Directors' Report For the year ended 31 March 2015

The directors present their report and the financial statements for the year ended 31 March 2015.

Results

The profit for the year, after taxation, amounted to £6,881,738 (2014 - £4,253,269).

Directors

The directors who served during the year were:

J R Clark M W Cooper A M Smith M J Sweetland

Directors' responsibilities statement

The directors are responsible for preparing the Group strategic report, the Directors' report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and the group and of the profit or loss of the group for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the group will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and the group and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and the group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Directors' Report For the year ended 31 March 2015

Donations

The group made donations totalling £83,732 (2014: £71,500) during the year.

Matters included in the Strategic Report

The business review and financial risk management, and objectives and policies have been included in the Strategic report.

Employee welfare

The group employs people from the communities it serves and aims to be the employer of choice within its market sector. The group aims to attract, select, recruit and retain top quality employees based only on their ability and aptitude through a number of people policies. These policies include offering upper-quartile rates of pay (compared with the market), excellent benefits and training and development opportunities for employees, reflecting the company's values and culture.

These benefits include:

- Pension scheme available to all staff
- Life insurance available for all staff
- Childcare vouchers
- Market-leading bonus and commission schemes where appropriate
- · Family Friendly Policies which include an enhanced Maternity Policy and enhanced Paternity Policy
- Performance related pay based on annual reviews for all staff.

Recruitment

Through its ongoing recruitment for new and existing stores, the group recruits within local communities through local recruitment campaigns including via Job Centre Plus. The group also seeks to develop opportunities to provide employment to young people who have been disadvantaged in some way through its involvement with The Prince's Trust and CREATE UK Limited.

Training and development

A structured induction training programme is in place which is regularly reviewed with regard to its relevance and quality. This programme ensures that all new employees receive timely and effective induction training, including both hard and soft skills.

Employees are encouraged to develop their skills through National Vocational Qualifications (NVQs). These offer employees an opportunity to be awarded with a qualification relevant to the role they perform.

The group recognises internal talent by offering future promotion through an internal development programme, called 'Next Generation'. To be eligible for this programme, employees must meet and fulfil certain criteria. Perfect Home also runs its own Management Development Programme. This programme concentrates on delivering training to enhance the knowledge of all Line Managers in such areas as HR, managing people, managing performance and coaching.

Employee consultation

The group has continued its practice of keeping employees informed of matters affecting them as employees and the financial and economic factors affecting the performance of the group.

Directors' Report

For the year ended 31 March 2015

Health & safety

The group recognises its obligations under the Health and Safety at Work Act 1974 and other relevant legislation and has a full programme of risk assessment and risk management activities, overseen by its designated Compliance Manager, to ensure that these are met

Disabled employees

Applications for employment by disabled persons are given full and fair consideration for all vacancies in accordance with their particular aptitudes and abilities. In the event of employees becoming disabled, every effort is made to retrain them in order that their employment with the group may continue.

Community involvement

The group sells household electronics, appliances and furniture to all sections of the community and seeks to provide financing arrangements which can be adapted to all potential customers, whatever their circumstances, to facilitate these purchases. The group aims not to exclude any section of the community from the opportunity of becoming a customer, and in line with this philosophy, has sought to engage with charitable organisations which seek to assist some of the more disadvantaged members of the community and provide opportunities for them to lead more fulfilling lives. The group is therefore pleased to be associated with The Prince's Trust and CREATE UK Limited.

The group is a member of The Retail Leadership Group of The Prince's Trust, the country's leading Youth charity. This involves a financial commitment over a number of years, supplemented by the development of work experience placements and the provision of employment opportunities to assist the Trust in its work with disadvantaged young people.

CREATE UK Limited is a charitable company whose objectives include the recycling and reuse of end-of-life appliances and the training of long-term unemployed adults within the context of a meaningful, paid employment. CREATE has worked with over 1,150 trainees over the years, specialising with those with the most challenging needs. Perfect Home provides financial support to its operations. This has allowed CREATE to develop its activities which will generate training and employment opportunities for the future.

