the financial statements in accordance with applicable law and regulation.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have prepared the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", and applicable law).

Under company law, directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the group and of the profit or loss of the group for that period. In preparing the financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- state whether applicable United Kingdom Accounting Standards, comprising FRS 102 have been followed, subject to any material departures disclosed and explained in the financial statements;
- make judgements and accounting estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the group will continue in business.

The directors are responsible for safeguarding the assets of the group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors are also responsible for keeping adequate accounting records that are sufficient to show and explain the group's transactions and disclose with reasonable accuracy at any time the financial position of the group and enable them to ensure that the financial statements comply with the Companies Act 2006.

Statement of disclosure of information to auditors

So far as each of the directors in office at the date of approval of these financial statements is aware:

- there is no relevant audit information of which the group's auditors are unaware; and
- they have taken all the steps that they ought to have taken as directors in order to make themselves aware of any relevant audit information and to establish that the group's auditors are aware of that information.

On behalf of the Board on 12 October 2022.....

.....
D Hardingham
Director

Glen Water (Holdings) Limited

Independent Auditors' Report to the members of Glen Water (Holdings) Limited

Report on the audit of the financial statements

Opinion

In our opinion, Glen Water (Holdings) Limited's group financial statements and parent company financial statements (the "financial statements"):

- give a true and fair view of the state of the group's and of the company's affairs as at 31 March 2022 and of the group's loss and the group's cash flows for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", and applicable law); and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements, included within the Annual Report and Consolidated Financial Statements (the "Annual Report"), which comprise: the Consolidated and Company Balance Sheets as at 31 March 2022; the Consolidated Profit and Loss Account and Consolidated Statement of Comprehensive Income, the Consolidated and Company Statements of Changes in Equity, and the Consolidated Statement of Cash Flows for the year then ended; and the notes to the financial statements, which include a description of the significant accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the group in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Conclusions relating to going concern

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the group's and group's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the group's ability to continue as a going concern.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

Glen Water (Holdings) Limited

Independent Auditors' Report to the members of Glen Water (Holdings) Limited (continued)

With respect to the Strategic report and Directors' report, we also considered whether the disclosures required by the UK Companies Act 2006 have been included.

Based on our work undertaken in the course of the audit, the Companies Act 2006 requires us also to report certain opinions and matters as described below.

Strategic report and Directors' report

In our opinion, based on the work undertaken in the course of the audit, the information given in the Strategic report and Directors' report for the year ended 31 March 2022 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.

In light of the knowledge and understanding of the group and group and its environment obtained in the course of the audit, we did not identify any material misstatements in the Strategic report and Directors' report.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Statement of Directors' Responsibilities, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view. The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the group's and the group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the group or the group or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

Based on our understanding of the group and industry, we identified that the principal risks of non-compliance with laws and regulations related to UK corporation tax legislation, and we considered the extent to which non-compliance might have a material effect on the financial statements. We also considered those laws and regulations that have a direct impact on the financial statements such as the Companies Act 2006. We evaluated management's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls), and determined that the principal risks were related to posting inappropriate journal entries to manipulate financial results, including revenue recognition and manipulation of earnings before interest, tax, depreciation and amortisation and management bias in accounting estimates or significant judgements. Audit procedures performed by the engagement team included:

- Discussions with management and internal audit to enquire of any known instances of non-compliance with Laws and Regulations and Fraud
- Reading board minutes for evidence of breaches of regulations and reading relevant correspondence
- Challenging assumptions and judgements made by management in their significant accounting estimates
- Identifying and testing journal entries, in particular journal entries posted with unexpected account combinations
- Incorporating unpredictability into the nature, timing and/or extent of our testing

Glen Water (Holdings) Limited

Independent auditors' report to the members of Glen Water (Holdings) Limited (continued)

There are inherent limitations in the audit procedures described above. We are less likely to become aware of instances of non-compliance with laws and regulations that are not closely related to events and transactions reflected in the financial statements. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the group's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Companies Act 2006 exception reporting

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- we have not obtained all the information and explanations we require for our audit; or
- adequate accounting records have not been kept by the group, or returns adequate for our audit have not been received from branches not visited by us; or
- certain disclosures of directors' remuneration specified by law are not made; or
- the financial statements are not in agreement with the accounting records and returns.

