Strategic Report for the Year Ended 31 January 2022

The directors present their strategic report for the year ended 31 January 2022.

Principal activity

The principal activity of the company is a holding company for a group of investments in several businesses. The underlying businesses are in a range of sectors including farming, property, hotels and advisory services. The group also has a subsidiary with operations in France.

Review of the business

During the period under review the consolidated turnover was £4.3m (2021: £3.5m) and the Group generated a loss after taxation of £2.06m (2021: profit of £2.5m).

In August 2020 Rare Bird Hotels Ltd completed a hive down of its trade and assets to a newly formed subsidiary, Rare Bird Hotels at Streatley Ltd. This subsidiary was sold on 18 September 2020 to Various Eateries Trading plc in exchange for 9,523,809 shares in that company. The group therefore realised a profit on disposal of its hotel operations of £6.8m in 2021. Farming revenues increased year on year with an increase from £622k to £713k. The business performed as expected.

The Apex Building was completed at the end of 2020. The Apex2100 International Ski Academy took up occupancy of the facility in January 2020 and now has in excess of 100 students in residence.

In the current year exchange movements resulted in a loss of £0.393m (2021: gain of £0.393m).

Strategic Report for the Year Ended 31 January 2022

Principal risks and uncertainties

The Directors are responsible for the Group's system of internal financial controls. Although no system of financial control can provide absolute assurance against material misstatement or loss, the Group's system is designed to provide reasonable assurance that problems are identified on a timely basis and dealt with appropriately.

In carrying out their responsibility the Directors have put in place a framework of controls to ensure as far as possible that ongoing financial performance is monitored in a timely manner, that corrective action is taken and that risk is identified as early as possible.

Farming risks are principally in the area of crop production and pricing. The Directors work with a specialist to assist with the management of the farm to ensure that crop production is effective. In addition the Board seeks advice regarding crop prices and market conditions to ensure an appropriate understanding and appreciation of the timing of sale to ensure best prices are obtained.

The investment in Apex has also resulted in a foreign exchange risk as Apex has been completing the development of a building in France, hence the build cost will be denominated in Euro. This is monitored by the Board and suitable hedging strategies will be implemented if considered appropriate and necessary.

The global coronavirus pandemic highlights the impact of wider risks outside of the company's control and the effects of the pandemic have continued into the year ending 31 January 2022 and likely beyond, having a direct effect on trading conditions, a wider effect on the global economy and causing restrictions on travel and hospitality. Despite the Group's exposure to the effects on the hospitality industry, the directors believe that the Group has diverse businesses in unrelated industries thereby providing a hedge against industry-specific risks caused by the pandemic, making the Group well positioned to handle these challenges.

Strategic Report for the Year Ended 31 January 2022

Financial key performance indicators

The Board monitors each business and the underlying investments on a monthly basis via the use of financial analysis, budgets and performance reviews. The Board monitors both through financial reports and discussions with management. Key financial performance indicators across all businesses are revenue, revenue growth and EBITDA which are implemented by each subsidiary.

The Board also ensures that where applicable suitable timescales and milestones are agreed and monitored. In particular these controls are used in property development and capital expenditure projects.

Approved and authorised by the Board on 27 January 2023 and signed on its behalf by:	
A P Bradshaw	
Company secretary and director	

Directors' Report for the Year Ended 31 January 2022

The directors present their report and the for the year ended 31 January 2022.

Directors of the group

The directors who held office during the year were as follows:

H E M Osmond

A P Bradshaw - Company secretary and director

Financial instruments

Objectives and policies

The Group's activities expose it to a number of financial risks including credit risk, cash flow risk and liquidity risk. The use of financial derivatives is governed by the Group's policies approved by the board of directors, which provide written principles on the use of the financial derivatives to manage these risks. The Group does not use derivative financial instruments for speculative purposes.

Price risk, credit risk, liquidity risk and cash flow risk

Cash flow risk

The Group's activities expose it primarily to the financial risks of changes in foreign currency exchange rates and interest rates. The Group does not use derivatives to hedge the risk of movements in exchange rates but monitors the position and if considered appropriate will implement suitable hedging strategies. Interest bearing assets and liabilities are held at fixed rate to ensure certainty of cash flows.

