## NOTES TO THE ABBREVIATED ACCOUNTS

### 1 ACCOUNTING POLICIES

#### BASIS OF ACCOUNTING

The financial statements have been prepared under the historical cost convention, modified to include the revaluation of certain fixed assets, and in accordance with the Financial Reporting Standard for Smaller Entities

#### DEPRECIATION

Depreciation is calculated so as to write off the cost or valuation of an asset, less its estimated residual value, over the useful economic life of that asset as follows,

Plant & machinery	-	10% - 15%	p a straight line
Fixtures & fittings	-	15%	p a straight line
Motor vehicles	-	20%	p a straight line

#### STOCKS

Stocks are stated at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items. Cost is calculated on a first in, first out basis.

#### WORK IN PROGRESS

Work in progress is valued on the basis of direct costs plus attributable overheads based on normal level of activity. Provision is made for any foreseeable losses where appropriate. No element of profit is included in the valuation of work in progress.

#### TURNOVER

Turnover represents the amounts derived from the provision of goods and services which fall within the company's ordinary activities, and is stated net of value added tax.

#### DEFERRED TAX

No provision for deferred taxation is made in the financial statements as the directors are of the opinion that no liability will arise on timing differences in the foreseeable future.

#### OPERATING LEASE RENTALS

Rentals applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged against profits on a straight line basis over the period of the lease.

#### HIRE PURCHASE AGREEMENTS

Assets held under hire purchase agreements are capitalised and disclosed under tangible fixed assets at their fair value. The capital element of the future payments is treated as a liability and the interest is charged to the profit and loss account on a straight line basis.

#### DEFERRED GOVERNMENT GRANTS

Government grants in respect of capital expenditure are credited to a deferred income account and are released to profit over the expected useful lives of the relevant assets by equal annual instalments.

Grants of a revenue nature are credited to income so as to match them with the expenditure to which they relate.
