- make judgements and accounting estimates that are reasonable and prudent;

**1 Accounting policies**

The following accounting policies have been applied consistently throughout the period in dealing with items which are considered material in relation to the Company's accounts.

The accounts have been prepared on the going concern basis under the historical cost convention and in accordance with the Companies Act 2006 and applicable accounting standards in the United Kingdom.

**b) Going concern**

- The directors assessed the company's financial position, and they have a reasonable expectation that the company will be able to continue in operational existence for the foreseeable future;
- There are no material uncertainties related to events or conditions that may cast significant doubt about the ability of the company to continue as a going concern.

On the basis of their assessment the directors believe that it remains appropriate to prepare the financial statements on a going concern basis.

**c) Turnover**

Turnover represents fees and commissions receivable excluding value added tax.

Where the substance of a contract is that the Company's contractual obligations are performed gradually over time, revenue is recognised as the contract activity progresses to reflect the Company's partial performance of its contractual obligations. The amount of revenue reflects the accrual of the right to consideration as contract activity progresses by reference to value of the work performed. Amounts unbilled at the balance sheet date are included within prepayments and accrued income.

Where the substance of the contract is that a right to consideration does not arise until the occurrence of a critical event, revenue is not recognised until that event occurs.

**d) Investments**

Investments are stated at cost less any provision for impairment. Impairment reviews are carried out by management when there is an indication of impairment.

**e) Taxation**

The charge for taxation is based on the profit for the year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes.

Deferred taxation is recognized, without discounting, in respect of all timing differences between the treatment of certain items for taxation and accounting purposes which have arisen but not reversed BY the balance sheet date, except as otherwise required by FRS 19.
