## Notes to the Financial Statements For the Year Ended 30 September 2020

#### 1. General Information

Deacon Street Partners Limited is a private company, limited by shares, incorporated in England and Wales under the Companies Act. The address of the registered office is given on the company information page.

#### 2. Accounting policies

#### 2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Section 1A of Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland and the Companies Act 2006.

The following principal accounting policies have been applied:

#### 2.2 Going concern

The directors have prepared forecasts for the period to December 2022, based on these forecasts and the current trading position of the company (which take into account the continuing impact of COVID-19) the directors conclude the company has sufficient facilities to meet its liabilities as they fall due for at least 12 months from the date of the signing of these accounts.

Accordingly, they continue to adopt the going concern basis in preparing the annual financial statements.

## 2.3 Revenue

Turnover represents sales to external customers at invoiced amounts less value added tax or local taxes on sales.

Revenue from management services is recognised as services are rendered. Revenue from interest income is recognised when receivable. Revenue from long term projects is recognised when receivable.

#### 2.4 Intangible fixed assets - long term project costs

Long term project costs represent directly attributable costs incurred in the development of certain projects which span more than one accounting period. These costs are carried forward in intangible assets until such time as the project begins to generate future economic benefits and the associated revenues and costs can be measured reliably. These costs are then amortised over the estimated economic life of the project to match against the revenues generated.

#### 2.5 Tangible fixed assets

Tangible fixed assets under the cost model, other than investment properties, are stated at historical cost less accumulated depreciation and any accumulated impairment losses. Historical cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

## Notes to the Financial Statements For the Year Ended 30 September 2020

#### 2. Accounting policies (continued)

#### 2.5 Tangible fixed assets (continued)

Depreciation is charged so as to allocate the cost of assets less their residual value over their estimated useful lives, using the straight-line method.

Depreciation is provided on the following basis:

Office equipment and furniture - 10% - 33%

The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted prospectively if appropriate, or if there is an indication of a significant change since the last reporting date

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised in profit or loss.

#### 2.6 Investment property

Investment property is carried at fair value determined annually by external valuers and derived from the current market rents and investment property yields for comparable real estate, adjusted if necessary for any difference in the nature, location or condition of the specific asset. No depreciation is provided. Changes in fair value are recognised in profit or loss.

#### 2.7 Valuation of investments

Investments in subsidiaries are measured at cost less accumulated impairment.

#### 2.8 Financial instruments

The company only enters into basic financial instrument transactions that result in the recognition of financial assets and liabilities like trade and other debtors and creditors, loans from banks and other third parties, loans to related parties.

Financial assets that are measured at cost and amortised cost are assessed at the end of each reporting period for objective evidence of impairment. If objective evidence of impairment is found, an impairment loss is recognised in the Statement of Comprehensive Income.

#### 2.9 Foreign currency translation

Foreign currency transactions are translated into sterling at the rates ruling when they occurred. Foreign currency monetary assets and liabilities are translated at the rates ruling at the balance sheet date. Any differences are taken to the profit and loss account.

#### 2.10 Pensions

#### Defined contribution pension plan

The company operates a defined contribution plan for its employees. A defined contribution plan is a pension plan under which the company pays fixed contributions into a separate entity. Once the contributions have been paid the company has no further payment obligations.

The contributions are recognised as an expense in profit or loss when they fall due. Amounts not paid are shown in accruals as a liability in the Balance Sheet. The assets of the plan are held separately from the company in independently administered funds.

#### Notes to the Financial Statements For the Year Ended 30 September 2020

#### 2. Accounting policies (continued)

#### 2.11 Interest income

Interest income is recognised in profit or loss using the effective interest method.

#### 2.12 Taxation

Tax is recognised in profit or loss except that a charge attributable to an Item of income and expense recognised as other comprehensive income or to an Item recognised directly in equity is also recognised in other comprehensive income or directly in equity respectively.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the balance sheet date in the countries where the company operates and generates income.

#### 2.13 Financial liability and equity

Financial liabilities and equity are classified according to the substance of the financial instrument's contractual obligations, rather than the financial instrument's legal form.

## 3. Judgements in applying accounting policies and key sources of estimation uncertainty

The directors have made no key judgements or estimates in preparing these financial statements.

#### 4. Turnover

The proportion of turnover that is attributable to markets outside of the UK is 44% (2019 - 93%).

## 5. Employees

The average monthly number of employees, including directors, during the year was 6 (2019 - 5).
