**DIRECTORS' REPORT**

5 April 2009

The directors present their Annual Report and Audited Financial Statements for the year ended 5 April 2009.

**ACTIVITIES**

Ingenious Broadcasting 18 plc (the "Company") is a member of Ingenious Broadcasting 2 LLP (the "Partnership"), a limited liability partnership formed to produce and exploit a high quality portfolio of television programmes with ongoing potential for commercial exploitation across all media.

In assessing which programmes to produce, the Partnership endeavours to work with the most successful broadcasters and sales agents and to work with and engage the highest quality co-producers and production services companies and personnel to carry out its production activities. The Partnership also benefits from its relationship with the Ingenious Media group in sourcing television projects, and intends to create a diverse portfolio of programmes with both domestic and international appeal.

**REVIEW OF THE BUSINESS**

The Company made a profit after tax of £40,736 (2008: £169,188 loss after tax).

The net assets of the Company at 5 April 2009 were £1,822,398 (2008: £1,191,662).

The directors consider the Company's performance during the year to be satisfactory, and will continue to monitor the trading activities undertaken through the Partnership and the performance of the Partnership's operator.

**NEW PRODUCTION ACTIVITIES**

The Company has raised capital of £2.0 million to date of which £1.9 million has been deployed into the Partnership. The Partnership has engaged in £33.1million (2008: £21.6 million) of television production expenditure for the year ended 5 April 2009. Each of these productions involved co-producing with leading independent television producers and several of the UK's key broadcasters ultimately acquired the programmes for their domestic broadcast upon delivery.

**COMPLETED ACTIVITIES**

During the year to 5 April 2009 the Partnership committed to co-produce seven (2008: seven) programmes. Four (2008: five) of these programmes were completed during the year, and three (2008: two) were still in production at the year end.

Total budget commitments in relation to these programmes totalled £33.1 million (2008: £21.6 million) and distributors acting on behalf of the Partnership have pre-sold the rights to these programmes for the full £33.1million (2008: £21.6million). J L Boyton	-	-
M T Bugden	1 June 2009	-
J H M Clayton	1 June 2009	-
S E Ford	-	9 May 2008
N A Forster	18 August 2008	-
P A McKenna	-	1 June 2009
D M Reid	-	-
S T Speight	1 June 2009	-

#### PAYMENT OF SUPPLIERS

The Company agrees payment terms as part of the commercial arrangement negotiated with suppliers. Payments are made on these terms provided the supplier meets its obligations.

The trade creditor days at 5 April 2009 were nil (2008: nil).

#### FINANCIAL RISK MANAGEMENT OBJECTIVES AND PROCEDURES

As the Company's key activity is investment in the Partnership, the directors have deemed it appropriate to consider the key risks to which the Partnership is exposed. Due to the nature of the Partnership's business and the assets and liabilities contained within its balance sheet, the key financial risk the directors consider relevant is credit risk. This risk is mitigated by the Partnership's credit control policies and greenlighting procedure. In assessing which programmes to produce, the Partnership endeavours to work with the most successful co-producers, distributors and broadcasters, and to work with and engage the highest quality personnel to carry out its production activities. The Partnership continues to monitor programmes' exploitation in international markets and anticipates further income from those sources.

They are also responsible for the system of internal control, for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

## NOTES TO THE FINANCIAL STATEMENTS

5 April 2009

### 1. Principal accounting policies

#### Basis of accounting

The financial statements have been prepared under the historical cost convention.

#### Compliance with accounting standards

The financial statements have been prepared in accordance with applicable United Kingdom accounting standards. The significant accounting policies adopted are summarised below. These policies have been consistently applied in the current year and prior financial period.

#### Investment in associated Partnership

The investment in the associated Partnership is accounted for using the equity method. The profit and loss account includes the Company's share of the Partnership's profits less losses while the Company's share of the net assets of the Partnership is shown in the balance sheet.

#### Taxation

Current tax, including UK corporation tax and foreign tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred taxation is provided in full on timing differences that result in an obligation at the balance sheet date to pay more tax, or a right to pay less tax, at a future date, at rates expected to apply when they crystallise based on current tax rates and law. Timing differences arise from the inclusion of items of income and expenditure in taxation computations in periods different from those in which they are included in financial statements. Deferred tax assets are recognised to the extent that it is regarded as more likely than not that they will be recovered. Deferred tax assets and liabilities are not discounted.

#### Foreign currency

Assets and liabilities in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are translated into sterling at the rate of exchange ruling at the date of the transaction. Exchange differences are taken into account in arriving at the operating profit/loss.

#### Financial instruments

The Company's principal financial instruments are its bank balance, receivables and redeemable preference shares. The main purpose of the bank balance and receivables are to provide funding for the Company's operations and to ensure the Company can meet its liabilities as they fall due.

Due to the nature of the financial instruments used by the Company, there is no exposure to price risk. Credit risk of receivables is closely monitored.

Redeemable preference shares are redeemed in the event that sufficient new ordinary shares are issued in accordance with the offer set out in the prospectus issued by the Company (see note 10) and the redeemable preference shares are fully paid up. The redeemable preference shares have therefore been classified as long term liabilities of the Company.

The Company makes use of money market facilities when appropriate.
