For the year ended 31 March 2015 the company was entitled to exemption from audit under section 477 of the Companies Act 2006 relating to small companies.

Director's responsibilities:

- The member has not required the company to obtain an audit of its accounts for the year in question in accordance with section 476; and
- The director acknowledges his responsibility for complying with the requirements of the Act with respect to accounting records and the preparation of accounts.

These abbreviated accounts have been prepared in accordance with the special provisions applicable to companies subject to the small companies regime.

These abbreviated accounts were approved and signed by the director and authorised for issue on 8 June 2015.

MR J WHITE

Company Registration Number: 5667352

The notes on pages 2 to 4 form part of these abbreviated accounts.

WESSEX DRILLING COMPANY LIMITED
NOTES TO THE ABBREVIATED ACCOUNTS
YEAR ENDED 31 MARCH 2015

1. ACCOUNTING POLICIES

Basis of accounting

The financial statements have been prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

The turnover shown in the profit and loss account represents amounts invoiced during the year, exclusive of Value Added Tax.

Amortisation

Amortisation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows:

Goodwill - straight line over 10 years

Fixed assets

All fixed assets are initially recorded at cost.

Depreciation

Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows:

| | | |
|-------------------|---|---|
| Plant & Machinery | - | 20% Reducing balance basis |
| Motor Vehicles | - | 25% Reducing balance basis |
| Equipment | - | 25% Reducing balance basis, computer equipment over 3 years |

Hire purchase agreements

Assets held under hire purchase agreements are capitalised and disclosed under tangible fixed assets at their fair value. The capital element of the future payments is treated as a liability and the interest is charged to the profit and loss account on a straight line basis.

Operating lease agreements

Rentals applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged against profits on a straight line basis over the period of the lease.

Deferred taxation

In accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008) (FRSSE), the difference between the accounting treatment for depreciation in respect of accelerated capital allowances and other timing differences, is provided in full. Provision is made, or recovery anticipated, where timing differences have originated but not reversed at the balance sheet date.

YEAR ENDED 31 MARCH 2015

1. ACCOUNTING POLICIES *(continued)*

Financial instruments

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the entity after deducting all of its financial liabilities.

Where the contractual obligations of financial instruments (including share capital) are equivalent to a similar debt instrument, those financial instruments are classed as financial liabilities. Financial liabilities are presented as such in the balance sheet. Finance costs and gains or losses relating to financial liabilities are included in the profit and loss account. Finance costs are calculated so as to produce a constant rate of return on the outstanding liability.

Where the contractual terms of share capital do not have any terms meeting the definition of a financial liability then this is classed as an equity instrument. Dividends and distributions relating to equity instruments are debited direct to equity.

Going concern

At the balance sheet date the company had net current liabilities of £29,326 and is therefore dependent on the continuing financial support of the director to continue trading. The director has indicated that this continued support will be forthcoming for the foreseeable future and the company is currently meeting its day to day liabilities as they fall due.

The director has reviewed the company's current trading position and believes that it has sufficient resources and is well placed to manage its business risks successfully despite the current economic outlook. After making enquiries, the director has a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. Accordingly, the director continues to adopt the going concern basis in preparing the accounts.