We have no exceptions to report arising from this responsibility.

Notes to the financial statements for the year ended 31 March 2022

1 General information

Glen Water (Holdings) Limited ('the company') and its subsidiaries (together "the group") principal activities are the designing, building, financing and operation, including the provision of wastewater treatment and sludge disposal services, of a series of waste water treatment plants and sludge incinerators in Northern Ireland.

The company is a private company limited by shares and is incorporated in the United Kingdom and registered in England. The address of its registered office is Third Floor Broad Quay House, Prince Street, Bristol, BS1 4DJ.

2 Statement of compliance

The group and company's financial statements of Glen Water (Holdings) Limited have been prepared in compliance with United Kingdom Accounting Standards, including Financial Reporting Standard 102, "The Financial Reporting Standard applicable in the United Kingdom and the Republic of Ireland" ("FRS 102") and the Companies Act 2006.

3 Accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Basis of preparation

These consolidated and separate financial statements are prepared on a going concern basis, under the historical cost convention, as modified by the recognition of certain financial assets and liabilities measured at fair value.

The preparation of financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the group accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 4.

New accounting standards adopted during the period

Interest rate benchmark reform

SONIA (Sterling Overnight Index Average) has replaced GBP LIBOR, with effect from 1 January 2022.

GBP LIBOR is a 'term rate', which means that it is published for a borrowing period (such as 1-, 3-, and 6-months) and is 'forward looking', because it is published at the beginning of the borrowing period. SONIA is a 'backward-looking' rate, based on a compound rate from observed overnight rates.

Furthermore, GBP LIBOR includes a credit spread over the risk-free rate (RFR), which SONIA does not. To transition existing contracts and agreements that reference GBP LIBOR to SONIA, adjustments for term differences and credit differences a 'Credit Adjustment Spread' ('CAS') is applied to SONIA, to enable the two benchmark rates to be economically equivalent on transition. The CAS is agreed by the Lenders' Market Association ('LMA') and International Swaps and Derivative Association ('ISDA'). The CAS was published by Bloomberg, 5 March 2021, when the Financial Conduct Authority ('FCA') declared the cessation of GBP LIBOR, it is the 5-year historic median between GBP LIBOR and SONIA.

The group has floating rate debt and related hedging instruments which are subject to LIBOR, as disclosed in notes 13 and 21. The risks arising from the transition relate principally to the potential impact of rate differences if the debt and related hedging instruments did not transition to the new benchmark interest rate simultaneously and/or the rates move by different amounts. This could result in hedge ineffectiveness. To avoid this, the group is seeking to negotiate consistent terms, rates and transition dates, with the respective counterparties, although formal transition has not yet completed. In the meantime, synthetic LIBOR is applied.

The FCA has confirmed it will allow the use of "Synthetic LIBOR" rates for all legacy contracts except cleared derivatives, to allow a wider time window for transitions to be completed. Synthetic LIBOR has however not been guaranteed beyond 31 December 2022. In addition, The Critical Benchmarks (References and Administrators' Liability) Act 2021 has been passed to amend the defined term of GBP LIBOR to 'synthetic LIBOR', such that "LIBOR" references are by law "synthetic LIBOR".

Further details of the group's application of synthetic LIBOR are disclosed in notes 14 and 17.

As the transition seeks to maintain hedge effectiveness, there is no change to the group's overall risk management strategy as a result of the benchmark rate replacement.

Basis of Consolidation

The group financial statements comprise a consolidation of the accounts of the company and its subsidiary for the year ended 31 March 2022. The results of companies acquired or disposed of, where applicable, are consolidated from the effective date of the acquisition or the effective date of disposal. The company has no associates or joint ventures.

