### **NOTES TO THE ABBREVIATED ACCOUNTS for the year ended 31 March 2015**

---

#### **1. ACCOUNTING POLICIES**

##### **1.1 BASIS OF PREPARATION OF FINANCIAL STATEMENTS**

The full financial statements, from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

At the year end the company had financial funds available. There were no material uncertainties related to events or conditions that cast significant doubt on the ability of the company to continue in existence. The director believes the company is a going concern.

##### **1.2 TURNOVER**

Turnover comprises revenue recognised by the company in respect of goods and services supplied during the year, exclusive of Value Added Tax and trade discounts.

##### **1.3 INTANGIBLE FIXED ASSETS AND AMORTISATION**

Goodwill is the difference between amounts paid on the acquisition of a business and the fair value of the identifiable assets and liabilities. It is amortised to the Profit and loss account over its estimated economic life.

##### **1.4 TANGIBLE FIXED ASSETS AND DEPRECIATION**

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost of fixed assets, less their estimated residual value, over their expected useful lives on the following bases:

Office equipment	-	33.33% straight line
------------------	---	----------------------

##### **1.5 DEFERRED TAXATION**

Full provision is made for deferred tax assets and liabilities arising from all timing differences between the recognition of gains and losses in the financial statements and recognition in the tax computation.

A net deferred tax asset is recognised only if it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax assets and liabilities are calculated at the tax rates expected to be effective at the time the timing differences are expected to reverse.

Deferred tax assets and liabilities are not discounted.
