NOTES TO THE ABBREVIATED ACCOUNTS
FOR THE YEAR ENDED 31 MARCH 2013

1. ACCOUNTING POLICIES

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

The company was dormant throughout the current year and previous year.

Deferred taxation

The charge for taxation takes into account taxation deferred as a result of timing differences between the treatment of certain items for taxation and accounting purposes. In general, deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

However deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred taxation is measured on a non-discounted basis at the tax rates that are expected to apply in the periods in which the timing difference reverse, based on tax rates and the law enacted or substantively enacted at the balance sheet date.