The group has taken advantage of the exemption in section 408 of the Companies Act 2006 from disclosing its individual profit and loss account.

Notes to the financial statements for the year ended 31 March 2022 (continued)

3 Accounting policies (continued)

Investments

Investments in equity and subordinated loan notes are held as fixed assets and are stated at cost less an appropriate provision to reflect any impairment in the value of the investments.

Going concern

Although the group's balance sheet reflects net liabilities, this is primarily caused by the recognition of derivative financial instruments at their fair values. These derivative financial instrument liabilities are unrealised and are part of hedging arrangements that help to reduce volatility in the group's cash flows over the duration of the PFI project. However, the group is cash generative and is forecast to remain cash positive over that period. The directors are satisfied that the group's cash flows are sufficient to enable the group to continue as a going concern and settle all liabilities as they fall due for at least the next 12 months from signing these financial statements. Accordingly, the financial statements have been prepared on a going concern basis.

Accounting for Private Finance Initiative contracts (service concession arrangements)

Where it can be demonstrated that the balance of risks and rewards derived from the underlying asset are not borne by the group, the asset created and/or provided under the contract is accounted for as a finance lease receivable or as a financial asset; otherwise, it is classified as a fixed asset.

Provisions and contingencies

i) Provisions

Provisions are recognised when the group has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount of the obligation can be estimated reliably.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as a finance cost.

(ii) Contingencies

Contingent liabilities, arising as a result of past events, are not recognised when (i) it is not probable that there will be an outflow of resources or that the amount cannot be reliably measured at the reporting date or (ii) when the existence will be confirmed by the occurrence or non-occurrence of uncertain future events not wholly within the group's control. Contingent liabilities are disclosed in the financial statements unless the probability of an outflow of resources is remote.

Turnover

Turnover is measured at the fair value of the consideration received or receivable and represents the amount receivable for goods supplied or services rendered, net of returns, discounts and rebates allowed by the group and value added taxes.

Where the consideration receivable in cash at bank and in hand is deferred, and the arrangement constitutes a financing transaction, the fair value of the consideration is measured as the present value of all future receipts using the imputed rate of interest.

The group recognises turnover when (a) the significant risks and rewards of ownership have been transferred to the buyer; (b) the group retains no continuing involvement or control over the goods; (c) the amount of revenue can be measured reliably; (d) it is probable that future economic benefits will flow to the entity and (e) when the specific criteria relating to each of the group's sales channels have been met, as described below.

Turnover in respect of the provision of water and sewerage services is recognised on the basis of daily usage.

Taxation

Taxation expense for the period comprises current and deferred tax recognised in the reporting period. Tax is recognised in the profit and loss account, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case tax is also recognised in other comprehensive income or directly in equity respectively.

Current or deferred taxation assets and liabilities are not discounted.

Notes to the financial statements for the year ended 31 March 2022 (continued)**3 Accounting policies (continued)***(i) Current tax*

Current tax is the amount of income tax payable in respect of the taxable profit for the year or prior years. Tax is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the period end.

Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

(ii) Deferred tax

Deferred tax arises from timing differences that are differences between taxable profits and total comprehensive income as stated in the financial statements. These timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements.

Deferred tax is recognised on all timing differences at the reporting date. Unrelieved tax losses and other deferred tax assets are only recognised when it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the period end and that are expected to apply to the reversal of the timing difference.

Borrowing Costs

All borrowing costs are recognised in profit and loss in the period in which they are incurred.

Tangible assets

Tangible assets are stated at cost (or deemed cost) less accumulated depreciation and accumulated impairment losses. Cost includes the original purchase price, costs directly attributable to bringing the asset to its working condition for its intended use, dismantling and restoration costs.