Disclosure of information to auditor

Each of the persons who are directors at the time when this Directors' report is approved has confirmed that:

- so far as that director is aware, there is no relevant audit information of which the company and the group's auditor is unaware, and
- that director has taken all the steps that ought to have been taken as a director in order to be aware of any relevant audit information and to establish that the company and the group's auditor is aware of that information.

Directors' Report For the year ended 31 March 2015

Auditor

The auditor, Grant Thornton UK LLP, will be proposed for reappointment in accordance with section 485 of the Companies Act 2006.

This report was approved by the board on 1 July 2015 and signed on its behalf.

A M Smith

Director

Group Strategic Report For the year ended 31 March 2015

Introduction

The directors present their strategic report for the year ended 31 March 2015.

The strategic objective of the Group is to continue to expand its business through new store openings where appropriate, and through direct channels in those parts of the country where the Group has no physical store presence.

Principal activities

The principal activity of the company during the year was that of a holding company.

The principal activities of the Group during the year were the sale of home furniture, appliances and other products to domestic customers on hire purchase agreements and the provision of related services, maintenance and other financing agreements.

Business review

The directors are pleased to report a profit before taxation of £7,291,263 (2014: £4,455,790). Underlying operating profit in the year was £9,162,018 (2014: £6,104,266). The increase in operating profit was caused by the effect of new stores opened in prior years now contributing to profit. Losses were also reduced through the sale of non-performing assets to a debt collection agency. The Group's main operating subsidiaries are in the process of applying for full authorisation from its regulator, the Financial Conduct Authority (FCA). Various changes to their operating models have been made which it is expected will protect the Group in the long run and improve its long-run profitability.

Key performance indicators

Customer contract numbers

Turnover is driven by the number of customers and customer HP agreements. The strategy outlined above reflects the drive to grow the customer base and the number of customer agreements. Customer agreement numbers have grown by 13.5% from 128,945 in 2013/14 to 146,302 in 2014/15. Turnover (including interest on hire purchase contracts) has also improved in the year, demonstrating the success of this policy, and will rise further as the new web strategy is rolled out in the course of the next year.

New stores

The business opened 3 new stores in 2014/15 compared to 8 in 2013/14. The business intends to open more stores in the coming year. The Group intends to continue to develop its new store base and also to expand its geographical coverage through the launch of a fully transactional website. It is expected that the Group's multi-channel strategy will allow more rapid growth at lower cost, delivering a more flexible service and better value to customers along with an improved return on investment for shareholders. A further three stores have been opened so far in the new year.

Bad debts

The group seeks at all times to manage its arrears process with the intention of returning the customer to a successful payment profile. This effective focus on customer retention has enabled bad debt to be kept within acceptable levels.

At 31 March 2015 the arrears percentage stood at 6.35% of four weekly dues, compared to 5.33% in the previous year. The arrears percentage is calculated by reference to the actual weekly payments outstanding in the last week of the year divided by the contractual dues. This increase in arrears is due to the expansion of the Group's suite of forbearance options, which is expected to allow a greater number of customers to get to the end of their hire purchase agreements and therefore to acquire final ownership of their product. The short term impact is of a slightly elevated level of arrears.

Group Strategic Report (continued) For the year ended 31 March 2015

Financial risk management objectives and policies

The group's principal financial instruments comprise cash at bank, revolving credit facilities, finance lease and hire purchase arrangements and other loans. The main purpose of these financial instruments is to raise finance for the group's operations. The group has various other financial instruments such as amounts receivable from hire purchase contracts and trade creditors which arise directly from its operations. The group does not enter into derivative transactions.

It is, and has been throughout the year under review, the group's policy that no trading in financial instruments shall be undertaken. The main risks arising from the group's financial instruments are liquidity risk, interest rate risk, credit risk and currency risk.

Liquidity risk

The group seeks to manage financial risk by ensuring sufficient liquidity is available to meet foreseeable needs and to invest cash assets safely and profitably.

The group's objective is to maintain a balance between continuity of funding and flexibility through the use of its various financial instruments.

Interest rate risk

The group finances its operations through borrowings with certain interest charges being rolled up into debt. The group's exposure to interest rate fluctuations on its borrowings is managed by the use of both fixed and floating facilities.

