NOTES TO THE ABBREVIATED ACCOUNTS

FOR THE PERIOD ENDED 31 DECEMBER 2007

1.1 Accounting convention

The financial statements are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2007)

1.2 Compliance with accounting standards

The financial statements are prepared in accordance with applicable United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), which have been applied consistently (except as otherwise stated)

1.3 Turnover

Turnover represents amounts receivable from the sale of development properties and the provision of property development services, net of VAT

1.4 Stock and work in progress

Stock and work in progress represents the cost of properties for development and the cost of development. The cost of development properties includes attributable interest and other associated costs during the period of development. Interest is calculated on the development expenditure by reference to specific borrowings.

Stock and work in progress is valued at the lower of cost and estimated net realisable value.

1.5 Taxation

Corporation tax is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is recognised in respect of timing differences that have been originated but not reversed at the balance sheet date. Timing differences are differences between the company's taxable profits and its results as stated in the financial statements. A net deferred tax asset is regarded as recoverable and therefore recognised only to the extent that, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.