(i) Infrastructure, building & concrete structures, pumping equipment and other equipment

Infrastructure, building & concrete structures, pumping equipment and other equipment are stated at cost less accumulated depreciation and accumulated impairment losses.

(ii) Depreciation and residual values

Depreciation is calculated, using the straight-line method, to allocate the depreciable amount to their residual values over the expected useful economic lives of the assets concerned. The principal annual rates used are as follows:

Infrastructure assets	-	24 years
Building & concrete structures	-	24 years
Pumping equipment	-	20 years
Other equipment	-	7 to 15 years

The assets' residual values and useful lives are reviewed, and adjusted, if appropriate, at the end of each reporting period. The effect of any change is accounted for prospectively.

(iii) Subsequent additions and major components

Subsequent costs, including major inspections, are included in the assets carrying amount or recognised as a separate asset, as appropriate, only when it is probable that economic benefits associated with the item will flow to the Group and the cost can be measured reliably.

The carrying amount of any replaced component is derecognised. Major components are treated as a separate asset where they have significantly different patterns of consumption of economic benefits and are depreciated separately over its useful life.

Repairs, maintenance and minor inspection costs are expensed as incurred.

(iv) Derecognition

Tangible assets are derecognised on disposal or when no future economic benefits are expected. On disposal, the difference between the net disposal proceeds and the carrying amount is recognised in profit or loss and included in 'Administrative expenses'.

Notes to the financial statements for the year ended 31 March 2022 (continued)

3 Accounting policies (continued)

Impairment of non-financial assets

At each balance sheet date non-financial assets not carried at fair value are assessed to determine whether there is an indication that the asset (or asset's cash generating unit) may be impaired. If there is such an indication the recoverable amount of the asset (or asset's cash generating unit) is compared to the carrying amount of the asset (or asset's cash generating unit).

The recoverable amount of the asset (or asset's cash generating unit) is the higher of the fair value less costs to sell and value in use. Value in use is defined as the present value of the future cash flows before interest and tax obtainable as a result of the asset's (or asset's cash generating unit) continued use. These cash flows are discounted using a pre-tax discount rate that represents the current market risk-free rate and the risks inherent in the asset.

If the recoverable amount of the asset (or asset's cash generating unit) is estimated to be lower than the carrying amount, the carrying amount is reduced to its recoverable amount. An impairment loss is recognised in the profit and loss account, unless the asset has been revalued when the amount is recognised in other comprehensive income to the extent of any previously recognised revaluation. Thereafter any excess is recognised in profit or loss.

If an impairment loss is subsequently reversed, the carrying amount of the asset (or asset's cash generating unit) is increased to the revised estimate of its recoverable amount, but only to the extent that the revised carrying amount does not exceed the carrying amount that would have been determined (net of depreciation or amortisation) had no impairment loss been recognised in prior periods. A reversal of an impairment loss is recognised in the profit and loss account.

Financial instruments

The group has chosen to adopt Sections 11 and 12 of FRS 102 in respect of financial instruments.

(i) *Financial assets*

Basic financial assets, including trade and other receivables and cash and bank balances, are initially recognised at transaction price, unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest. Such assets are subsequently carried at amortised cost using the effective interest method.

At the end of each reporting period financial assets measured at amortised cost are assessed for objective evidence of impairment. If an asset is impaired the impairment loss is the difference between the carrying amount and the present value of the estimated cash flows discounted at the asset's original effective interest rate. The impairment loss is recognised in profit or loss.

If there is decrease in the impairment loss arising from an event occurring after the impairment was recognised, the impairment is reversed. The reversal is such that the current carrying amount does not exceed what the carrying amount would have been had the impairment not previously been recognised. The impairment reversal is recognised in profit or loss.

Financial assets are derecognised when (a) the contractual rights to the cash flows from the asset expire or are settled, or (b) substantially all the risks and rewards of the ownership of the asset are transferred to another party or (c) despite having retained some significant risks and rewards of ownership, control of the asset has been transferred to another party who has the practical ability to unilaterally sell the asset to an unrelated third party without imposing additional restrictions.

