Basis of preparing the financial statements

These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" including the provisions of Section 1A "Small Entities" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

The company continues to receive financial support from related companies within its group and will do so for at least the next 12 months from the date of signing these accounts. Additionally the director continues to seek out new business. Therefore despite the net current liabilities position of the company the director considers it appropriate to prepare these financial statements on a going concern basis.

Turnover

Turnover represents net invoiced sales of goods and services, excluding Value Added Tax.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Taxation

Taxation for the year comprises current and deferred tax. Tax is recognised in the Income Statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Emphasis of Matter

Without modifying our opinion in respect of this matter, we draw attention to the financial statements which indicates that as of the 31 December 2018, the Company's current liabilities exceeded its total assets by £284,011. These events or conditions, along with other matters as set forth in Note 2, basis of preparation, indicate that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern.