Credit risk

The group makes sales to customers on finance and loan agreements on the basis of a clear and tested evaluation process. This process is refined from time to time to make use of all available data.

This report was approved by the board on 1 July 2015 and signed on its behalf.

A M Smith Director

Independent Auditor's Report to the Members of Perfect Home Holdings Limited

We have audited the financial statements of Perfect Home Holdings Limited for the year ended 31 March 2015, which comprise the consolidated profit and loss account, the consolidated and company balance sheets, the consolidated cash flow statement and the related notes. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an Auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditor

As explained more fully in the Directors' responsibilities statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's (APB's) Ethical Standards for Auditors.

Scope of the audit of the financial statements

A description of the scope of an audit of financial statements is provided on the Financial Reporting Council's website at www.frc.org.uk/auditscopeukprivate.

Opinion on financial statements

In our opinion the financial statements:

- give a true and fair view of the state of the group's and of the parent company's affairs as at 31 March 2015 and of the group's profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice;
 and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Opinion on other matter prescribed by the Companies Act 2006

In our opinion the information given in the Group strategic report and the Directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements.

Independent Auditor's Report to the Members of Perfect Home Holdings Limited

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept by the parent company, or returns adequate for our audit have not been received from branches not visited by us; or
- the parent company financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

The notes on pages 13 to 29 form part of these financial statements.

Notes to the Financial Statements

For the year ended 31 March 2015

1. Accounting Policies

1.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention and in accordance with applicable accounting standards.

1.2 Going concern

The Perfect Home Holdings group has in place loan facilities from a previous shareholder of £10 million. Since the year end this facility was renegotiated and is now due for repayment on 30 June 2016. In addition, the group has a facility with Burdale Financial Limited of £15m which at the year end was repayable in July 2015. Subsequently, this has been renegotiated to £16m, rising to £20m and is repayable on 31 July 2018. The directors have prepared group forecasts for the period ended 30 June 2016 which show that these facilities are sufficient to support the group's current business plan for the next 12 months.

1.3 Basis of consolidation

The financial statements consolidate the accounts of Perfect Home Holdings Limited and all of its subsidiary undertakings ('subsidiaries').

1.4 Related party transactions

The company has taken advantage of the exemption in FRS 8 from disclosing transactions with members of the group that are wholly owned.

For the year ended 31 March 2015

1. Accounting Policies (continued)

1.5 Turnover

Turnover comprises revenue recognised by the company in respect of goods and services supplied during the year, exclusive of Value Added Tax and trade discounts.

Sale of goods

In accordance with SSAP 21 paragraph 45 the group is deemed to be a "dealer". Accordingly, turnover relating to the sale of product is recognised on delivery rather than the inception of the hire purchase contract.

Revenue from the sale of goods is recognised when the significant risks and benefits of ownership have been transferred to the buyer, which is taken to be on delivery. An assessment is made of the likelihood of customers returning goods and a provision is made against sales to reflect the likely diminution in turnover caused by such returns.

The profit relating to the sale of goods is restricted to the excess of the fair value of the asset over the cost of that asset to the group.

Extended warranties, service agreements and insurance

Goods sold to customers by the company are usually under hire purchase contracts and often in conjunction with service agreements (such as Coverplus or PerfectCare) and extended warranties. Service agreements and extended warranties are sold under fixed sum loan agreements.

Income relating to extended warranties and service agreements is recognised to allocate earnings evenly over the period of the contract. Insurance policies are recognised over the term of the lease.

Interest receivable under hire purchase contracts

Hire purchase agreements enable the customer to acquire title though a purchase option after payment of all required payments. The directors believe that, at the point of the initial sale, it is the intention of both the group and the customer that the customer should acquire ownership of the goods sold. Previously whilst the Coverplus service agreements entered in to with customers technically enabled customers to return goods without penalty under certain conditions, these conditions are often not satisfied and the agreements are rarely utilised for this purpose. In the current year the company replaced the Coverplus warranties with PerfectCare which has no right to return. The customer therefore retains substantially all the risks and rewards of ownership. Accordingly, agreements entered into are treated as hire purchase contracts.

Interest under hire purchase contracts is allocated to accounting periods so as to give a constant periodic rate of return on the group's net cash investment in the lease in each period.