Credit risk

The Group's principal financial assets are bank balances and cash, trade and other receivables, listed investments and related party and external loans.

The Group's credit risk is primarily attributable to its trade receivables and related party loans. The amounts presented in the balance sheet are net of allowances for doubtful receivables, where appropriate. An allowance for impaiment is made where there is an identified loss event which, based on previous experience, is evidence of a reduction in the recoverability of the cash flows.

The credit risk on liquid funds is limited because the counterparties are with reputable banks with high credit-ratings assigned by international credit-rating agencies.

The Group has no significant concentration of credit risk, with exposure spread over a large number of counterparties and customers.

Liquidity risk

In order to maintain liquidity to ensure that sufficient funds are available for ongoing operations and future developments, the Group uses a mixture of long-term and short-term debt finance.

Foreign currency exchange rate risk

The Group is exposed to foreign currency exchange rate risk as a result of its foreign operations and euro denominated preference shares. The Group does not use hedging to manage its foreign exchange risk.

Directors' Report for the Year Ended 31 January 2022

Going concern

The financial statements have been prepared on a going concern basis. The directors consider this to be appropriate despite the net current liabilities of the group at the end of the reporting period.

The directors have a reasonable expectation that the group has adequate resources to continue in operational existence for the foreseeable future and continue to adopt the going concern basis in preparing the financial statements.

As stated in the post balance sheet event note, the group's Series 2 preference shares of £23,617,959 within current liabilities, and which were due for redemption on 30 September 2022, were converted into Series 3 preference shares. The Series 3 preference shares have no fixed redemption date and are redeemable at the issuer's discretion.

Separately the directors are anticipating the sale of one of the group's non-core, non-current assets. This would boost the company's liquidity, although as at the date of signing of the accounts the sale of the asset has not currently taken place. Additionally the group has received assurances that certain current liabilities will not be recalled unless the group has sufficient funds to facilitate repayment.

Important non adjusting events after the financial period

The Series 2 redeemable preference shares in Apex2100 Ltd of £23,617,959 and shown within group current liabilities were due for redemption on 30 September 2022. On this date, the shares were converted into Series 3 with no fixed redemption date and redeemable at the issuer's discretion.

Disclosure of information to the auditor

Each director has taken steps that they ought to have taken as a director in order to make themselves aware of any relevant audit information and to establish that the company's auditor is aware of that information. The directors confirm that there is no relevant information that they know of and of which they know the auditor is unaware.

A P Bradshaw		
Company secretary and director		

Approved and authorised by the Board on 27 January 2023 and signed on its behalf by:

Statement of Directors' Responsibilities

The directors acknowledge their responsibilities for preparing the Annual Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the group and the company and of the profit or loss of the group for that period. In preparing these financial statements, the directors are required to:

- · select suitable accounting policies and apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the group's and the company's transactions and disclose with reasonable accuracy at any time the financial position of the group and the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the group and the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Independent Auditor's Report to the Members of CCO Trading Limited

Opinion

We have audited the financial statements of CCO Trading Limited (the 'parent company') and its subsidiaries (the 'group') for the year ended 31 January 2022, which comprise the Consolidated Profit and Loss Account, Consolidated Statement of Comprehensive Income, Consolidated Balance Sheet, Balance Sheet, Consolidated Statement of Changes in Equity, Statement of Changes in Equity, Consolidated Statement of Cash Flows, and Notes to the Financial Statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' (United Kingdom Generally Accepted Accounting Practice).

In our opinion the financial statements:

- give a true and fair view of the state of the group's and the parent company's affairs as at 31 January 2022 and of the group's loss for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the auditor responsibilities for the audit of the financial statements section of our report. We are independent of the group in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the director's use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the group's ability to continue as a going concern for a period of at least twelve months from when the original financial statements were authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Opinion on other matter prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

Independent Auditor's Report to the Members of CCO Trading Limited

- the information given in the Strategic Report and Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the Strategic Report and Directors' Report have been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of our knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified material misstatements in the Strategic Report and the Directors' Report.

