For the year ending 30 September 2015 the company was entitled to exemption from audit under section 477 of the Companies Act 2006 relating to small companies.

The members have not required the company to obtain an audit in accordance with section 476 of the Companies Act 2006.

The directors acknowledge their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of accounts.

These accounts have been prepared in accordance with the provisions applicable to companies subject to the small companies regime and in accordance with the Financial Reporting Standard for Smaller Entities (effective 2008).

Approved by the Board on 3 June 2016 and signed on its behalf by:

P J Goodes
Director

The notes on pages 2 to 3 form an integral part of these financial statements.

1 Accounting policies

Basis of preparation

The full financial statements, from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (Effective April 2008).

Turnover

The company recognises revenue on an accruals basis, net of value added tax, when the amount of revenue can be reliably measured and it is probable that future economic benefits will flow to the company. Revenue comprises rental income from tenants of the company's investment property. Rental income from investment property leased out under an operating lease is recognised in the income statement on a straight line basis over the term of the lease.

Investment properties

Certain of the company's properties are held for long-term investment. Investment properties are accounted for in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008). This treatment as regards the company's investment properties may be a departure from the requirements of the Companies Act concerning the depreciation of fixed assets. However, these properties are not held for consumption but for investment and the directors consider that systematic annual depreciation would be inappropriate. The accounting policy adopted is therefore necessary for the financial statements to give a true and fair view. Depreciation or amortisation is only one of many factors reflected in the annual valuation and the amount which might otherwise have been shown cannot be separately identified or quantified.

Work in progress

Work in progress is valued at the lower of cost and net realisable value.

Deferred tax

Where material, deferred tax is recognised in respect of timing differences that have originated but not reversed by the balance sheet date. Deferred tax balances are not discounted.

Hire purchase and leasing

Assets held for use in operating leases are included within fixed assets at open market value. Rental income from operating leases is recognised on a straight line basis over the term of the lease.

Financial instruments

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities. Where shares are issued, any component that creates a financial liability of the company is presented as a liability in the balance sheet. The corresponding dividends relating to the liability component are charged as interest expense in the profit and loss account.