For the year ended 31 March 2015

1. Accounting Policies (continued)

1.6 Net investment in hire purchase contracts and fixed sum loan agreements

Amounts due to the group as a lessor are the net investment in hire purchase contracts and fixed sum loan agreements (defined as the gross investment in the lease less gross earnings allocated to future periods). The gross investment in the lease comprises the total of the minimum lease payments and any unguaranteed residual values. The group makes provisions such that the unguaranteed residual value represents the amount expected to be recovered.

The fixed sum loans are agreements with customers in respect of services such as Coverplus. The year end disclosure of the amounts receivable under loan agreements is calculated by reference to the original product and service cover values.

Bad and doubtful debts provisions are calculated to reduce the value of the debtor book, which includes the net investments in hire purchase contracts and fixed sum loan agreements, to that which it is estimated will be recoverable over the life of the agreements, taking into account current and likely future default rates.

1.7 Other reserves

Where share capital is issued by the company in satisfaction of debt held by a subsidiary, the transaction is treated as a capital contribution, and the investment in the associated subsidiary increased by the fair value of the debt satisfied, with the other side of the entry made to 'other reserves'.

1.8 Investments

Investments in subsidiary undertakings are stated at cost less amounts written off.

1.9 Deep discount bonds

The discount from the nominal value on the issue of bonds is charged to the profit and loss account over the life of the investment to the earliest date that holders may redeem their bonds. The unwinding of the discount is shown within net interest.

1.10 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost of fixed assets, less their estimated residual value, over their expected useful lives on the following bases:

Leasehold improvements - 20% straight line
Plant and equipment - 20% straight line
Motor vehicles - 33% straight line
Fixtures and fittings - 20% straight line

Fixed assets are tested for impairment if events or changes in circumstances, assessed at each reporting date, indicate that the carrying amount may not be recoverable.

For the year ended 31 March 2015

1. Accounting Policies (continued)

1.11 Capital incentives

The treatment of capital contributions received from lessors in respect of leased properties is determined in accordance with UITF 28 'Operating lease incentives' and by the nature of the expenditure which is reimbursed by the contribution. Contributions towards fixtures, fittings and similar items which benefit the group but do not enhance the overall value of the property such that no benefit flows to the lessor are treated as lease incentives. The benefit to the group is spread over the period to the first rent review on a straight line basis. Contributions that enhance the value of the property are treated as a reimbursement of fixed asset expenditure and are recognised in accordance with the fixed asset category of the asset in respect of which the contribution has been received.

1.12 Stocks

Stocks are valued at the lower of cost and net realisable value after making due allowance for obsolete and slow-moving stocks. Cost includes all direct costs and an appropriate proportion of fixed and variable overheads.

1.13 Foreign currencies

Monetary assets and liabilities denominated in foreign currencies are translated into sterling at rates of exchange ruling at the balance sheet date.

Transactions in foreign currencies are translated into sterling at the rate ruling on the date of the transaction.

Exchange gains and losses are recognised in the profit and loss account.

1.14 Operating leases

Rentals under operating leases are charged to the profit and loss account on a straight line basis over the lease term.

Benefits received and receivable as an incentive to sign an operating lease are recognised on a straight line basis over the period until the date the rent is expected to be adjusted to the prevailing market rate.

1.15 Dilapidations

The directors review the stores on an annual basis and assess whether it is likely that any stores will be closed in the next twelve months on operational grounds. The group includes a provision based on the estimated liabilities arising under dilapidations clauses for any leased properties selected for closure. All other properties are considered to be in a better condition than that prevailing at the inception of the lease and in these cases the group will not include a provision.

For the year ended 31 March 2015

1. Accounting Policies (continued)

1.16 Leasing and hire purchase

Assets obtained under hire purchase contracts and finance leases are capitalised as tangible fixed assets. Assets acquired by finance lease are depreciated over the shorter of the lease term and their useful lives. Assets acquired by hire purchase are depreciated over their useful lives. Finance leases are those where substantially all of the benefits and risks of ownership are assumed by the company. Obligations under such agreements are included in creditors net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the Profit and loss account so as to produce a constant periodic rate of charge on the net obligation outstanding in each period.

