ABBREVIATED BALANCE SHEET *(continued)*

31 MARCH 2014

For the year ended 31 March 2014 the company was entitled to exemption from audit under section 477 of the Companies Act 2006 relating to small companies.

Directors' responsibilities:

- The members have not required the company to obtain an audit of its accounts for the year in question in accordance with section 476; and
- The directors acknowledge their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of accounts.

These abbreviated accounts have been prepared in accordance with the special provisions applicable to companies subject to the small companies regime.

These abbreviated accounts were approved by the directors and authorised for issue on 16 June 2014, and are signed on their behalf by:

J East
Director

A large, stylized handwritten signature in black ink, consisting of several loops and flourishes, positioned to the right of the name 'J East'.

The notes on pages 3 to 5 form part of these abbreviated accounts.

POWER CONTINUITY LIMITED
NOTES TO THE ABBREVIATED ACCOUNTS
YEAR ENDED 31 MARCH 2014

1. Accounting policies

Basis of accounting

The financial statements have been prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

The turnover shown in the profit and loss account represents the value of all goods and services sold during the year, less returns received, at selling price exclusive of Value Added Tax. Design, supply and installation sales are recognised at the point at which the company has fulfilled its contractual obligations and the risks and rewards attaching to the product, such as obsolescence, have been transferred to the customer. Maintenance sales are recognised over the period of the contract which is in line with the delivery of the service.

Research and development

Research and development expenditure is written off in the profit and loss account in the period in which it is incurred.

Intangible fixed assets

Intangible assets acquired separately from a business are capitalised and written off on a straight line basis over their useful economic lives. The useful economic life is the expected period over which the company expects to derive an economic benefit, and is reviewed on an annual basis.

Amortisation

Amortisation is calculated so as to write off the cost of an asset, net of anticipated disposal proceeds, over the estimated useful economic life of that asset as follows:

Website & domain names	- 10% straight line
Trademarks	- 10% straight line

Tangible fixed assets

Tangible fixed assets are stated at cost less depreciation. Cost represents purchase price together with any incidental costs of acquisition.

Depreciation

Depreciation is calculated so as to write off the cost of an asset, net of anticipated disposal proceeds, over the useful economic life of that asset as follows:

Freehold property	- 25% straight line
Plant & machinery	- 25% reducing balance
Fixtures, fittings & equipment	- 33% reducing balance
Motor vehicles	- 25% reducing balance

YEAR ENDED 31 MARCH 2014

1. Accounting policies (continued)

Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Cost is calculated using the first-in first-out method and includes the normal cost of transporting stock to its present location and condition. Cost includes material and direct labour costs together with an appropriate proportion of production overheads, and interest costs directly relating to the associated funding of stocks. Net realisable value is the anticipated sales proceeds less any costs of disposal.

Hire purchase agreements

Assets held under hire purchase agreements are capitalised and disclosed under tangible fixed assets at their fair value, and are depreciated in accordance with the above depreciation policies.

Future instalments payable under such agreements, net of finance charges, are included within creditors. Rentals payable are apportioned between the capital element, which reduces the outstanding obligation included within creditors, and the finance element, which is charged to the profit and loss account on a straight line basis.

Pension costs

The company operates a defined contribution pension scheme and the pension charge represents the amounts payable by the company to the fund in respect of the year. The assets of the scheme are held separately from those of the company in an independently administered fund.

Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more tax, or a right to pay less tax, or a right to receive repayments of tax.

Deferred tax is measured on a non-discounted basis at the average tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

Foreign currencies

Transactions denominated in foreign currencies are recorded at the rates of exchange ruling at the dates of the transactions, or at an average rate for the period if the rates do not fluctuate significantly. Monetary assets and liabilities are translated at year end exchange rates or, where appropriate, at rates of exchange fixed under the terms of the relevant transaction. The resulting exchange rate differences are charged to the profit and loss account.