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept by the parent company, or returns adequate for our audit have not been received from branches not visited by us; or
- · the parent company financial statements are not in agreement with the accounting records and returns; or
- · certain disclosures of directors' remuneration specified by law are not made; or
- · we have not received all the information and explanations we require for our audit.

Responsibilities of directors

As explained more fully in the Statement of Directors' Responsibilities set out on page 7, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the group's and the parent company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the group or the parent company or to cease operations, or have no realistic alternative but to do so.

Auditor Responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Independent Auditor's Report to the Members of CCO Trading Limited

Detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. As such, we have considered:

- the nature of the industry and sector, control environment and business performance including the group's remuneration policies, bonus levels, and performance targets;
- the group's own assessment, including assessments made by key management, of the risks that irregularities may occur either as a result of fraud or error;
- any matters we identified having reviewed the company's policies and procedures relating to:
- identifying, evaluating and complying with laws and regulations and whether they were aware of any instances of non-compliance;
- detecting and responding to the risks of fraud and whether they have knowledge of any actual, suspected or alleged fraud; and
- the internal controls established to mitigate risks of fraud or non-compliance with laws and regulations;
- the matters discussed amongst the audit engagement team.

As a result of these procedures, we considered the opportunities and incentives that may exist within the organisation for fraud and identified the greatest potential for fraud in the areas in which management is required to exercise significant judgement, such as the disclosure of adjusting items. In common with all audits under ISAs (UK), we are also required to perform specific procedures to respond to the risk of management override.

We also obtained an understanding of the legal and regulatory framework that the company operates in, focusing on provisions of those laws and regulations that had a direct effect on the determination of material amounts and disclosures in the financial statements. The key laws and regulations we considered in this context were the Companies Act, tax legislation and regulations concerning importing and exporting to and from the UK.

There are inherent limitations in the audit procedures described above and the further removed non-compliance with laws and regulations is from the events and transactions reflected in the financial statements, the less likely we would become aware of it. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

A further description of our responsibilities is available on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Notes to the Financial Statements for the Year Ended 31 January 2022

1 General information

The company is a private company limited by share capital, incorporated in England and Wales.

The address of its registered office and principal place of business is: 23 Beaumont Mews
First Floor
London
W1G 6EN
England

These financial statements were authorised for issue by the Board on 27 January 2023.

2 Accounting policies

Summary of significant accounting policies and key accounting estimates

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Statement of compliance

These financial statements have been prepared in accordance with Financial Reporting Standard 102 Section 1A smaller entities - 'The Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland' and the Companies Act 2006 (as applicable to companies subject to the small companies' regime).

Basis of preparation

These financial statements have been prepared using the historical cost convention except that as disclosed in the accounting policies certain items are shown at fair value.

Basis of consolidation

The consolidated financial statements consolidate the financial statements of the company and its subsidiary undertakings drawn up to 31 January 2022. Where subsidiaries do not have a 31 January 2022 year end, interim figures have been prepared to this date for the purposes of the consolidation.

A subsidiary is an entity controlled by the company. Control is achieved where the company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

The results of subsidiaries acquired or disposed of during the year are included in the Profit and Loss Account from the effective date of acquisition or up to the effective date of disposal, as appropriate. Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by the group.

The purchase method of accounting is used to account for business combinations that result in the acquisition of subsidiaries by the group. The cost of a business combination is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange, plus costs directly attributable to the business combination. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. Any excess of the cost of the business combination over the acquirer's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities recognised is recorded as goodwill.

Notes to the Financial Statements for the Year Ended 31 January 2022

Inter-company transactions, balances and unrealised gains on transactions between the company and its subsidiaries, which are related parties, are eliminated in full.

Intra-group losses are also eliminated but may indicate an impairment that requires recognition in the consolidated financial statements.

Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the group. Non-controlling interests in the net assets of consolidated subsidiaries are identified separately from the group's equity therein. Non-controlling interests consist of the amount of those interests at the date of the original business combination and the non-controlling shareholder's share of changes in equity since the date of the combination.

Going concern

The financial statements have been prepared on a going concern basis. The directors consider this to be appropriate despite the net current liabilities of the group at the end of the reporting period.

The directors have a reasonable expectation that the group has adequate resources to continue in operational existence for the foreseeable future and continue to adopt the going concern basis in preparing the financial statements.