1.17 Pensions

The group operates a defined contribution pension scheme and the pension charge represents the amounts payable by the group to the fund in respect of the year.

1.18 Deferred taxation

Full provision is made for deferred tax assets and liabilities arising from all timing differences between the recognition of gains and losses in the financial statements and recognition in the tax computation.

A net deferred tax asset is recognised only if it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax assets and liabilities are calculated at the tax rates expected to be effective at the time the timing differences are expected to reverse.

Deferred tax assets and liabilities are not discounted.

1.19 Financial instruments

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the entity after deducting all of its financial liabilities.

Where the contractual obligations of financial instruments (including share capital) are equivalent to a similar debt instrument, those financial instruments are classed as financial liabilities. Financial liabilities are presented as such in the balance sheet. Finance costs and gains or losses relating to financial liabilities are included in the profit and loss account. Finance costs are calculated so as to produce a constant rate of return on the outstanding liability.

Where the contractual terms of share capital do not have any terms meeting the definition of a financial liability then this is classed as an equity instrument. Dividends and distributions relating to equity instruments are debited direct to equity.

Notes to the Financial Statements

For the year ended 31 March 2015

1. Accounting Policies (continued)

1.20 Cash

Included within cash is £2,019,043 (2014: £1,773,619) held in the group's captive entity in Malta (see Note 9) to cover theft and accidental damage ('TAD') claims under TAD insurance policies held by customers, and as such is not available to the group to fund day-to-day working capital requirements.

1.21 Loan arrangement fees

Loan arrangement fees are deferred in the balance sheet against the borrowings to which they relate and are released on a straight line basis to the profit and loss account over the period of borrowing.

2. Turnover

An analysis of turnover by location is as follows:

	2015	2014
UK Malta	81,722,894 8,391,932	75,755,324 6,980,081
	90,114,826	82,735,405

3. Operating profit

The operating profit is stated after charging:

	2015	2014
	£	£
Depreciation of tangible fixed assets:		
- owned by the group	1,537,294	1,494,743
- held under finance leases	142,690	117,584
Auditor's remuneration	45,700	44,800
Auditor's remuneration - non-audit	276,070	232,673
Operating lease rentals:		
- plant and machinery	1,312,964	1,129,592
- other operating leases	5,070,732	4,719,562

Notes to the Financial Statements

For the year ended 31 March 2015

4. Particulars of employees

Staff costs were as follows:

		2015	2014
	Wages and salaries Social security costs Other pension costs	£ 17,133,673 1,728,306 275,814	£ 15,353,275 1,411,536 126,661
		19,137,793	16,891,472
	The average monthly number of employees, including the directors, du	ring the year was as fo	llows:
		2015 No.	2014 No.
	Warehouse and distribution Store staff Admin staff	119 507 49	125 508 45
		675	678
5.	Directors' remuneration		
		2015 £	2014 £
	Remuneration	991,010	966,824
	Company pension contributions to defined contribution pension schemes	61,105	59,039

During the year retirement benefits were accruing to 3 directors (2014 - 3) in respect of defined contribution pension schemes.

The highest paid director received remuneration of £368,094 (2014 - £359,180)

The value of the company's contributions to a defined contribution pension scheme in respect of the highest paid director amounted to £22,765 (2014 - £21,995)

Notes to the Financial Statements

For the year ended 31 March 2015

6. Interest payable and similar charges

		2015 £	2014 £,
	Loan issue costs	-	65,988
	On finance leases and hire purchase contracts	26,811	22,490
	Loan interest	1,846,419	1,562,310
		1,873,230	1,650,788
7.	Tax on loss on ordinary activities		
		2015	2014
		£	£
	Overseas tax (Malta)	409,525	202,521
	,		

Factors affecting tax charge for the year

The tax assessed for the year is lower than (2014 - lower than) the standard rate of corporation tax in the UK of 23% (2014 - 23%). The differences are explained below:

	2015 £	2014 £
Profit on ordinary activities before tax	7,291,263	4,455,790
Profit on ordinary activities multiplied by standard rate of corporation tax in the UK of 23% (2014 - 23%)	1,676,990	1,024,832
Effects of:		
Tax losses utilised	(1,267,465)	(822,311)
Current tax charge for the year (see note above)	409,525	202,521

Factors that may affect future tax charges

The group has taxation losses of approximately £27,156,156 (2014: £30,440,572) to carry forward against future profits. A deferred taxation asset of £4,000,000 has been provided in respect of these losses. Remaining losses have not been provided for as the directors believe that the amount that will be utilised in the foreseeable future cannot be estimated with any degree of certainty.

