NOTES TO THE ABBREVIATED ACCOUNTS
for the year ended 31 December 2013**1. ACCOUNTING POLICIES****Accounting convention**

The financial statements have been prepared under the historical cost convention.

Preparation of consolidated financial statements

The financial statements contain information about BWDC Limited as an individual company and do not contain consolidated financial information as the parent of a group. The company has taken the option under Section 398 of the Companies Act 2006 not to prepare consolidated financial statements.

Financial reporting standard number 1

Exemption has been taken from preparing a cash flow statement on the grounds that the company qualifies as a small company.

Turnover

Turnover represents net invoiced sales of services, excluding value added tax.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Depreciation

Deferred development expenditure is amortised over the periods expected to benefit from the expenditure.

Going concern

The company made a loss for the year of £18,148 (2012: £31,389 loss) and has net assets of £378,989 (2012: £397,137).

Whilst the group has accumulated losses this was always anticipated as the group is going through the development stage. The group has a letter of support from group undertakings in place and is seeking external funding that will provide support to enable the group to meet its liabilities arising in the ordinary course of business as they fall due. Consequently the directors believe that the group has sufficient cash resources available to it in order to meet all its obligations as they fall due for a period of not less than twelve months from the date of approval of these financial statements and accordingly have adopted the going concern.

These financial statements do not reflect the adjustments that would be necessary were the going concern basis of preparation not to be appropriate.

Deferred development expenditure

Expenditure on the development of waste-to-energy plants is capitalised in the balance sheet as an intangible asset.