(ii) *Financial liabilities*

Basic financial liabilities, including trade and other payables, bank loans and loans from related parties, are initially recognised at transaction price, unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future receipts discounted at a market rate of interest. Debt instruments are subsequently carried at amortised cost, using the effective interest rate method.

Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a pre-payment for liquidity services and amortised over the period of the facility to which it relates.

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities. Trade payables are recognised initially at transaction price and subsequently measured at amortised cost using the effective interest method.

Derivatives, including interest rate swaps and forward foreign exchange contracts, are not basic financial instruments.

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value. Changes in the fair value of derivatives are recognised in profit or loss in finance costs or finance income as appropriate, unless they are included in a hedging arrangement.

Financial liabilities are derecognised when the liability is extinguished, that is when the contractual obligation is discharged, cancelled or expires.

Notes to the financial statements for the year ended 31 March 2022 (continued)

3 Accounting policies (continued)

(iii) *Offsetting*

Financial assets and liabilities are offset and the net amounts presented in the financial statements when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

(iv) *Hedging arrangements*

The group applies hedge accounting for transactions entered into to manage the cash flow exposures of borrowings. Interest rate swaps are held to manage the interest rate exposures and are designated as cash flow hedges of floating rate borrowings.

Changes in the fair values of derivatives designated as cash flow hedges, and which are effective, are recognised directly in equity. Any ineffectiveness in the hedging relationship (being the excess of the cumulative change in fair value of the hedging instrument since inception of the hedge over the cumulative change in the fair value of the hedged item since inception of the hedge) is recognised in the profit and loss account.

The gain or loss recognised in other comprehensive income is reclassified to the income statement when the hedge relationship ends. Hedge accounting is discontinued when the hedging instrument expires, no longer meets the hedging criteria, the forecast transaction is no longer highly probable, the hedged debt instrument is derecognised or the hedging instrument is terminated.

Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new ordinary shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Related party transactions

The group discloses transactions with related parties which are not wholly owned within the same group. Where appropriate, transactions of a similar nature are aggregated unless, in the opinion of the directors, separate disclosure is necessary to understand the effect of the transactions on the group and company financial statements.

4 Critical accounting judgements and estimation uncertainty

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Critical accounting estimates and assumptions

The group has adopted the going concern basis in preparing the financial statements as described in note 3.

Critical judgements in applying the group's and the company's accounting policies

Effect of LIBOR reform

In calculating the change in fair value attributable to the hedged risk of floating-rate debt, Glen Water Holdings Limited has made the following assumptions that reflect its current expectations:

- The floating-rate debt will move to SONIA during 2022, and the CAS will be the same as the CAS included in the interest rate swap used as the hedging instrument.
- The reform has not been used to change the commercial terms of the floating-rate instruments.

Taxation

Management make an estimate of the taxation charge for the period and the value of balances, with reference to legislation, discussions with taxation authorities, advice from taxation advisors, and the determination of similar taxation cases.

Deferred tax is recognised at tax rates that are expected to be applicable when the timing differences reverse, to the extent that such rates have been substantially enacted. Deferred tax assets are only recognised when it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. The directors have taken this into consideration in their assessment of deferred tax assets.

5 Turnover

Turnover relates to the group's main activity which is carried out in the United Kingdom.

Glen Water (Holdings) Limited

Notes to the financial statements for the year ended 31 March 2022 (continued)

6 Operating profit

	2022	2021
	£'000	£'000
Operating profit is stated after charging:		
Depreciation of tangible assets	7,997	7,743
Fees payable to the company's auditors in respect of the audit of the financial statements	28	15
Fees payable to the company's auditors in respect of taxation services	10	38

7 Interest payable and similar expenses

	2022	2021
	£'000	£'000
Interest payable on bank loans	5,178	5,633
Interest payable on unsecured loan notes	2,120	1,941
Fair value gain on derivatives	(352)	(242)
Other finance costs	50	50
Total interest payable	6,996	7,382
Interest receivable on bank deposits	(7)	(54)
Net interest payable	6,989	7,328

8 Employee information

The group and the company did not employ any individuals during the year (2021: None).