Notes to the Financial Statements For the year ended 31 March 2015

After more than 5 years	2,667,223	2,033,359	<u> </u>	

17. Capital commitments

The company had no capital commitments at 31 March 2015 or March 2014.

Notes to the Financial Statements

For the year ended 31 March 2015

18. Related party transactions

The group had no outstanding loan balances with directors in the current or prior year.

19. Share capital

•	2015	2014
	£	£
Allotted, called up and fully paid		
95,810,968 A ordinary shares of £0.0001 each	958	958
66,670,000 B ordinary shares of £0.0001 each	667	667
4,190,043 C ordinary shares of £0.0001 each	42	42
12,995,000 D ordinary shares of £0.0001 each	-	130
	1,667	1,797
		···.

Dividends

The B ordinary shares are not entitled to a dividend until certain conditions included in the memorandum of association are met.

Return of capital and realisation

In the event of a winding up of the company or a realisation, the surplus assets or proceeds of realisation are first applied to pay the holders of A and C ordinary shares amounts paid up on the shares plus any arrears of dividends. Secondly, the holders of A and C ordinary shares shall receive the first return target (as defined by the company's articles of association). In the event that the holders of A and C ordinary receive an amount less than the first return target, the holders of B ordinary shares receive 1p but have no rights to any further distributions. Once the holders of A and C ordinary shares receive an amount equal to the first return target, the assets will be distributed to all shareholders in line with the distribution matrix included in the memorandum of association.

Voting rights

The holders of A and C ordinary shares are entitled to attend and vote at general meetings of the company. The holders of the C ordinary shares receive 6 votes for every share held. The holders of B ordinary shares are entitled to attend general meetings but do not have any voting rights.

Share buyback in May 2014

During the year the D shares held by Aaron's Inc. were relinquished by way of a capital reduction at par and were subsequently cancelled.

Notes to the Financial Statements

Net debt	(18,994,750)	(441,214)	(142,783)	(19,578,747)

25. Contingent liabilities

The company has entered into an unlimited guarantee in respect of loans with other companies in the group. At 31 March 2015 the loans guaranteed were £13,910,341 (2014: £12,645,895) The company has guaranteed certain leases for properties occupied by a group company.

The group makes a mixture of exempt and taxable supplies and Temple Finance Limited, one of the group's trading subsidiaries, applies a partial exemption method to calculate the amount of recoverable VAT incurred on costs which relate to taxable supplies. The directors have proposed a Partial Exemption Special Method which has not been accepted by HMRC. Input tax claims have therefore continued to be made on the Standard Method, with a Standard Method over-ride to reflect use of certain overheads in respect of exempt supplies. This approach has been challenged by HMRC, which considers that VAT has been over-recovered and has raised assessments for amounts that it believes are due in respect of the VAT returns up to and including March 2013.

The directors, having taken advice, believe that these assessments in respect of periods up to and including March 2010 were raised out of time and are not due. They also strongly contest the basis on which all assessments have been made and have appealed them.

In addition, as at 30 April 2014 HMRC has raised assessments in the sum of £4,169,319, contending that cross charges between group companies were not made at open market value. These contradict independent transfer pricing reviews conducted for the group which suggest that the group's inter-company charges fall within an acceptable bench-marked range.

Furthermore, the directors, having taken advice, believe that assessments up to March 2011 were raised out of time. The directors also consider that the current recharges are correct and can be supported with appropriate evidence, and will continue vigorously to contest the position adopted by HMRC.

There are no other contingent liabilities at 31 March 2015 or 31 March 2014.

26. Controlling party

The ultimate controlling party is Cabot Square Capital Nominee Limited.
