The preparation of Financial Statements in conformity with IFRS issued by the IASB as in accordance with international accounting standards requires the use of certain critical accounting estimates. Changes in accounting policy and disclosures

New and amended standards and interpretations adopted by the Company

A number of new standards and amendments to standards were effective from 1 April 2021 but they had no impact on the Company's Financial Statements. The Company did not early adopt any new or amended standards in the year ended 31 March 2022.

2 FINANCIAL RISK MANAGEMENT (CONTINUED)

(b) Fair value risk

(i) Determination of fair value hierarchy

To provide further information on the approach used to determine and measure the fair value of the assets, the following fair value hierarchy categorisation has been used:

Level 1 - Fair values measured using quoted prices (unadjusted) in active markets for identical assets and liabilities.

Level 2 - Fair values measured using inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Fair values measured using inputs that are not based on observable market data (unobservable inputs).

(ii) Fair value hierarchy for financial assets measured at amortised cost in the Statement of Financial Position

The following table analyses within the fair value hierarchy the Company's assets (by class) not measured at fair value but for which fair value is disclosed.

31 March 2022	Fair value hierarchy			Total
	Level 1	Level 2	Level 3	
	£	£	£	£
Financial assets				
Cash and cash equivalents	2	-	-	2

31 March 2021	Fair value hierarchy			Total
	Level 1	Level 2	Level 3	
	£	£	£	£
Financial assets				
Cash and cash equivalents	2	-	-	2

There were no transfers between levels 1, 2 and 3 during the year (2021: none).

The assets included in the table above are carried at amortised cost; their carrying amount is a reasonable approximation of fair value.
