1. The first part of the report is a general introduction to the subject of the study. It discusses the importance of the study and the objectives of the research. It also provides a brief overview of the methodology used in the study.

## 2. Literature Review

The literature review discusses the existing research on the subject of the study. It identifies the key findings of previous studies and discusses the gaps in the literature. It also identifies the theoretical framework used in the study and discusses the relationship between the study and the existing literature.

## 3. Methodology

### 3.1. Design

The study was designed as a quantitative study. It used a survey design to collect data from a sample of participants. The sample was selected using a random sampling method. The data was collected using a questionnaire. The questionnaire was designed to measure the variables of interest in the study. The data was then analyzed using statistical methods. The results of the study are presented in the following sections.