9 Directors' emoluments

The directors did not receive any remuneration in respect of their services to the group or the company during the year (2021: £nil).

Glen Water (Holdings) Limited

Notes to the financial statements for the year ended 31 March 2022 (continued)

10 Tax on (loss)/profit

	2022 £'000	2021 £'000
Current tax		
UK corporation tax	-	10
Total current tax charge	-	10
Deferred tax:		
Origination and reversal of timing differences	(150)	935
Change in tax rates	619	(436)
Total deferred tax charge	469	499
Tax on (loss)/profit	469	509

The tax assessed for the year is higher than the standard rate of Corporation Tax in the UK of 19% (2021: Higher than the standard rate of corporation tax in the UK) of 19% (2021: 19%). The differences are reconciled below:

	2022 £'000	2021 £'000
(Loss)/Profit before tax	(1,721)	1,240
(Loss)/Profit before tax multiplied by standard rate in the UK 19% (2021: 19%)	(327)	236
Effects of:		
Expenses not deductible for tax purposes	177	709
Change in tax rates	619	(436)
Tax (credit)/charge on profit/(loss)	469	509

Tax rate changes

On the 3 March 2021 the UK Government announced that from 1 April 2023 the corporation tax rate will increase to 25% from 19%. This new law was substantively enacted on 24 May 2021. Deferred taxes at the balance sheet date have been measured using these enacted tax rates and reflected in these financial statements.

11 Investments

Company	Investment in subsidiary undertaking £'000
Cost and net book value	
At 1 April 2021 and at 31 March 2022	1

Notes to the financial statements for the year ended 31 March 2022 (continued)

12 Tangible assets

Group	Infrastructure assets £'000	Building & concrete structures £'000	Pumping equipment £'000	Other equipment £'000	Total £'000
Cost					
At 1 April 2021	17,839	50,346	81,631	10,866	160,682
Additions	943	-	-	557	1,500
At 31 March 2022	18,782	50,346	81,631	11,423	162,182
Accumulated depreciation					
At 1 April 2021	8,864	26,458	42,235	10,769	88,326
Charge for the year	683	2,322	4,762	230	7,997
At 31 March 2022	9,547	28,780	46,997	10,999	96,323
Net book amount					
At 31 March 2022	9,235	21,566	34,634	424	65,859
At 31 March 2021	8,975	23,888	39,396	97	72,356

Interest and other finance costs capitalised as at 31 March 2022 amount to £4,585,000 (2021: £5,054,000), which is stated after accumulated depreciation of those capitalised costs of £6,040,000 (2021: £5,571,000).

Tangible assets with a net book amount of £65,859,000 (2021: £72,356,000) is pledged as security against the company's borrowings.

13 Debtors

Group	2021 £'000	As restated 2021 £'000
Trade debtors	2,387	2,466
Amounts owed by related parties	2	28
Deferred tax asset	181	1,613
Prepayment - Facilitation	12,090	-
Other Debtors	22	28
Prepayments and accrued income	2,556	2,397
	17,238	6,532

The restatement concerns the reclassification of the accrued March 2021 unitary charge of £2,302,000, previously listed in Trade debtors and now in Prepayments and accrued income.

Amounts owed by related parties are interest free, unsecured and repayable on demand.

The Facilitation prepayment represents the £12,090,000 paid to Veolia Water Outsourcing Limited under the Settlement Agreements that were signed on 17 August 2021, as described in the Director's report. The prepayment will be released and capitalised into fixed assets in line with the completion of the capital works programme.