As stated in the post balance sheet event note, the group's Series 2 preference shares of £23,617,959 within current liabilities, and which were due for redemption on 30 September 2022, were converted into Series 3 preference shares. The Series 3 preference shares have no fixed redemption date and are redeemable at the issuer's discretion.

Separately the directors are anticipating the sale of one of the group's non-core, non-current assets. This would boost the company's liquidity.

Additionally the group has received assurances that certain current liabilities will not be recalled unless the group has sufficient funds to facilitate repayment.

Notes to the Financial Statements for the Year Ended 31 January 2022

Judgements

Financial instruments classification - The classification of financial instruments as 'basic' or 'other' requires judgment as to whether all the applicable conditions for classification as basic are met. This includes consideration of the form of the instrument and its return.

Impairment of goodwill - Determining whether goodwill is impaired requires an estimation of the value in use of the cash generating units (CGU) to which goodwill has been allocated. The value in use calculation requires the Group to estimate the future cash flows expected to arise from the CGU and apply a suitable discount rate in order to calculate the present value. The carrying amount of £89,392 (2021: £134,030) is shown in the intangible assets note.

Impairment of investments - Determining whether investments in the parent company are impaired requires an estimation of the value in use of cash generating units (CGU) to which the investments are allocated. The value in use calculation requires the Company to estimate future cash flows expected to arise from the CGU and apply a suitable discount rate in order to calculate the present value. The carrying amount of £9,266,788 (2021: £9,250,204) is shown in the investments note.

Impairment of tangible fixed assets - Determining whether tangible fixed assets are impaired requires an estimation of the value in use of cash generating units (CGU) to which the investments are allocated. The value in use calculation requires the Company to estimate future cash flows expected to arise from the CGU and apply a suitable discount rate in order to calculate the present value. The carrying amount of £12,886,415 (2021: £53,334,584) is shown in the tangible assets note.

Impairment of amounts owed by related undertakings - Determining whether amounts owed by related undertakings to the group and by group undertakings to the parent company requires judgment to be made by the directors in respect of the recoverability of those amounts. An assessment is made by the Group of the ability of these undertakings to repay the amounts due and a provision is made where appropriate. The carrying amount of these debtors is disclosed in note 19. An impairment provision of nil (2021: £nil) has been made against these debtors.

Notes to the Financial Statements for the Year Ended 31 January 2022

Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. Revenue is measured as the fair value of the consideration received or receivable, excluding discounts, rebates, Value Added Tax and other sales taxes.

Revenue comprises sales recognised by the Group in respect of goods and services supplied during the year, exclusive of Value Added Tax and trade discounts. In respect of the different trades undertaken by the Group, this includes:

Revenue in relation to goods and services supplied in the normal course of operations of a hotel business (excluding Value Added Tax). Income from the ownership and operation of hotels is recognised at the point at which the accomodation and related services are provided.

Revenue from farming activities is recognised when the sale of produce occurs.

Revenue from school fees and consultancy are recognised at the point at which services are provided.

Revenue additionally comprises sales recognised by the Group in respect of the sale of completed property development.

Rental income, exclusive of Value Added Tax, is recognised on a receivable basis.

Foreign currency transactions and balances

Transactions in foreign currencies are initially recorded at the functional currency rate prevailing at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated into the respective functional currency of the entity at the rates prevailing on the reporting period date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rate on the date when the fair value is re-measured.

Non-monetary items measured in terms of historical cost in a foreign currency are not retranslated but stated at the exchange rate prevailing at the date of teh transaction.

Foreign exchange gains and losses resulting from the settlement of transactions and from the translation at period ended exchange rates in relation to monetary assets and liabilities denominated in foreign currencies are recognised in the income statement.

The results of overseas operations are translated at the average rates of exchange during the period and their balance sheets at the rates ruling at the balance sheet date. Exchange differences arising on translation of the opening net assets and results of overseas operations are reported in other comprensive income and accumulated in equity.

Tax

The tax expense for the period comprises current tax payable.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting date in the countries where the group operates and generates taxable income.

Deferred tax is recognised in respect of all timing differences between taxable profits and profits reported in the consolidated financial statements.

