Notes to the abbreviated accounts

Year ended 31 January 2013

1 Accounting policies

Basis of accounting

The financial statements have been prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

Going concern

These accounts have been prepared on a going concern basis, notwithstanding the net current liabilities and balance sheet deficit position. The directors consider the going concern basis to be appropriate as they are optimistic about future trading prospects, and intend to provide further funding to the company to enable it to continue trading for the foreseeable future.

Turnover

The turnover shown in the profit and loss account represents the amount of goods and services provided during the year.

Fixed assets

All fixed assets are initially recorded at cost.

Depreciation

Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows:

Website development	- 33% straight line
Fixtures & Fittings	- 20% reducing balance
Office equipment	- 25% straight line

Financial instruments

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as either financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.

2 Share capital