Glen Water (Holdings) Limited

Notes to the financial statements for the year ended 31 March 2022 (continued)

13 Debtors (continued)

Group	Deferred tax asset £'000
At 1 April 2021	1,613
Credited to the profit and loss account	(469)
Charged to other comprehensive income	(963)
At 31 March 2022	181

Group	2022 £'000	2021 £'000
Deferred tax assets/(liabilities) are as follows:		
Tax losses	1,534	1,020
Derivative financial instruments	2,944	3,928
Excess of depreciation over capital allowances	(3,151)	(2,376)
Timing differences in respect of capitalised interest	(1,146)	(959)
	181	1,613

The group has tax losses of approximately £6,137,000 (2021: £5,370,000) available for offset against future trading profits. The group has a deferred tax asset of approximately £1,534,000 (2021: £1,020,000) arising from these tax losses.

The amount of deferred tax assets expected to reverse in the next 12 months is £nil (2021: £950,000) and after more than 12 months is £181,000 (2021: £663,000).

14 Creditors: amounts falling due within one year

Group	2022 £'000	2021 £'000
Bank loan (note 15)	8,055	7,579
Trade creditors	18	101
Amounts owed to related parties (note 20)	2,109	2,873
Deferred income - Facilitation	746	-
Corporation tax	-	10
Accruals and deferred income	2,068	2,166
	12,996	12,729

The amount shown as Deferred income - Facilitation represents the £12,090,000 which was received from Northern Ireland Water Limited as part of the Settlement Agreements signed 17 August 2021. This amount will be released over the remaining concession period.

The bank loan is secured by a fixed and floating charge over the assets of the group and by way of guarantees given by the parent undertakings of the corporate shareholders. The loan carries interest at a rate of LIBOR plus 0.95% to 1.15%.

The senior debt was subject to LIBOR plus variable margin until 31 December 2021, at which point the rate transferred to synthetic LIBOR plus variable margin. At the balance sheet date, the entity's LIBOR linked senior debt balance remained subject to synthetic LIBOR plus variable margin.

Details of the rate of interest for the bank loan are provided in Note 15.

Amounts owed to related parties are interest free, unsecured and repayable on demand.

Glen Water (Holdings) Limited

Notes to the financial statements for the year ended 31 March 2022 (continued)

15 Creditors: amounts falling due after more than one year

	2022	2021
Group	£'000	£'000
Bank loan	70,395	78,448
Unsecured loan notes due 2031	24,613	22,539
Deferred income – Facilitation	11,344	-
Derivative financial instruments	11,776	20,676
	118,128	121,663

The bank loan is secured by a fixed and floating charge over the assets of the company. The loan carries interest at a rate of LIBOR plus 0.95% to 1.15%.

The senior debt was subject to LIBOR plus variable margin until 31 December 2021, at which point the rate transferred to synthetic LIBOR plus variable margin. At the balance sheet date, the entity's LIBOR linked senior debt balance remained subject to synthetic LIBOR plus variable margin.

The unsecured subordinated loan notes are repayable in varying instalments commencing 31 December 2009 with full repayment due by 31 December 2031 and carry interest at a rate of 9% per annum. The maturity of the bank loan and unsecured loan notes is as follows:

	2022	2021
	£'000	£'000
Within one year	8,055	7,579
Between one and two years	8,719	8,054
Between two and five years	28,831	25,383
In more than five years	57,458	67,550
	103,063	108,566

The bank loan and unsecured loan notes are stated net of unamortised issue costs of £485,000 (2021: £535,000). All amounts falling due after more than five years are repayable by instalments.

16 Provisions for liabilities

Group	Decommissioning provision £'000
At 1 April 2021 and 31 March 2022	750

Decommissioning provision

The decommissioning provision relates to anticipated costs that are required to be carried out at sludge facilities at the end of their use.

Glen Water (Holdings) Limited

Notes to the financial statements for the year ended 31 March 2022 (continued)

17 Financial instruments

Group

The group has the following financial instruments:

	2022 £'000	As restated 2021 £'000
Financial assets that are a debt instrument measured at amortised cost