Unrelieved tax losses and other deferred tax assets are recognised when it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the reporting date and that are expected to apply to the reversal of the timing difference, except for revalued land and investment property where the tax rate that applies to the sale of the asset is used.

Notes to the Financial Statements for the Year Ended 31 January 2022

Tangible assets

Tangible assets are stated in the balance sheet at cost, less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

The cost of tangible assets includes directly attributable incremental costs incurred in their acquisition and installation.

Depreciation

Depreciation is charged so as to write off the cost of assets, other than land and properties under construction over their estimated useful lives, as follows:

Asset class
Freehold property
Leasehold improvements
Plant & machinery
Motor vehicles
Fixtures & fittings
Office equipment

2% straight line Over 15 years 20% straight line

Depreciation method and rate

25% reducing balance 20% reducing balance 25% reducing balance 20-25% reducing balance

Computer equipment Investment property

Investment property is carried at fair value determined annually by the directors and derived from the current market rents and investment property yields for comparable real estate, adjusted if necessary for any difference in the nature, location or condition of the specific asset. No depreciation is provided. Changes in fair value are recognised in profit or loss.

Business combinations

Business combinations are accounted for using the purchase method. The consideration for each acquisition is measured at the aggregate of the fair values at acquisition date of assets given, liabilities incurred or assumed, and equity instruments issued by the group in exchange for control of the acquired, plus any costs directly attributable to the business combination. When a business combination agreement provides for an adjustment to the cost of the combination contingent on future events, the group includes the estimated amount of that adjustment in the cost of the combination at the acquisition date if the adjustment is probable and can be measured reliably.

Goodwill

Goodwill arising on the acquisition of an entity represents the excess of the cost of acquisition over the group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities of the entity recognised at the date of acquisition. Goodwill is initially recognised as an asset at cost and is subsequently measured at cost less accumulated amortisation and accumulated impairment losses. Goodwill is held in the currency of the acquired entity and revalued to the closing rate at each reporting period date. Goodwill is amortised over its useful life, which shall not exceed ten years if a reliable estimate of the useful life cannot be made.

Intangible assets

Separately acquired trademarks and licences are shown at historical cost.

Trademarks, licences (including software) and customer-related intangible assets acquired in a business combination are recognised at fair value at the acquisition date.

Trademarks, licences and customer-related intangible assets have a finite useful life and are carried at cost less accumulated amortisation and any accumulated impairment losses.

Notes to the Financial Statements for the Year Ended 31 January 2022

Amortisation

Amortisation is provided on intangible assets so as to write off the cost, less any estimated residual value, over their useful life as follows:

Asset class Amortisation method and rate

Goodwill 10% straight line
Website costs and patents 20% straight line
Internally generated software development costs 20% straight line
Other intangible assets 20% straight line

Investments

Investments in equity shares which are publicly traded or where the fair value can be measured reliably are initially measured at fair value, with changes in fair value recognised in profit or loss. Investments in equity shares which are not publicly traded and where fair value cannot be measured reliably are measured at cost less impairment.

Interest income on debt securities, where applicable, is recognised in income using the effective interest method. Dividends on equity securities are recognised in income when receivable.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and call deposits, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of change in value.

Trade debtors

Trade debtors are amounts due from customers for merchandise sold or services performed in the ordinary course of business.

Stocks

Stocks are stated at the lower of cost and net realisable value, being the estimated selling price less costs to complete and sell. Cost is based on the cost of purchase on a first in, first out basis. Work in progress and finished goods include labour and attributable overheads.

Stocks which are agricultural assets are valued at the lower of cost and net realisable value after due allowances for obsolete and slow-moving items. Cost includes all direct costs and an appropriate proportion of fixed and variable overheads.

Trade creditors

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers.

Borrowings

Interest-bearing borrowings are initially recorded at fair value, net of transaction costs. Interest-bearing borrowings are subsequently carried at amortised cost, with the difference between the proceeds, net of transaction costs, and the amount due on redemption being recognised as a charge to the Profit and Loss Account over the period of the relevant borrowing. Interest expense is recognised on the basis of the effective interest method and is included in interest payable and similar charges.

Borrowings are classified as current liabilities unless the group has an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.

Notes to the Financial Statements for the Year Ended 31 January 2022

Share capital

Ordinary shares are classified as equity. Equity instruments are measured at the fair value of the cash or other resources received or receivable, net of the direct costs of issuing the equity instruments. If payment is deferred and the time value of money is material, the initial measurement is on a present value basis.

Defined contribution pension obligation

A defined contribution plan is a pension plan under which fixed contributions are paid into a pension fund and the group has no legal or constructive obligation to pay further contributions even if the fund does not hold sufficient assets to pay all employees the benefits relating to employee service in the current and prior periods.

Contributions to defined contribution plans are recognised as employee benefit expense when they are due. If contribution payments exceed the contribution due for service, the excess is recognised as a prepayment.

Financial instruments

Classification

The Group's financial instruments comprise trade and other debtors, cash and cash equivalents, bank overdrafts, trade and other creditors, loans from banks and other third parties, loans to and from related parties, investments in non-puttable ordinary shares and preference shares classified as debt.

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instrument.

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities.

Recognition and measurement

All financial assets and liabilities are initially measured at transaction price (including transaction costs), except for those financial assets classified as at fair value through profit or loss, which are initially measured at fair value, unless the arrangement constitutes a financing transaction. A financing transaction may arise where payment is deferred beyond normal business terms or financed at a rate of interest that is not a market rate. If an arrangement constitutes a financing transaction, the financial asset or financial liability is measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Financial assets and liabilities are only offset in the statement of financial position when, and only when there exists a legally enforceable right to set off the recognised amounts and the Group intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Notes to the Financial Statements for the Year Ended 31 January 2022

Debt instruments which meet the conditions of being 'basic' financial instruments as defined in FRS 102.11.9 are subsequently measured at amortised cost using the effective interest method.

Debt instruments that have no stated interest rate (and do not constitute a financing transaction) and are classified as payable or receivable within one year are initially measured at an undiscounted amount of the cash or other consideration expected to be paid or received, net of impairment.

Financial assets are derecognised when, and only when (a) the contractual rights to the cash flows from the financial asset expire or are settled, (b) the Group transfers to another party substantially all of the risks and rewards of ownership of the financial asset, or (c) the Group, despite having retained some, but not all, significant risks and rewards of ownership, has transferred control of the asset to another party.

Financial liabilities are derecognised only when the obligation specified in the contract is discharged, cancelled or expires.

3 Revenue

The analysis of the group's revenue for the year is as follows:

	2022	2021
	£	£
Hotel and related services	•	764,918
Farming	713,321	621,743
Rental income	722,730	361,679
School fees and sponsorship	1,220,176	699,584
Consultancy	1,624,337	1,052,568
	4,280,564	3,500,492

4 Other operating income

The analysis of the group's other operating income for the year is as follows:

	2022 £	2021 £
Management services	39,230	(21,638)
Other operating income	-	72,795
Job Retention Scheme income	<u> </u>	147,697
	39,230	198,854

Following the hive down of the trade and assets of Rare Bird Hotels Ltd and entering into a new lease outside of the group (as detailed in note 14), the directors consider that property rental now represents a significant element of the group's operations and should consequently be recognised within turnover.

5 Other gains and losses

The analysis of the group's other gains and losses for the year is as follows:

	2022	2021
	t	L
Gain (loss) on disposal of tangible fixed assets	2,774	•
Gain (loss) from disposal of business segments and investments		6,809,081
	2,774	6,809,081

Notes to the Financial Statements for the Year Ended 31 January 2022

25 Reserves

Group

Share premium account

The share premium account is used to record the aggregate amount or value of premiums paid when the company's shares are issued at an amount in excess of nominal value.

Foreign exchange reserve

The foreign exchange reserve arises from the translation of the Group's net investment in its overseas operations.

Investment property revaluation reserve

The investment property revaluation reserve is used to record the difference between the depreciated historic cost of investment property and the fair value at the balance sheet date, net of related deferred taxation.

Merger reserve

The merger reserve arose from the acquisition of the subsidiary Devonshire Place Holdings Limited in 2014, which was acquired by CCO Trading Limited in a share for share exchange.

Profit & loss account

This reserve relates to cumulative retained earnings less amounts distributed to shareholders.
